RE/MAX Titanium Announces New Associate Broker

RE/MAX Titanium, a full-service real estate firm in Brockport, NY, is proud to announce that Anthony M. Wynn successfully completed his New York State Licensure as an Associate Broker. Tony joined the RE/MAX Titanium Family in December of 2017 as a Real Estate Salesperson, bringing over 35 years of sales experience to our team.

"I am excited to return to Brockport having begun my career in real estate in Brockport with Danielle Windus-Cook," Wynn said.

A lifelong resident of Orleans County, Wynn earned his Bachelor of Science in Communications from SUNY Brockport. Tony is active in community service. He previously served on the Board of Directors at The Aquarium of Niagara Falls and was a member of the Energize Albion Committee. Tony currently serves

on Orleans Community Health Foundation Board of Directors and has helped to spearhead fundraising efforts for the organization since 2003. He also serves on the Zoning Board of Appeals for the Village of Albion.

"I have a passion for helping others find a home that fits their needs. There is nothing more gratifying than to see my clients make their new house a home," Wynn said. "I enjoy the connections I make with my clients who often become my friends."

Tony is available to meet your real estate needs at any time by calling 585.414.8339. "I would be honored to use my many years of experience in real estate to help you buy or sell your home," Wynn said.

Clean Up Pesky Pine Needles

Despite how well you may tend to Christmas trees and wreaths, you can expect some pine needles to find their way onto your floors during the holiday season. To lessen the mess, wrap a tree bag around the base of the Christmas tree when you are setting it up and hide it under the tree skirt. This bag will catch many of the needles that fall off during the season. Each day, sweep any needles that make it to the floor so they are not tracked around the house throughout the month of December. ■

LIGHT A CANDLE OF LOVE.

Since Christmas is a time for remembering, we are lighting a candle in our funeral home for all the families we have served this past year.

As you enjoy this Christmas season, we hope this gesture will serve to remind you of Holidays past and the importance of family.

May the quiet peace of Christmas fill your heart and home.

Tips on how to write
CLASSIFIED ADS
that sell!

- 1 USE A KEY WORD.** This immediately tells the reader exactly what you have to sell.
- 2 Make your description CLEAR AND FACTUAL.** State the year, make, model, color & size and tell what condition the item is in. Also, state the special features.
- 3 STATE THE PRICE.** Successful classified advertisers have learned that the price in an ad helps increase the chances for results.
- 4 IF THERE IS A GENUINE SENSE OF URGENCY,** say so. The words "We're moving," or "Must sell fast," suggest that readers respond immediately.
- 5 INCLUDE YOUR PHONE NUMBER.** Classifieds get results fast and often generate immediate sales. If you cannot be available to answer the phone at all times, be sure to specify special calling times such as "after 9pm" or "before 11am."

Get the Most Out of Bridal Shows and Wedding Events

Recently engaged couples may be excited to get a jump on wedding planning. Bridal shows can be a great way for couples to meet and familiarize themselves with local wedding professionals, all the while introducing themselves to the terminology of wedding planning.

Though they're a great source of information, contacts and samples, bridal shows also can be a bit overwhelming. Learning how to maximize time spent at shows can help couples plan their weddings as efficiently as possible.

• **Start small.** If the idea of large crowds is unappealing, attend the more intimate, boutique shows that are often held at local reception halls and restaurants instead of the larger installations at convention centers and hotels.

• **Scout out vendors.** Check the bridal show's website for lists of exhibitors and see if your desired vendors are on the list. But even if they're not, keep an open mind and use the show as a chance to compare offerings. If an event map is available, marking off must-visit booths can help save time.

• **Pre-register.** Pre-registering for bridal events saves time at check-in, and doing so may make you eligible for discounted tickets.

• **Dress comfortably.** Bridal expos involve a lot of walking and roaming around. Wear comfortable clothing and shoes. Consider a backpack or hands-free bag so you are not weighed down when collecting the swag and other handouts throughout the day.

• **Ask questions.** When face-to-face with vendors, rely on their expertise but don't hesitate to ask questions concerning themes, colors, recommendations for honeymoon locations, invitation paper suggestions, and much more.

