**Calming The Student  
With Hypnosis**

By: Lori Kleinsmith

For some students, the stress and anxiety of school and academics can become overwhelming. The huge amount of pressure can come from themselves, parents, teachers, and friends. The hypnosis group reported a significant reduction in test anxiety and improvement in academic achievement. Both groups were

evaluated 6 weeks after the end of the course and the hypnosis group was found to have maintained their hypnosis treatment gains in achievement and reduction in anxiety. Cognitive behavioral hypnosis is a highly effective form of treatment that helps students improve performance and reduce anxiety. The self-hypnosis that was taught to students, which included relaxation techniques and the usage of imagery, was able to help the college fresh-
