"Is that really your name?" I asked her.

"No" she admitted. "But if people are going to holler at me all day, I can at least be called something I like."

## DID I MARRY THE RIGHT PERSON?

During one of our seminars, a woman asked a common question.

She said, "How do I know if I married the right person?"

I noticed that there was a large man sitting next to her so I said,

"It depends. Is that your husband?" In all seriousness, she answered "How do you know?"

Let me answer this question because the chances are good that it's weighing on your mind.

Here's the answer.

EVERY relationship has a cycle. In the beginning, you fell in love with your spouse. You anticipated their call, wanted their touch, and liked their idiosyncrasies.

Falling in love with your spouse wasn't hard. In fact, it was a completely natural and spontaneous experience. You didn't have to DO anything. That's why it's called "falling" in love...

Because it's happening TO YOU.

People in love sometimes say, "I was swept of my feet." Think about the imagery of that \_\_ expression. It implies that you were just standing there; doing nothing, and then something came along and happened TO YOU.

Falling is love is easy. It's a passive and spontaneous experience. But after a few years of marriage, the euphoria of love fades. It's the natural cycle of EVERY relationship. Slowly but surely, phone calls become a bother (if they come at all), touch is not always welcome (when it happens), and your spouse's idiosyncrasies, instead of being cute, drive you nuts.

The symptoms of this stage vary with every relationship, but if you think about your marriage , you wi ll notice a dramatic difference between the initial stage when you were in love and a much duller or even angry subsequent stage..

At this point, you and/or your spouse might start asking, "Did I marry the right person?" And as you and your spouse reflect on the euphoria of the love you once had, you may begin to desire that experience with someone else. This is when marriages breakdown. People blame their spouse for their unhappiness and look outside their marriage for fulfillment.

Extramarital fulfillment comes in all shapes and sizes. Infidelity is the most obvious. But sometimes people turn to work,a hobby, a friendship, excessive TV, or abusive substances.

But the answer to this dilemma does NOT lie outside your marriage. It lies within it. I'm not saying that you couldn't fall in love with someone else. You could.

And TEMPORARILY you'd feel better. But you'd be in the same situation a few years later. Because (listen carefully to this):

THE KEY TO SUCCEEDING IN MARRIAGE IS NOT FINDING THE RIGHT PERSON; IT'S LEARNING TO LOVE THE PERSON YOU FOUND.

SUSTAINING love is not a passive or spontaneous experience. It'll NEVER just happen to you. You can't "find" LASTING love. You have to "make" it day in and day out. That's why we have the \_\_ expression "the labor of love."

Because it takes time, effort, and energy . And most importantly, it takes WISDOM .

You have to know WHAT TO DO to make your marriage work.

Make no mistake about it. Love is NOT a mystery. There are specific things you can do (with or without your spouse) to succeed with your marriage.

Just as there are physical laws of the universe (such as gravity), there are also laws for relationships. Just as the right diet and exercise program makes you physically stronger, certain habits in your relationship WILL make your marriage stronger. It's a direct cause and effect. If you know and apply the laws, the results are predictable...you can "make" love HAPPEN...

Love in marriage is indeed a "decision"... Not just a feeling.

The image shows the logo for B & P Roofing. The logo features a blue oval with a white roofline and a five-pointed star above it. The text "B & P Roofing" is written in a blue, serif font, with "B & P" in a larger, bolder font than "Roofing". Below the logo, there is a red banner with the text "Residential & Commercial" in white. At the bottom, there are two lines of text: "www.rooffoampro.com" and "www.bandproofing.com" in white, and a large yellow number "434-429-7108" on a blue background. In the top left corner, there is a small logo for "GAF Master Elite" with the text "NATIONAL CERTIFIED" and "EXCELLENCE IN ROOFING CONTRACTORS". In the top right corner, there is a logo for "BBB ACCREDITED BUSINESS" with the text "ACCREDITED BUSINESS".

# Salome's Stars

ARIES (March 21 to April 19) A bid for you to step in and take over an incomplete project could prove to be an excellent learning experience that you can take with you when a new opportunity opens up.

**TAURUS (April 20 to May 20)** It's a good time for socializing, both with family and with friends. Your aspects also favor developing new relationships, any or all of which might become especially meaningful.

**GEMINI (May 21 to June 20)** Your success in handling a recent difficult situation prompts a request to handle another workplace problem. But this is one you should accept only if you get all of the relevant facts.

**CANCER** (June 21 to July 22) New information about a past decision raises some unsettling questions from an old friend. Be prepared to explain your actions fully and, if necessary, make adjustments.

LEO (July 23 to August 22) This is not a good time to share personal secrets, even with someone you've known for a long while. What you don't reveal now won't come back to haunt you later.

