Wyomissing Structures focused on quality

From our humble beginnings on the farm in Lancaster County to our first location at the Wyomissing Farmers Market to our current sales lot at 1 Montrose Blvd. in Shillington, Pa., we here at Wyomissing Structures always strive to provide you, our customers and friends, with the highest-quality products sold at affordable prices and delivered with our primary focus of outstanding customer service.

Our signature line of storage structures is "top of the

line" and will blend in to even the most prestigious of neighborhoods. Our products have been approved by many homeowners' associations in several counties, and we welcome the opportunity to work with many more. We are fully licensed, PA #103458, insured and will work with you to obtain permits, although permit costs and processes remain the sole responsibility of the customer.

Our services at Wyomissing Structures are focused on quality, and we will work closely

with our customers to ensure their needs are met. We will design the structure you desire, prep the site and deliver locally for free. Our goal is 100 percent customer satisfaction.

We are experienced roofers and offer a complete range of high-quality roofing products. We replace roofs and repair leaky roofs as well as repair and install decks. Shingle warranties range from 25 years to a lifetime.

We are also experienced vinyl siding installers. We will re-

pair damaged siding or replace existing siding entirely.

From design to site prep to installation/construction to cleanup, you can be assured that we will always provide the product you expect in a prompt, professional and courteous manner.

Wyomissing Structures is located at 1 Montrose Blvd., Shillington, PA 17607. Our hours are Monday-Friday 8 a.m. to 5 p.m. and Saturday 8 a.m. to 2 p.m. (evenings by appointment). Call us at (610) 743-5660.

mates, proposals, and advertisements.

You should also check for documented complaints with the Better Business Bureau.

Get References and Call Them (customers and suppliers)

Always ask your contractor for references. This includes, of course, references of recent customers for whom the contractor has completed like

projects. But also ask for references from the contractor's supplier(s) that they will be using for your project. Call them or stop in and have a brief conversation to get a feel for each individual's perception of the contractor in general, as well as details of project flow, cleanliness, communication, and punctuality.

The people who sweat the small details (i.e. how clean they keep their trucks and tools, being punctual, leaving the jobsite clean at day's end, and how they and their crew present themselves) will most often care more about the big details (like the outcome of

your project).

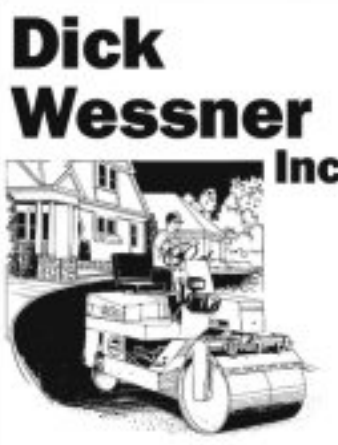

Always have a Contract.. and Read It

Nailing down a project's specifics in a written contract protects the homeowner and the contractor. It's critical for you to have a signed contract before any work begins. It's also critical for you to read and fully understand what's in the con-

tract prior to signing. It's common for a contractor to ask for one-third to one-half of the contract price in advance as a deposit. Don't ever pay the contract price in full until the work is completed to specifications.

Know Your Rights

A home improvement contractor must provide you with a copy of the complete contract, free of charge.

Kuzan's True Value Hardware – not an ordinary hardware store

Kuzan's True Value Hardware is not an ordinary hardware store.

Kuzan's was started in 1953 as a storm window business by Andrew Kuzan. In 1957, Andrew and his wife, Marie, expanded the business with an addition to the store and started selling variety items. In 1961, the store was expanded again, adding another 3,000 square feet, making the retail sales area a total 6,000 square feet with 6,000 square feet of storage on the bottom level. Andrew and Marie lived on the second floor above the store and also used some of that level for storage.

In 1976, they built the present store, which has 22,000 square feet of retail space on 8 acres of land selling True Value Hardware products. An additional 8,000 square feet of space was added in 1979, expanding into the lawn and gar-

den department.

Our growth continued when Dennis and Ronald Heffner purchased the business in 1996 when the Kuzan's wanted to retire. In 1997, we added our outdoor furniture, backyard shed-sand Amish handcrafted furniture and crafts. In 1999, we added Just Ask Rental to our line of services.

Today, Kuzan's True Value Hardware Store and Rental Center is known for having the best selection of hard-to-find hardware items and the largest gift selection, which include Ertl Toys, Breyer Horses, candles, toys and Amish-made furniture. We pride ourselves with providing our customers with excellent service, and if we don't have it in stock, we will try hard to find what you are looking for.

At Kuzan's True Value Hardware store, we recog-

nize that exceptional service and innovation are critical to our success. Our many services are an example of the quality service and commitment our customers have come to expect from us. Our commitment is to "help you get the job done."

Even in today's economy, we bring to our customers the best products available at the lowest prices. Our staff has a wealth of expertise in all home improvement areas, garden equipment, tools, rental equipment and storage sheds, plus a gift shop with unique items that are unmatched by our competitors. We have everything you need. If we don't have it, we'll find it for you.
