What Can Stem Cells Do For You?

Are you considering knee, hip, shoulder, ankle, or wrist surgery or just having severe pain?

...it's amazing how much better my knee is. I had problems since mid-February, couldn't bend it couldn't, couldn't maintain my regular activity at home and I hated it. I'm an active person, and I'm used to getting out and doing what I want to do and was unable to because I was in pain. And the injection went smooth as silk. They came in then within 15 minutes I was in and out of the Doctors office. Each day it has gradually gotten more flexible, I can actually see a knee cap, where I couldn't before from all of the fluid and inflammation around my knee. And it just feels better every day. And for anybody that's thinking about it, I would. In my opinion it is well worth having it done.

DON'T LIVE WITH A WET BASEMENT

Keep Your Basement Dry

Living with a wet basement can be miserable, leaving nearly half of your home's square footage totally unusable - just because it gets wet when it rains. Cleaning up water and dealing with the results such as mold, mildew and damage to your furnishings and stored items is tiring and expensive.

WET BASEMENT SYMPTOMS:

- Damp and musty smells
- Wet and nasty basement walls
- Water stains on walls and concrete slab floors
- Standing water
- Damage to building materials, stored items and home furnishings
