What Can Stem Cells Do For You?

Are you considering knee, hip, shoulder, ankle, or wrist surgery or just having severe pain?

...it's amazing how much better my knee is. I had problems since mid-February, couldn't bend it couldn't, couldn't maintain my regular activity at home and I hated it. I'm an active person, and I'm used to getting out and doing what I want to do and was unable to because I was in pain. And the injection went smooth as silk. They came in then within 15 minutes I was in and out of the Doctors office. Each day it has gradually gotten more flexible, I can actually see a knee cap, where I couldn't before from all of the fluid and inflammation around my knee. And it just feels better every day. And for anybody that's thinking about it, I would. In my opinion it is well worth having it done.
