Conversations with the County 2019

Geneseo, NY- Livingston County will be continuing the popular Coffee with the County community engagement series under a new name for 2019. Re-branded as Conversations with the County, these are town-hall style, drop-in gatherings designed to encourage residents and business owners to give feedback on County programs and services in an informal environment. Feedback received from the events in 2018 included having some of these gatherings in the evening hours. Therefore, the monthly series will intersperse after business-hour opportunities along with morning sessions.

Mr. Coyle stated, "In order to make the meetings as accessible as possible for our engaged residents, I, in consultation with the Board of Supervisors, have moved some meetings to the evening. I look forward to continuing the engaging and thoughtful discussions with even more people in the coming year."

During these informal meetings, County Administrator Ian M. Coyle will provide updates from the Board of Supervisors on County government happenings and answer questions.

All "Conversations with the County" events are open to the public and all are encouraged to attend.

Below is a schedule for the next two events:

Monday, February 11 at 8:30 am

Portage Town Hall, 2 North Church Street, Hunt

Monday, March 18 @ 5:30 pm (NEW TIME)

EDF Renewables North America Awarded Contract for Solar Project in New York

EDF Renewables North America today announced the 212 megawatt (MWdc) / 170 MWac Morris Ridge Solar Project was awarded a long-term contract by the New York State Energy Research and Development Authority (NYSERDA) as part of the 2018 Renewable Energy Standard Solicitation. The Project, sited on approximately 1,000 acres in the Town of Mount Morris, south of the Village of Mount Morris, expects to deliver clean electricity by the end of 2022.

Stephane Desdunes, Director of Development, Northeast Region for EDF Renewables North America said, "Our team is thrilled to be awarded the 170 MWac Morris Ridge Solar Project to help fulfill New York State's goal to achieve 70% of the state's electricity from renewable energy by 2030. The region, including the Town of Mount Morris and Livingston County, will benefit from procurement and employment opportunities throughout the development, construction and operational phases. Morris Ridge will bring more than 200 jobs during peak construction and contribute millions of dollars to the County, Town and School District during the operational life of the project."

EDF Renewables looks forward to a continued collaboration with the Town of Mount Morris towards the realization of the Project. Supervisor Charles DiPasquale commented, "The Town Board is excited by the contract with NYSERDA that will make the project and its benefits a reality for the town and surrounding community."

"Congratulations to EDF Renewables for its successful participation in this solicitation, which is a concrete step towards meeting New York's nation-leading clean energy goals under Governor Cuomo's Green New Deal," said Doreen Harris, Director of Large-Scale Renewables, NYSERDA.

"NYSERDA worked closely with EDF Renewables and the Town of Mount Morris to make community engagement and responsible siting a priority, ensuring the project will not only help steward our precious natural resources, but benefit the state and local economy, and its workers."

The expected electricity generated at full capacity is enough to meet the consumption of over 39,000 average New York homes¹. This is equivalent to avoiding nearly 140,000 metric tons of carbon (CO₂) emissions annually which represents the greenhouse gas emissions from nearly 30,000 passenger vehicles driven over the course of one year².

EDF Renewables is one of the largest renewable energy developers in North America with 15 gigawatts of wind, solar, and storage projects developed throughout the U.S., Canada, and Mexico.

"Where there is no way,
You make a way.
When no one else can
reach us, You find us."

The above song lyrics, from Desperation Band's Make A Way (2014), express the heart of Father God. Robert came to the Healing Rooms about a year ago. The severe pain in his knees was the result of competitive karate and kick boxing. His knees were shot. The doctors could do nothing except recommend pain killing drugs and knee replacement surgery. We laid hands upon Robert and prayed for him to be healed by God. The pain left. One year later the pain is still gone. Father God made a way for Robert, touched him and healed him. He wants to do the same for you.
