Manchester

Every Mailbox, Every Wednesday

#### Hi. I'm Mark Messick and I'm running for the office of Alderman. I would appreciate your vote and support.

I do not believe there is a need for more taxes to be levied on the people of Manchester. I want to commend the Board of Mayor and Alderman for passing a budget without raising taxes. The one thing that WORRIES me is they used nearly \$800,000.00 from the "rainy day" fund to balance the budget. If I keep taking money from my savings to balance my checking account, pretty soon there won't be anything left in my savings account. We need to learn to live on what we make. I have to and you have to. Why shouldn't the city have to?

In the budget, they failed to fully fund the Conference Center deficit for the entire year. What are you going to do when it runs out of money this year just like it does every year. This is wishful thinking on the part of the Board. It's like me looking in the mirror and wishing I was handsome. It just isn't going to happen. We need to tackle this problem and fix it. For 17 years, we have known about how much income the Conference Center brings in. Seems to me we could have a budget for them that spends only as much as they take in. Seems to simple, I must be mistaken. I've been in business all my life, and I know I can only spend as much as I make. This lesson needs to be applied to the Conference Center.

It's about time that the people of Manchester get something for all the taxes they are paying. It's time we switch priorities in this City and quit funding every request from the many departments of the City. I think our priority should be in helping make Manchester a great place to live and work. We need to finish the soccer fields. We need to pour some sidewalks. We need to widen some roads. We need to light the green way and install and fix some street lights. We are letting our growth exceed our needs.

About growth. One of the ways to keep our taxes down is to grow our tax base. New houses help, but what is really needed are some new industries. We have close to 400 acres in a city industrial park that is just sitting there. We need to begin to develop and promote it. Industry is never going to come if all we have to show them is an empty lot.