**VIRGO (August 23 to September 22)** Pushing yourself to meet a project deadline is admirable. But be careful not to leave out important details in your rush to complete your work and send it off.

**LIBRA** (September 23 to October 22) Watch that you don't take on more than you can handle when offering to help someone with a personal problem. There might be hidden factors you weren't told about.

SCORPIO (October 23 to November 21) That major move you've been considering could come sooner than you expected. Make sure you'll be ready with the facts you need when decision time arrives.

SAGITTARIUS (November 22 to December 21) Lan-  
guishing relationships can benefit from a break in  
routine. Get out of the rut and do something new and  
maybe more than a little unpredictable this weekend.

CAPRICORN (December 22 to January 19) Although you don't think of yourself as a role model, your ability to make a tough decision at this time sets an example for others, who admire your courage.

AQUARIUS (January 20 to February 18) You need to move any remaining obstacles out of your way before you can take on a new challenge. Seek advice from close, trusted friends and associates.

PISCES (February 19 to March 20) A career change appears increasingly likely to happen during the next several weeks. It's a good idea to start now to prepare, so you can be ready to make the move when the time comes.

**BORN THIS WEEK:** You have a strong sense of obligation to justice, which inspires others to follow your example and do the right thing.

If you have never visited the Esther the Wonder Pig Facebook page, you may want to spend some time there. I was late to her fan club, not joining until late 2017. She has over a million followers.

She was bought as a "micro-pig" living in New York City, but the men who bought her knew that "micro" wasn't part of her make-up. They were committed to providing her with a wonderful life, so they moved to Canada and through amazing work, they founded the Happily Ever Esther Farm Sanctuary. Esther now weighs about 600 pounds and has become quite the poster pig for humane treatment of animals normally used for food.

Esther's story as told on Facebook has done what mere words cannot do -- she has helped people realize that pigs are smart animals that are filled with personality. Esther has a dog friend and an absolutely wonderful turkey named Cornelius who help bring her story to life. I fully recognize that some people may scoff, but pictures and videos of Esther leading her happy life in Canada (yes, sometimes even with homemade coats and hats!) bring happiness and an increased awareness that farm animals are intelligent, emotional beings.

As people see the horrible pictures of the thousands upon thousands of pigs who drowned in the flooding of Hurricane

Florence, as well as the sad pictures of pigs swimming in a desperate search for safe places to escape, society as a whole may be beginning to recognize that we should somehow find a way to treat farm animals better.

There is a sanctuary for farm animals in this area. Ziggy's Refuge Farm Sanctuary can also be found on Facebook. It is now home to three pigs rescued from the flood waters. We are grateful that they have also provided a wonderful life for animals that we have received.

Esther and Ziggy - and their friends - are fantastic ambassadors for their species. Even though not everyone who follows them will become vegan or vegetarian, any increased awareness of the plight of animals used for food is a good thing.

### Burmese Glass Lamp

American homes in the 1700s seem very colorless today when compared with log cabins and many restored homes and buildings. Ceramics during that time usually were made of clay ranging from pale beige to red from nearby sources. Fabrics were home-made from sheep's wool, cotton or flax, almost all white to beige. Some

became opaque and shaded peach to yellow when reheated. Other glass in color combinations with unusual names was made about the same time. Its popularity lasted until the somber Mission style arrived in the 1900s.

Today, there is colorful antique and reproduction glass that usually is made in Victorian shapes. A Mt. Washington student lamp made of Burmese glass decorated with Japanese dragons and an imaginary flower sold at an Early auction in Ohio for \$3,335.

**Q.** At a recent auction of textiles, a number of "show towels" were sold. How were they used?

**A.** Show towels were popular with Pennsylvania German girls. They are long, rectangular pieces of fabric that were used to demonstrate sewing skill. The finished towel was hung on a door as proof of their work and as an added decoration in the kitchen. The towel, not made to be used, often was made of linen and cotton. They usually included the name of the maker, location and date. Sometimes a finished towel was a gift for a new bride. The towels were most popular from 1820 to 1870. A 19th-century show towel in good condition with names and other designs cross-stitched in a pleasing pattern sells for about \$1,000 today.

weaving included wool from black sheep that could make a black line.

By the end of the 1700s, fabrics were dyed many colors, and ceramics were available in blue, occasionally black and a few other colors. Furniture was wood, but it wasn't painted, just waxed or oiled. Only glass and ceramics from overseas had color. (Research from the past 30 years has shown that the rich had colorful wallpaper, rugs, dishes, bed hangings and more, but much had faded over time.) The popular color "Williamsburg blue" actually is a faded bright blue.

Color came to home decoration in the mid-1800s. Clear or single-color glass was made, then multicolored glass was perfected. Items like lamps with glass shades could be made with a heat-sensitive glass called Burmese, which

\* It was noted American science fiction author Philip K. Dick who made the following sage observation: "Reality is that which, when you stop believing in it, doesn't go away."

