Digital PRINTING

COLOR

Captures Attention.

Fast Turnarounds

The market for printing has been undergoing changes in recent years. A **demand for fast turnarounds** is one of the largest of those changes. Digital Printing gives the ability to have **next day printing** - there is little setup, no plating and no dry time.

Direct Marketing

Need an edge? Digital Printing creates a scenario where **each piece printed can be different.** The use of variable data, such as a customer data base, can be used to **personalize** each piece printed.

Short Run - Full Color

Small quantities at an affordable price. Difficult to believe, but true! With no setup costs, there is no more overprinting. **How many you need, is how many you get.** Need a reprint? Even easier and very affordable. **Convenience** at its best.

Extremely Efficient

The efficiency and convenience of Digital Printing **benefits any company whether large or small** The capability of full color short runs, direct marketing, and fast turnarounds is breaking down printing barriers.