• **Stay for the fashion show.** Many shows will offer a runway experience to present the latest gown and tuxedo offerings. This can be an entertaining way for couples to formulate their wedding styles.

Wedding shows introduce couples to vendors and set them on the path to make decisions regarding the planning of their weddings. ■

Perfect Gift for an Angler!

LOST STREAM MAP

The **STREAM & LAKE MAP OF
NEW YORK** resembles another map--
known to Pennsylvania anglers as the
"Lost Stream Map."

It was completed in 1965 after
a 30 year effort by Howard Higbee,
a former Penn State Professor.

Professor Higbee painstakingly
plotted by hand, the location of
45,000 miles of streams onto the
map. It sold extremely well - until
the printer declared bankruptcy and
hailed Higbee's work to the landfill.

But reprints were impossible
because the maps were printed in
non-photographic blue. Higbee was
even offered \$400 for one of his last
maps. And state agencies were
forced to keep their copies under
lock and key.

Then, at the age of 91, Howard
Higbee's dream came true.
Computers made it possible to
reprint the map.

Then the **STREAM & LAKE MAP
OF NEW YORK** was created.

Stream & Lake Map of New York

Why every angler and boater needs this map

*Professor Higbee's® Stream & Lake Map of New York is the first and only
highly detailed map of its kind. The 3.5-foot-by-4.5-foot New York map shows

Stalking and catching a trophy requires knowledge of their
unique habits and those special times when their guard is
down. Armed with the information in this new and exclusive
24-page report--you could be in for the fight of your life.

RAVE REVIEWS

"It is in showing where to find
out-of-the-way trout streams
that makes the map such a
treasure to the fisherman."

—Joe Gordon,
TRIBUNE-DEMOCRAT,
Johnstown, PA

"I have one of the original Higbee's Stream
Map of Pennsylvania on my wall behind my
desk. It's the best thing available as far as
streams are concerned. I use it all the time
for reference. I don't know of anything more
extensive and it is the most accurate map out
there as far as streams are concerned."

—Dave Wolf, PA Fish and Boat Commission

GROWING A MUSTACHE FOR A GOOD CAUSE

Male staff members at the Orleans Career and Technical Education Center have become a little more hairy during the month of November. It was for the annual event of Movember and its goal is to change the face of men's health. Movember encourages participants to grow moustaches to raise awareness of men's health issues, such as prostate cancer, testicular cancer and men's suicide. Its aim is to increase early cancer detection, diagnosis and effective treatments, and ultimately reduce the numbers of preventable deaths.

Teachers Matt Anastasi, Peter Jablonski, Mike Schultz, Dudley Gilbert and Bill Leggett.

TIME TO BE ALERT WHEN DRIVING

By Douglas H. Domedion

Keep your eyes open for them!

Some of us have had close calls, others have actually made contact, and others have sustained serious injuries. Some folks have actually had cars totaled from collisions with deer. Hitting a deer can be a very dangerous situation.

These accidents with deer happen year-round, with an estimated 70,000-plus deer being killed annually in New York State. However October, November and December see the highest number of instances with November being the worst.

The higher collision rate this time of the year is not only because the hunting season for deer is open and they are being chased around more, but also because deer activity is at its peak due to the arrival of the mating season which peaks about mid-November. Deer are also more active during this period because they are searching out good food sources to build up their fat reserves for the winter.

Both these activities have deer moving much more and are also traveling in areas they don't normally wander. Thus, they are crossing roads in spots they are not familiar with and that is where the vehicle collisions come in.

Bucks chasing does may be miles from where they normally live the rest of the year. Does are trying to avoid the bucks or are seeking out seasonal food sources that involve crossing roads. All these instances involve deer suddenly crossing roads in spots not normally used by them.

The highest amount of deer activity is in the early morning and evening hours. When we switch over from daylight savings time this coincides with the periods of higher volumes of commuter traffic which elevates the problem..

