September 2018

Dear Citizens,

The Orange City Fire Department has had a good first year in the city's new station. In addition to our own meetings and trainings, the new facility allows us to hold county-wide classes in topics like: responding to propane emergencies, grain bin rescue, and environmental hazard response. We will soon become a testing site for firefighters seeking official Iowa Fire Certification. If you haven't yet toured the station, stop by on Saturday mornings between 9:30 and 10:30 and our firefighters will be happy to show you around. We remain grateful for your support!

Membership in the department remains strong with 31 firefighters on call, assisted by four student firefighters from local high schools. With the help of some of our retired firefighters, we've been going through the department's records (dating back to the founding of the department in 1897!) to identify all former members and their dates of service. Eventually, we'd like to make this information available to the public. If you have records or photographs from a family member who served, we'd love to have you share them with us.

This Fall, we are finalizing plans to replace Engine 65, a unit purchased in 1992. With careful maintenance, it's served us well beyond the 20-year replacement schedule. The new engine is being built by Rosenbauer of Lyons, SD; it should arrive at our station in Fall 2019. It will have improved safety features, including emergency lights, and seating with harness seatbelts instead of lap belts.

The focus of our fundraising efforts this year is the purchase of hand tools for the new engine. If you'd like to support this project, drop off donations at our annual Open House, Wednesday, October 10 from 5-7pm, when we will be serving a meal and giving tours of the station. Or send a check to

Orange City Fire Department □ 125 Central Avenue SE □ Orange City IA 51041

"Look. Listen. Learn. Be aware – fire can happen anywhere." Through three simple calls-to-action, this year's National Fire Prevention Week theme identifies basic but essential ways people can reduce their risk from fire and be prepared in the event of one:

- Look for places fire can start
- Listen for the sound of the smoke alarm
- Learn two ways out of each room, especially when attending events in public places

As always, Fire Prevention Week is a reminder to test home smoke detectors and replace weak batteries as well as detectors that are more than 10 years old.

Thanks again for all your support!
