**A CHANGING WORLD**

Often changes are for the better, and we would not want to go back to the days of no electricity, no indoor plumbing, no air-conditioning, etc. But some things cannot be changed, and for man to attempt to do is both presumptuous and futile. Man's *need of salvation* will continue to exist, because all have sinned (Rom.3:23) and consequently are in bondage to sin (John 8:34). Regardless of the changes that occur in the world, *man's spiritual needs* remain the same. Therefore, God's provision for meeting those needs likewise remains unchangeable.

**SHOP TODAY'S LOW PRICE TAGS:**  
We have HUNDREDS of non-advertised items marked down throughout our entire store. More savings passed on to our customers. Just look for blue tags on the shelves.

**NO LIMITS:**  
Our competitors also have advertised specials. The difference is, in most cases, they have a limit on how many of an item you can buy at the sale price...we don't have any limits to family shoppers.

In a new analysis, patients with atrial fibrillation showed a substantially reduced risk of dangerous bleeding in the brain- known as intracranial hemorrhage-when taking the newer anticoagulant apixaban, compared to those taking warfarin. The study, published in Blood, the Journal of the American Society of Hematology (ASH), also showed that taking aspirin increased the risk of intracranial hemorrhage, especially in older patients. Atrial fibrillation is a type of irregular heartbeat that affects between 2.7 and 6.1 million Americans, according to estimates from the Centers for disease Control and Prevention. An erratic heartbeat can allow blood to pool in the heart, which can lead to the formation of a blood clot that travels through the bloodstream and blocks a blood vessel in the brain, causing a stroke. Patients with atrial fibrillation are five times more likely to experience a stroke compared to the general population. Medical guidelines recommend the use of oral anticoagulant medications in patients with atrial fibrillation who are at high risk for stroke. These medications reduce the blood's clotting ability, which substantially lowers the risk of stroke, but also increases the risk of uncontrolled bleeding. Intracranial hemorrhage is a rare, but serious complication of these medications, occurring in about 1 percent of patients prescribed anticoagulants for atrial fibrillation.

Taking certain omega-3 fatty acid supplements during pregnancy can reduce the risk of childhood asthma by almost one third, according to a new study published in the New England Journal of Medicine. One out of five young children suffers from asthma or a related disorder before school age.

\*\*\*

The blood thinner rivaroxaban (XARELTO) is as safe as aspirin, and more effective at preventing recurrence of life-threatening blood clots in the legs and lungs, according to a study published in the New England Journal of Medicine.

It is false teaching that willful sinners have the blessings of The Holy Christ (Heb 6:4-6, 10:26-31). They believe Satan's ministers (Gen 3:4, Dan 7:25, 2Cor 11:13-15), for The Holy Messiah (Jn 1:1-14, 14:6) said sin (1Jn 3:4) no more (Jn 5:14, 8:11, 14:24, Acts 3:23, 1Jn 3:8-9). So Be It!

May the light of the New Year spread into your life peace, prosperity, happiness and good health.

## IS WHAT WE ARE ALL ABOUT

AD PRICES EFFECTIVE WEDNESDAY, DECEMBER 26, 2018 THRU TUESDAY, JANUARY 1, 2019

**SHOP TODAY'S LOW PRICE TAGS:**  
We have HUNDREDS of non-advertised items marked down throughout our entire store. More savings passed on to our customers. Just look for blue tags on the shelves.

**NO LIMITS:**  
Our competitors also have advertised specials. The difference is, in most cases, they have a limit on how many of an item you can buy at the sale price...we don't have any limits to family shoppers.