\* You might be surprised to learn that when Hernan Cortes reached the New World in the 1600s, he found the Aztecs drinking hot chocolate at their banquets.

\* The World Health Organization does not include cockroaches on its list of insects hazardous to human health.

\* Are you afraid of rattlesnakes? Those are certainly dangerous creatures, but keep in mind that the venom of a black widow spider is 15 times deadlier than that of the rattler -- and the spider doesn't provide an early-warning alarm like the rattler does.

\* The name for that lovely lavender stone, amethyst, is derived from the Greek term for "not drunk."

\* You probably knew that cats were revered in ancient Egypt, but did you know that when a domestic cat died, the family went into mourning? Yep. People would shave their eyebrows to demonstrate their grief over the passing of their beloved pet.

\* If you're like the average American, you eat roughly 17 pounds of potato chips every year.

\* Way back in 1879, the Cincinnati Gazette predicted that the game of baseball had "run its course."

\* Singer and songwriter Roger Miller, best known for his hit song "King of the Road," had a passion for music early, even though his family was poor. When he was in grade school, he spent his weekends picking cotton so he could save up enough money to buy a guitar. After eighth grade he quit school and went to work herding cattle and riding in rodeos.

# HOLLYWOOD

by Tony Rizzo

HOLLYWOOD — In 1960 I met an actor at the stage door of "Little Moon of Alban," which starred **Julie Harris**. He was so new that he was shocked I'd want an autograph or to take a picture of him. I next waited to take pictures at the stage door of his play "Barefoot in the Park." He once asked, "Why do you take so many pictures of me?" and I told him, "You're going to Hollywood to become a big movie star!"

At a press conference for "All the President's Men" in 1976 at Warner Brothers Studio, he stood with **Dustin Hoffman** answering questions. He kept staring at me, and my mother (visiting me then) said, "He keeps looking at you." I said, "He thinks he knows me!" When it ended, he walked over to me and said, "I want to shake your hand, Tony, you were the first person to ever say I'd be a movie star!" I turned to my mom and said, "Mom, meet **Robert Redford**."

He recently announced that "The Old Man and the Gun," with **Casey Affleck**, **Sissy Spacek** and **Danny Glover**, which opened Sept. 28, will be his last film as an actor.

Last week I wrote about reboots and remakes, but I'm not the only one worried about the lack of original creativity today in films and TV. Redford and I are Facebook friends, and he recently wondered why **Steven Spielberg** was remaking the 1961 classic film musical "West Side Story." His Facebook page blew up and he was compelled to post, "OK everyone ... breathe. My post on Steven's remake of 'West Side Story' has reached epic comments. He will do what he will do. That is a fact. My opinion is just that, an opinion."

"I also have personal reasons for my take on it. And I am referring to a classic by AFI (American Film Institute) standards, not Redford standards.

Robert Redford

Why do we watch the classics? Me? Because, I am vastly entertained by the beautiful directing, cinematography, writing, great acting and above all ... storyline that I encounter. 'West Side Story' won 10 Academy Awards! It doesn't need me to defend it. ... I just love it ... and that is my only reason for respectfully not wanting to see a new version. With that said, he had better buckle in and bring it. The new 'Ben-Hur' needed to be renamed 'Ben-Hurt,' I wish him well."

Considering that Redford created the Sundance Film Festival and that many films are launched from his platform, we respect his right to speak his mind — after all, he was the Sundance Kid! Redford probably is the last male star created by the movie studios during The Golden Age of Hollywood. He's truly one of the last movie stars!

# It's more than a month.

October is National Breast Cancer Awareness month, but for us fighting breast cancer is on the calendar every day. We know early detection of breast cancer is key. One of the best methods of early detection is an annual mammogram. This simple, routine screening helps detect breast cancer earlier than if you waited for symptoms to start.

According to the American Cancer Society women should have the choice to start screening with yearly mammograms as early as age 40.

CITY OF DANVILLE  
**LOOSE LEAF COLLECTION**  
GUIDELINES FOR CITY RESIDENTS

October 1, 2018 - January 31, 2019

- Loose leaves can be either raked to the property line in a pile for vacuuming or bagged for pickup. Loose leaves can be placed in front of your property any time prior to your collection day. Bagged leaves should be placed out, no sooner than, the evening prior to your collection day.
- Loose leaves must be within reach of the vacuum machine from the paved roadway (no more than four feet).
- Do not mix loose leaves with brush, rocks, sticks, limbs, glass, or other solid objects.
- Do not place loose leaves in ditches below grade level.
- Do not place loose leaf piles next to vehicles, behind poles, mailboxes, guardrails, or fire hydrants.
- Avoid, if possible, placing loose leaves in storm gutters blocking the flow of water to storm drains or inlets.
- Avoid, if possible, placing loose leaves on top of water meters, gas meters, manholes, or sidewalks.

