Petitely-scaled yet big on comfort, this cozy recliner can be customized to your version of perfection. Choose from hundreds of fabrics and leathers, or even upgrade to the ease of power recline.

This living room collection will lend a retro feel to your home. The silhouette is small enough to fit almost any family room, yet large enough to accommodate your guests. With its clean lines, matching welt, and high tapered legs, you will certainly enjoy its sophisticated profile. Available as a sofa, loveseat, chair, ottoman, push back reclining chair, and sectional available with or without a chaise.

Welcome to the
hearing revolution

INTRODUCING

livio^{AI}

Built on our most powerful and efficient platform — the Thrive platform, Livio AI is the world's first hearing aid to provide both superior sound quality and the ability for patients to track their brain and body health. As the first-ever hearing aid to feature integrated sensors and artificial intelligence, Livio AI is a multi-purpose device that redefines what a hearing aid can do.

Comfort and personalization redefined

It's been proven that hearing health is directly connected to overall health and well-being.

When you're able to hear and engage with the world around you, you live a better and healthier life.

Cognitive Decline

Adults with untreated hearing loss experience a **30-40% faster decline** in cognitive abilities compared to peers with aided hearing.

30%

40%

Dementia

Adults with untreated loss are more likely to develop dementia.

Depression

Those with untreated hearing loss have **significantly higher** incidence of feelings of isolation and depression.

Balance

People with **mild hearing loss (25 dB)** are more likely to have a history of falling. Every additional 10 decibels of hearing loss increases the chances of falling by **1.4 times** the original risk.

Lifespan

Studies show older **adults with untreated impaired hearing** have a **shorter lifespan** than peers.

Tinnitus

90% of people with tinnitus have hearing loss.
