Does your child snore?

**George Livermore, M.D.**  
Board Certified  
in Otolaryngology

If your child snores three or more times a week and it's loud enough for you to hear, it's something you should have checked. Habitual snoring can mean a serious disruption in your child's quality of sleep, which may lead to behavioral and school problems, headaches, irritability or falling asleep during the day. One of the most common causes of snoring in children is enlarged tonsils and adenoids. And ear, nose and throat specialist Dr. George Livermore is here to help. Same-day appointments are often available, and walk-ins are welcome.