**Other reminders . . .**

- Please do not approach the leaf vacuum machines.
- City residents may obtain biodegradable bags for free in the Public Works office.
- Typically, yard waste and loose leaves are collected on the same schedule as garbage collection.
- All contractors hired to do clearing of lots or tree work must remove any yard waste generated as a result of the work being done.
- Many factors affect productivity and the Public Works Department's ability to stay on a weekly schedule. Some of the factors are:

- Timing of the first significant frost
- Duration of leaf fall (gradual or all at once)
- Significant amount of rain or drought during leaf season
- Occurrence of fair weather raking weekends versus bad weather
- Early snow falls (if snow occurs, the schedule will be modified accordingly)
- Equipment breakdowns

*If your loose leaves have been missed or you need to know if your area is behind schedule, you may call the Public Works Department at 799-5245 between 8 a.m. and 4 p.m.*

For more information, go to: [City of Danville Loose Leaf Collection](#)

1. Name the female artist who in 1969 was the first to release “Easy Come, Easy Go.”
2. What blues singer released an album titled “Don’t Be Afraid of the Dark”?
3. Which artist was the first to release “Nothing’s Gonna Change My Love for You”?
4. Name the group that released “I’m Happy Just to Dance With You,” and when?
5. Name the song that contains this lyric: “I left Tennessee in a hurry, dear, The same way that I’m leavin’ you, Because love is mainly just memories And everyone’s got them a few.”

Answers

1. Cass Elliot, in 1969, on her second album, “Bubblegum, Lemonade & ... Something for Mama.” Bobby Sherman covered the song the next year.
2. Robert Cray, in 1988. Cray already had won five Grammys, including one for his “Strong Persuader” album in 1986.
3. George Benson, in 1985. He never released the single (only videos) in the U.S., and the song received little notice until Glenn Medeiros released his version two years later.
4. The Beatles, in 1964.
5. “The Brand New Tennessee Waltz,” by singer-songwriter Jesse Winchester, in 1970. This was the first song Winchester ever wrote, in Canada, where he’d moved to avoid the draft.

CT Scan vs. Stress Test

DEAR DR. ROACH: Have you heard of the 64-slice test for your heart? Would you recommend it instead of a stress test? -- D.F.  
ANSWER: You're asking about a CT scan of the heart. The use of multiple detectors allows the CT scan to get a very high-resolution picture of the heart very quickly. Modern 64-slice detectors can construct an entire 3-D image of the heart in five seconds under optimal conditions. The scan is excellent at detecting calcium in the arteries, which is imperfectly correlated with blockages in the arteries. However, by adding intravenous dye, blockages in the arteries can be detected with accuracy approaching that of a cardiac angiogram. Thus, for the diagnosis of coronary artery disease, a heart CT scan can provide information similar to a stress test.

However, a stress test gives information not only on anatomy, such as blockages, but on physiology as well. By measuring the amount of time someone can exercise, and the response of the heart rate to that exercise, the cardiologist can gain useful prognostic information, which is impossible to glean from an anatomic test like a CT scan or even a cardiac catheterization and angiogram. The two tests are complementary, and we often obtain both. So, it really depends on the goals of the stress test as to which is preferred.

DEAR DR. ROACH: I have breast cancer that has metastasized to my bones. I know that there have been great strides in curing cancer at the original site but there doesn't seem to be any work done to help when it has spread. Are you aware of any? I am 87 years old. -- L.L.

ANSWER: Once breast cancer -- and indeed, most cancers -- has spread beyond its original location (metastasized), it becomes much more difficult to cure. However, there have been significant improvements in the treatment of metastatic breast cancer. Cure might not be possible, but a good quality of life for months or years is possible (half of women with metastatic breast cancer will live longer than two years). The exact treatment depends on the pathology and receptor status of the cancer, and a plan needs to be individualized by an experienced oncologist.

DEAR DR. ROACH: I normally go to the dermatologist once a year to get a skin check and follow up on some moles I had removed. Now the office recommends that I go every three months. What gives? -- F.M.  
ANSWER: I'm guessing your dermatologist is keeping a close eye on something he or she doesn't like but isn't quite worried enough to do a biopsy. I don't want to second-guess your dermatologist. When you go back, ask and find out. If you really dislike going so often -- perhaps because of copayments, inconvenience or having to take time away from work or family -- tell him or her so that you both can work toward a plan that is easiest for you but still allows the dermatologist to keep you free from skin cancer or other problems.

Dr. Roach regrets that he is unable to answer individual letters, but will incorporate them in the column whenever possible.
