COLLAGEN NATIVE • TYPE 2

GUT • JOINT • SKIN HEALTH FORMULA

REPLENISHES COLLAGEN IN THE BODY

COLLAGEN is the most abundant protein in the body and the key structural protein found in skin, joint, muscle, bone, blood vessels, and connective tissue. Natural collagen production slows as we age until the body is unable to repair or replenish this vital protein.

NATIVE COLLAGEN means that the collagen is manufactured to preserve its natural state.

Public Notice

The Zestos 24/7 Mini Food Pantry has operated for several years on a word of mouth basis. Due to our concern that supplemental food programs may be interrupted by the government shutdown, we feel compelled to pursue a greater public awareness of this homegrown solution. If you occasionally have too much food and not enough groceries or money, This might be for you!

Zestos 24/7 Mini Food Pantry
Where? Historic OK Café,
Downtown Alton
When? Whenever you need it

The Zestos 24/7 Mini Food Pantry, located in the Historic OK Café Building, downtown Alton, is stocked daily with frozen foods, refrigerated items, bakery items and dry goods gathered from grocers, bakeries, and other food vendors throughout the area. You can stop by anytime to over a crisis or to just grab a few things to help you over the hump. There is no qualifying so you won't need to prove anything. This is totally self-serve. We respect you and we're grateful for the opportunity to help. All we ask is don't make a mess and don't be greedy. If you would like a way to pay it back sometime, let us know because we could always use your help. May the Spirit within be your guide. Questions? (712)756-4456

notice: orange city property owners

Sump Pump System Compliance Inspection

Due to higher than expected flows in the Orange City sanitary sewer system during the spring and summer months caused by heavy rain events, the Mayor and City Council have authorized the inspection of each property in Orange City. The purpose of the inspection is to verify a building's sump pumping system is capable of diverting ground water to the outside of the building, rather than into the City's sanitary sewer system.

The City's sanitary sewer system is not designed to handle pumped ground water from homes during heavy rain events. When ground water is pumped into the City's sanitary sewer system, the sanitary sewer lines fill and back up into lower elevation basements in homes.

Inspection Process:

City staff will be contacting each Orange City property owner to conduct an in-building inspection in the next few months. The order of the inspections will be in relation to areas of backup problems in Orange City. If the property building's sump pumping system is not capable of diverting ground water outside correctly, an order to make the correction will be given to the property owner. The property owner will then have 45 days to bring their sump pumping system into compliance. A second inspection will occur after the property owner makes the change or at the 45 day limit date to determine compliance.

If the sump pumping system does not comply after 45 days, the property owner will be fined \$200.00 and given a second notice to bring the pumping system into compliance.

Thereafter, the property owner will be fined \$200 for each 30 days their sump pumping system continues to be non-compliant. The property owner can appeal for an extension for a reasonable explanation that corrective action will take longer than the 45 days.

Thank you for your understanding and cooperation with these efforts.
