Take-home lesson? If you're looking for a general rule of thumb, it's that less is more: Lower-cost projects generally reap bigger returns, with four of the five projects that cost less than \$5,000 ranking among the top five for money back when you sell. - Spacious is a bit of an understatement!
- Open main floor with a living room that expands into a huge sun filled family room accessing a wooden deck.
- Open kitchen leads to a huge mudroom/utility room and bathroom off the garage.
- Main floor master has a walk through closet and a compartmentalized bath with 2 sinks and stools.
- Lower level is accessed 3 ways with a generous rec room that leads to a walkout sun room featuring tile plank floor.
- 2 bedrooms and bath as well as a large storage area plumbed for kitchen make this lower level income potential.
- 4th bedroom potential in the basement — needs egress window
