It is impossible for anyone to deny Christ's Biblical Words (Jn 14:24) the Holy Truth (Jn 14:6) to sin (1Jn 3:4) no more (Jn 5:14, 8:11) and be received of Elohim! Christ is to be heard (Mt 3:17,17:5) or be destroyed (Acts 3:23). Many believe to be saved just by calling on a translated name (Rom 10:13) without obeying, the devils also believe and tremble yet obey. Most so-called Christian preachers teach Christ is perfect and without sin, call Him Lord yet not teach Christ's commands, which are written (Lk 6:46). Teach worship by changed times and laws (Dan 7:25) and try to make The Holy Bible support them (Rev 22:18-19). Rejection of the law is transgression of the law which is sin and Christ was manifested to destroy the devils works (sin), he that committeth sin is of the devil (1Jn 3:8-9). So Be It!

The U.S. Food and Drug Administration recently approved Admelog (insulin lispro injection), a short-acting insulin indicated to improve control in blood sugar levels in adults and pediatric patients aged 3 years and older with type 1 diabetes mellitus and adults with type 2 diabetes mellitus. According to the Centers for Disease Control and Prevention, More than 30 million people in the U.S. have diabetes, a chronic disease that affects how the body turns food into energy and the body's production of natural insulin. Over time, diabetes increases the risk of serious health complications, including heart disease, blindness, and nerve and kidney damage. Improvement in blood sugar control through treatment with insulin, a common treatment, can reduce the risk of some of these long-term complications.

\*\*\*

A decade of data on hundreds of boys and girls who received the HPV vaccine indicates the vaccine is safe and effective long term in protecting against the most virulent strains of the virus, researchers report in the journal Pediatrics. Some 79 million Americans, most in their late teens and early 20s, are infected with human papillomavirus, according to the Centers for Disease Control and Prevention. About half of those are infected with the most virulent strains of the virus, which are targeted by the quadrivalent vaccine.

\*\*\*

Diabetes patients who take the most commonly prescribed diabetes drug, metformin, are the least likely to follow medical advice regarding their medication due its side effects, a new article in the journal Diabetes, Obesity and Metabolism reports, 30 per cent of metformin doses prescribed to patients are not taken, compared to 23 percent of sulfonylureas (such as gliclazide) and 20 percent for pioglitazone. Researchers believe that the variance in adherence rates are in part due to side effects of the different drugs. Metformin commonly causes gastrointestinal symptoms such as diarrhea and flatulence.

# EY

**SHOP TODAY'S LOW PRICE TAGS:**  
 We have HUNDREDS of non-advertised items marked down throughout our entire store. More savings passed on to our customers. Just look for blue tags on the shelves.

**NO LIMITS:**  
 Our competitors also have advertised specials. The difference is, in most cases, they have a limit on how many of an item you can buy at the sale price...we don't have any limits to family shoppers.

## IS WHAT WE ARE ALL ABOUT

Local North Alabama, Folks Serving North Alabama Folks! We Truly Appreciate Your Business

AD PRICES EFFECTIVE WEDNESDAY, SEPTEMBER 26, 2018 THRU TUESDAY, OCTOBER 2, 2018

**SHOP TODAY'S LOW PRICE TAGS:**  
We have HUNDREDS of non-advertised items marked down throughout our entire store. More savings passed on to our customers. Just look for blue tags on the shelves.

**NO LIMITS:**  
Our competitors also have advertised specials. The difference is, in most cases, they have a limit on how many of an item you can buy at the sale price...we don't have any limits to family shoppers.