So what can you do to prevent a collision with a deer? Well the best tip is to stay alert during these peak months. Keep your eyes on the road, but also make quick glances to the sides of the road for possible deer sightings. When you spot a deer slow down, blow your horn and flick your lights back and forth between high and low beam. If there is time use your emergency flashers to signal drivers near you that there is a problem.

Even if the deer crosses the road safely ahead of you slow down and use the above tips as there may be other deer coming. Often times fawns following does lag behind or a buck maybe chasing a doe.

Another tip is to use extra caution when driving through areas that are marked by deer crossing signs. These areas are known high deer traffic areas. If you know spots where deer often cross use extreme caution in those areas. I often blow the horn and flick my lights when going through such spots.

When you do brake for deer don't swerve to try to avoid the deer, as this often results in the loss of control of the car or possibly hitting another car or object.

There are some vehicle gadgets on the market such as deer whistles and reflectors that claim to frighten deer but it has been proven that these do not really work. Your best bet is being alert.

If you do hit a deer, get your vehicle off the road in a safe area out of the path of traffic and put your four-way flashers on. Use your cell phone to call the police to report the accident. When safe to do so check your vehicle for damage to see if you will still be able to drive it or will need a tow.

Do not worry about the deer and do not approach it. If it is still alive the police officer can handle the matter.

Get a police accident report as most vehicle insurance companies require a report when you make a claim under your comprehensive portion of your policy.

Sometimes hitting a deer is unavoidable, but staying alert and using the mentioned precautions can help eliminate most accidents.

Gun season ends Dec. 9 and then muzzle-loading starts on Dec. 10 and runs until Dec. 18. The rut will still be going on, so use extra caution while driving.

Beginner's Guide to Real Estate Investments

Purchasing a house or property is about more than setting up a home. Although quite a number of people buy real estate to establish their future, long-term abodes, many others recognize the potentially lucrative investment that lies within a real estate purchase.

Despite the ups and downs of the economy, real estate has become a common investment vehicle - one that has plenty of potential for making big gains for those who are willing to put in the effort. According to the experts at Entrepreneur, even in a bad economy, real estate investments will usually fare better than stocks. Real estate also continues to appreciate despite the occasional economical slowdown.

Like any other endeavor, there is a right and a wrong way to go about investing in real estate. Novices may not know where to begin their first forays into the real estate market as investors, even if they already own their own homes. Buying a property as an investment is an entirely different animal than buying a home to establish a residence. However, with the right guidance, anyone can dabble in real estate.

• **Establish financial goals.** Before you even begin looking at properties or put forth the effort of meeting with an agent, you must determine what you expect from the investment. The days of buying real estate and flipping it for a fast profit may no longer

be here. However, real estate can provide a steady stream of long-term income. Understand what you hope to achieve by investing. If it's to become an overnight millionaire, you may be looking at the wrong investment vehicle in real estate.

• **Establish a plan.** New investors who do not have a plan in place will likely spend too much or have more setbacks than others who have planned accordingly. When investing in real estate, it's more about the bottom line than the property itself. According to Springboard Academy, a real estate academy for investors, look for motivated sellers and stick to a set purchase price. Try to make offers on a variety of properties that work in your financial favor. And know what you want to do with the property (i.e., renovate and sell, remove and rebuild, or rehab and rent) before you buy. Fit the house to the plan, and not vice-versa.

• **Start small.** If this is your first time out there, stick with properties that will turnover quickly. Research areas in and around urban centers or close to transportation and shopping. A good starter property is a small house or a condominium that can be refurbished and then rented. Rental properties offer steady sources of income when renters are properly vetted, offers Investopedia, an investment resource.

• **Look at many different properties.** Become an expert by learning as much as you can about what is out there. Attend open houses; look for vacant/unattractive properties; scour the classifieds in your local paper; or put the word out there that you're interested in buying a property. Only look at properties that have motivated sellers, because then you'll get closest to the price you want to pay. And don't forget to research the area and the home turnover rate for the specific area where you are looking. Don't make assumptions that a property will appreciate without doing your homework.

Real estate can be a worthy investment opportunity. With research, a plan and the right price, just about anyone can be a real estate investor. ■

Did You Know?

