MERCHANTS BANK HIRES VETERAN BANKER

The Board of Directors of Merchants Bank of Alabama is pleased to announce the addition of Samuel McCord, Vice President/Loan Officer to our lending staff.

Sam comes to the bank from Marshall County, Alabama with a lending background in agricultural and commercial loans. Sam, a graduate of Auburn University in 2001, has a degree in Agricultural Business and Economics and he has worked in this industry since graduating. His primary responsibilities at Merchants Bank of Alabama will be to develop new business, as well as to service existing agricultural and commercial loan customers.

Sam has been involved in several professional organizations during his career, having served as Chairman of the Board of Boaz Area Chamber of Commerce and President of the Albertville Civitan Club. He is looking forward to getting involved in the Cullman County community as soon as he has settled here.

Sam is married to Adrianna McCord and they have one daughter, Alannah. He is an avid outdoorsman and enjoys hiking, backpacking, camping and golf. With this background, Sam will be a good fit for the Merchants Bank of Alabama team and especially for our annual Merchants Bank Charity Classic.

Charles NeSmith, President of Merchants Bank of Alabama said, "We are excited to have Sam on our team, especially with his experience and success in commercial and agricultural lending, both inside and outside of Cullman."

Certain antipsychotic drugs used to treat bipolar disorder, schizophrenia, and other severe mental health disorders have previously been shown to have metabolic side effects, including weight gain and diabetes, in the general population. Whether the continued use of such antipsychotic medications during pregnancy may lead to an increased risk of gestational diabetes was not known. Gestational diabetes is also associated with adverse pregnancy outcomes, including preeclampsia, cesarean delivery, neonatal hypoglycemia, and macrosomia. The study, published in the American Journal of Psychiatry, focused on five atypical antipsychotics: aripiprazole, ziprasidone, quetiapine, risperidone, and olanzapine. Continuation of olanzapine and quetiapine showed an increased risk for gestational diabetes compared with women who discontinued these medications. Aripiprazole, ziprasidone, and risperidone during pregnancy was not associated with an increased risk of gestational diabetes.

Patients with stroke caused by bleeding on the brain (intracerebral hemorrhage) may benefit from receiving tranexamic acid (TXA), a drug currently used to treat blood loss from major trauma and bleeding after childbirth. These new findings were published in the medical journal The Lancet.

If you've had a minor stroke or a transient ischemic stroke (TIA), taking the clot-preventing drug clopidogrel along with aspirin may lower your risk of having a major stroke within the next 90 days, according to new research published in the New ENGLAND Journal of Medicine.

KEY

SHOP TODAY'S LOW PRICE TAGS:
We have HUNDREDS of non-advertised items marked down throughout our entire store. More savings passed on to our customers. Just look for blue tags on the shelves.

NO LIMITS:
Our competitors also have advertised specials. The difference is, in most cases, they have a limit on how many of an item you can buy at the sale price...we don't have any limits to family shoppers.

Saving You MONEY

MITCHELL
GROCERY CORP.

Local North Alabama, Folks Serving North Alabama Folks! We Truly Appreciate Your Business

IS WHAT WE ARE ALL ABOUT

SHOP TODAY'S LOW PRICE TAGS:
We have HUNDREDS of non-advertised items marked down throughout our entire store. More savings passed on to our customers. Just look for blue tags on the shelves.

NO LIMITS:
Our competitors also have advertised specials. The difference is, in most cases, they have a limit on how many of an item you can buy at the sale price...we don't have any limits to family shoppers.

AD PRICES EFFECTIVE WEDNESDAY, FEBRUARY 27, 2019 THRU TUESDAY, MARCH 5, 2019
