## CANCER SERVICES PROGRAM SUPPORTS NATIONAL INITIATIVE

### 80% in Every Community Can Reduce Colon Cancer Death Rate

Mount Morris, NY —The Cancer Services Program of the Finger Lakes Region joins others across the State to support the 80% in Every Community initiative which aims to substantially reduce colorectal cancer as a major public health problem by increasing the screening rate for colorectal cancer to 80%. This initiative will build on the tremendous success of the previous initiative, "80% by 2018," launched by the National Colorectal Cancer Roundtable in March 2014. The Livingston County Department of Health and the Cancer Services Program of the Finger Lakes Region will join with village officials and local partners to kick-off the 8th annual "Main Streets Go Blue" initiative in Livingston County on Monday, March 4th, 12:00 PM at St. Agnes School in Avon. This annual campaign marks the beginning of Colorectal Cancer Awareness Month and the importance of cancer screening and early detection.

Colorectal cancer is the second leading cause of cancer death in New York State. Each year, more than 9,000 New Yorkers get colorectal cancer and more than 3,000 die as a result. Yet, with recommended screening, the number of people who die from colorectal cancer could be lowered by at least 60%.

According to the most recent data (2017), 70.1% of New York State adults ages 50 to 75 years were screened for colorectal cancer. This is a slight increase from 68.5% in the previous year. Consistent across both reports is the fact that individuals without insurance and individuals without a health care provider are less likely to be screened than individuals with insurance and those who have a health care provider. The data show that other opportunities to increase the screening rate are to focus on men and individuals in the 50-64 age range.

"The CSP stands ready in our community to join health clinics, health plans, employers, county government, and others to achieve an 80% screening rate or higher. While our main focus is to provide cancer screening services to the uninsured, we are excited to partner with organizations interested in implementing evidence-based practices to increase their screening rates and potentially save lives," said Jennifer Rodriguez, Public Health Director of the Livingston County Department of Health.

Screening is recommended for all men and women ages 50 to 75 years. Individuals with a personal or family history of colon polyps, colorectal cancer, or a personal history of inflammatory bowel disease, are at higher risk for developing colorectal cancer and should talk to their doctors about when to begin screening and how often they should be tested.

The CSP of the Finger Lakes Region offers colorectal cancer screening to people without insurance who qualify for the program. Call 1-866-442-2262 or 585-224-3070 for more information.

The New York State Cancer Services Program (CSP) provides breast, cervical and colorectal cancer screenings and diagnostic services at no cost to women and men who live in New York State, do not have health insurance, have health insurance with a cost share that makes the cost of screening too high, and meet the program rules for age and income. To find a Cancer Services Program visit [http://www.health.ny.gov/diseases/cancer/services/community\\_resources/](http://www.health.ny.gov/diseases/cancer/services/community_resources/) or call 1-866-442-CANCER (2262).

# Many thanks to the community for taking time to meet with us!

More than 200 people attended the Morris Ridge Solar Project public information sessions on February 7 & 8.

## **MORRIS RIDGE** solar project

Providing public information early in the development process of energy projects is a critical first step to successful results.

Our goal is to provide residents and businesses with facts to better understand our project and how it can benefit the community, including more than \$10 million in revenues proposed for the Town of Mount Morris, Livingston County, Mount Morris Central School District and Keshequa Central School District in the first 20 years of operation.

The EDF Renewables team is eager to share information and listen to your feedback as we move through the permitting process.

*"The Town Board is excited about the project and its benefits for the town and surrounding community."*

## Announcing the Second Annual Livingston County Community Clean Up Event

Geneseo, NY--Livingston County is pleased to announce the second annual Community Clean Up Event on the weekend of April 27, 2019. The County is calling on community groups, local organizations, and individuals to commemorate Earth Day by hosting a local Clean Up event or volunteering in a local event. The goal is to unite as a community to improve the environmental health of the county.

"The Community Clean Up event presents a wonderful Spring event that engages communities to come together and make a positive impact to the environmental health of Livingston County." - David LeFeber (Chairman of the Board, Livingston County Board of Supervisors)

Livingston County is seeking to build on the success of last year's Clean Up, which included events that took place in 11 out of the 17 Towns, engaging over 150 volunteers cleaning up 5 parks, 2 cemeteries, and over 3.5 miles of road.

"Last year's first annual Community Clean Up Event was a success. This collaboration provides invaluable assistance in keeping our communities, and connecting green and blue spaces, clean and beautiful.

We seek to build on those successes and increase the number of communities involved, events held, and individuals, families, or groups who volunteer." - Alex Pierce (Chairman, Livingston County Environmental Management Council)

Those wishing to participate can organize an event of their own or join a scheduled event posted on the website listed below. Potential project areas include cemeteries, parks, roadsides, historic properties, community gardens, town and village halls, schools and other public spaces.

"The Community Clean Up event is a great way to acknowledge and recognize all of the dedicated community members and groups that seek to make Livingston County an even more beautiful place to live, work, and play." - Ian Coyle (Livingston County Administrator)

To register a clean-up event in your community or see where you can volunteer, go to <http://www.livingstoncounty.us/cleanuplvco>.

## Could You Use a PRAYER OF FAITH?

What God wants and has for you, versus what the devil wants for you, are both very well defined in one scripture verse. Jesus said in John 10:10, "The thief comes only to steal, and kill, and destroy; I came that they might have life, and might have it abundantly." God is good all the time. All good gifts come from Him.

If your health has been destroyed, or stolen from you, the devil is behind it and at the root of it. Jesus has a good life, an abundant life for you. At Healing Rooms on the Genesee, we get Jesus involved in people's physical ailments. We pray for the tide to be turned and healing to come.