In a survey of 3,500 working professionals, Allied Van Lines found that 17 percent had relocated for a job. Roughly 50 percent of those who relocated did so for career advancement and/or more money, while 8 percent moved to be closer to family or for other relationship reasons. Moving is often characterized as stressful, and 31 percent of survey respondents who moved indicated that finding a home was the most challenging part of relocating for a job. Acclimating to a new community (29 percent), finding services such as utilities and medical care (13 percent) and making friends (12 percent) were also cited as some of the most challenging parts of relocating for a job. As difficult as relocating can be, 64 percent of those who had relocated expressed positive sentiments toward their job relocation, while just 7.5 percent harbored negative feelings about relocating (28 percent were neutral). ■

BOCES STUDENTS GET A CLOSE-UP LOOK AT YAHOO!

L-R: Ethan Lindke (Roy-Hart), Josh Updegrove (Newfane), Justin Corser (Lyndonville), Mr. Herrmann, Josh Magrum (Lockport), Matt Wheeler (Lockport), Joe Meaney (Roy-Hart), Brandon Stewart (Albion), Nathan Lee (Newfane), Jacob Meyers (Newfane), Jason Keleher (Roy-Hart), Morgan Hahn (Roy-Hart), and Brad Olaf (Barker).

Computer Technology students were able to get an up close look at the Yahoo! facility in Lockport. The customer care and data center helps to take care of the over one billion consumers around the world with their hundreds of thousands of servers. The company employs almost 200 people at the site.

Morgan Hahn, a senior in the program at the Orleans Career and Technical Education Center, says she thought it was very cool. "I think it was a good opportunity for the class to see what kind of jobs are available." Josh Magrum added, "I loved it. It is one of the places that I dreamed of working at. The server room was really huge and awesome. I was looking at all the hard drives in the server and they were four terabits a line. It was crazy!" Joe Meaney said they got to see things they weren't expecting to. "We got to see a bunch of stuff that we didn't know that they had, like where they worked and the server room. The crazy amount of heat coming off the servers and how they cool them. They use the cold air from outside. Which in Buffalo we have a lot of." Justin Corser added, "I really liked it. It was awesome to see a huge data center and our tour guide told us some awesome stories like how one time the entire thing crashed and how he fixed it. It was really cool, especially because I want to go into cybersecurity and that was really applicable." Teacher Mr. Herrmann explained, "They lost 500 million records from Yahoo!, but had it all backed up on tapes; compressed data that took five days to get." Corser continued, "I would be very interested in working there. They have free breakfast and lunches. They had Macs and Linux operating systems. It was awesome!" Mr. Herrmann said it was a great opportunity for his students and he is very grateful to Yahoo! for opening their doors to them. "What a way to see how a data center works from the inside. It was awesome to see a major corporation like Yahoo!"

Give Holiday Meals a Flavorful Twist

The holiday season is rife with tradition. Family and friends often gather together around the dining room table to share conversation, memories and good food, making the holidays a special time of year. Home chefs looking to expand their culinary horizons can include this recipe for "Slow Cooker Spiced-Cranberry Pork," courtesy of The Ohio Pork Council, on their holiday menus. Pork is a versatile protein that pairs well with the tart, holiday-centric flavor of cranberries.

Slow Cooker Spiced-Cranberry Pork

Serves 8

3.5- to 4-pound pork shoulder

1 6-oz can jellied cranberry sauce

2/3 cup sugar

3/4 cup cranberry juice

2 tablespoons Dijon-style mustard

1.5 teaspoons ground cloves

1 teaspoon ground black pepper

Salt to taste

Trim fat from pork roast, if necessary. Place roast in 4- to 6-quart slow cooker. Use wire whisk to stir together cranberry sauce and sugar in medium bowl.

Stir in juice, mustard, cloves and pepper until well combined. Pour cranberry mixture over roast in slow cooker.

Cover slow cooker and cook on low for 6 to 8 hours or until pork roast is tender. Season roast to taste with salt; serve juices with roast.
