WELCOME
ALL RITE-AID PHARMACY CUSTOMERS!

For over 50 years, Hospital Discount Pharmacy has been serving the needs of our local community.

When you shop locally, you support neighbors and keep jobs at home. Studies show that on average, 48% of each dollar spent on a purchase at a local independent business is recirculated locally, compared to less than 14% of purchases at chain stores.

We would like to become your hometown independent pharmacy!
 Please contact us for a no hassle transfer of your prescriptions.
 We accept all major insurance plans.

A new study published in the American Journal of Obstetrics & Gynecology provides additional support for treatment with vaginal progesterone to reduce the risk of preterm birth, neonatal complications and infant death in pregnant women with a short cervix. A shortened cervix is the most powerful predictor of preterm birth.

The long-term use of proton pump inhibitors (PPIs), a class of drugs commonly used to treat acid reflux, is linked to a more than doubling in the risk of developing stomach cancer, finds research published online in the journal Gut. And the longer PPIs were used, the greater was the risk of developing stomach cancer, rising to 5-fold after more than a year, to more than 6-fold after two or more years, and to more than 8 fold after three or more years.

Hot flashes (including night sweats) occur in up to 75% to 80% of all women in the U.S., with some of them considered debilitating and lasting for many years after the end of menstrual cycles. Despite the fact that hormone therapy has proven to be the most effective treatment for hot flashes and other bothersome menopause symptoms, women and their healthcare providers still question their safety, which has led to a decreased number of prescriptions and usage of hormones. A new study presented at The North American Menopause Society (NAMS) Annual Meeting demonstrates, however, that women remain skeptical regarding the safety of hormone therapy and prefer less proven options. The survey showed that participants were significantly less willing to use hormones for hot flashes and instead used exercise, diet, herbal supplements, acupuncture, or meditation. This was despite the fact that the benefits go beyond the relief of hot flashes and include improvement in night sweats, sleep disruption, prevention of bone loss, and fewer heart events.

SHOP TODAY'S LOW PRICE TAGS:
We have HUNDREDS of non-advertised items marked down throughout our entire store. More savings passed on to our customers. Just look for blue tags on the shelves.

NO LIMITS:
Our competitors also have advertised specials. The difference is, in most cases, they have a limit on how many of an item you can buy at the sale price...we don't have any limits to family shoppers.

Paul Roberts

Thank you so much for the outpouring of love and support our family has received since Paul's passing. So many have done so much! Too many to try to name names. The food, the visits, the cards, all the beautiful flowers and the donations that have been made in Paul's memory. Paul would be humbled and honored that you thought of him and his family. But above all, we thank you for praying for us. Paul would want all his family and friends to join him in his eternal home where he will live forever with the Lord. So if you do not know Jesus Christ as Lord and Savior of your life, today is the day of salvation. 2 Corinthians 6:2.

Again, we thank you all so much.

Saving You MONEY

SHOP TODAY'S LOW PRICE TAGS:
We have HUNDREDS of non-advertised items marked down throughout our entire store. More savings passed on to our customers. Just look for blue tags on the shelves.

NO LIMITS:
Our competitors also have advertised specials. The difference is, in most cases, they have a limit on how many of an item you can buy at the sale price...we don't have any limits to family shoppers.
