For over 50 years, Hospital Discount Pharmacy has been serving the needs of our local community.

When you shop locally, you support neighbors and keep jobs at home. Studies show that on average, 48% of each dollar spent on a purchase at a local independent business is recirculated locally, compared to less than 14% of purchases at chain stores.

**We would like to become your hometown independent pharmacy!**  
**Please contact us for a no hassle transfer of your prescriptions.**

Ketamine was significantly more effective than a commonly used sedative in reducing suicidal thoughts in depressed patients, according to researchers at Columbia University Medical Center (CUMC). They also found that Ketamine's anti-suicidal effects occurred within hours after its administration. The findings were published online recently in the American Journal of Psychiatry.

According to a report in The Lancet Gastroenterology & Hepatology, combining a 16-week initial course of the medication omalizumab with oral immunotherapy (OIT) greatly improves the efficacy of OIT for children with allergies to multiple foods, new clinical trial findings show. Omalizumab is an injectable antibody drug approved to treat moderate to severe allergic asthma.

High school seniors appear to be underreporting their nonmedical use of amphetamine, despite reporting using Adderall without a doctor's orders, finds a study published in the journal Drug and Alcohol Dependence. Amphetamine is the most prevalent stimulant in the United States, commonly prescribed for attention-deficit/hyperactivity disorder (ADHD). Adderall, a combination of amphetamine salts, has been linked to enhanced cognitive function and academic performance, which, in part, has led to its "nonmedical" use-where it is taken on one's own without a doctor's supervision- among high school and college students. Nonmedical use of amphetamine warrants concern due to its high potential for abuse and dependency, as well as potential adverse effects, including cardiovascular events and seizures. In addition, people who take prescription stimulants without a doctor's orders are more likely to engage in other drug use and risky behaviors. Presented as a service to the community by.

**SHOP TODAY'S LOW PRICE TAGS:**  
We have HUNDREDS of non-advertised items marked down throughout our entire store. More savings passed on to our customers. Just look for blue tags on the shelves.

**NO LIMITS:**  
Our competitors also have advertised specials. The difference is, in most cases, they have a limit on how many of an item you can buy at the sale price...we don't have any limits to family shoppers.

There are man-made religions by people who call themselves Christians yet many are divided by theories, and the Biblical Words of The Holy Father Elohim, Moses, Christ and His half-brother James, etc., are denied. They make themselves self-righteous and want the heavenly gifts without the necessary obedience. When asked for the Biblical guidance for their faith, they quip that you are just wanting to argue. Satisfied with their reasoning for salvation, they have no fear of The Holy Father Elohim or the wiles of the devil. (1Jn 3:4-9, Rev 22:14-15). So Be It!

**SHOP TODAY'S LOW PRICE TAGS:**  
We have HUNDREDS of non-advertised items marked down throughout our entire store. More savings passed on to our customers. Just look for blue tags on the shelves.

**NO LIMITS:**  
Our competitors also have advertised specials. The difference is, in most cases, they have a limit on how many of an item you can buy at the sale price...we don't have any limits to family shoppers.
