Business and Employee Skills Training

ADVANCE YOUR PROFESSIONAL AND PERSONAL DEVELOPMENT

Phlebotomy Technician Certificate Program

The phlebotomist is a vital member of the clinical laboratory team, whose main function is to obtain patient's blood specimens by venipuncture and microcollection for testing purposes. Phlebotomists are employed throughout the healthcare system including hospitals, neighborhood health centers, medical group practices, HMO's, public health facilities, veteran hospitals, insurance carriers and in other healthcare settings. The demand for phlebotomy technicians has increased substantially with the overall complexity of healthcare services and the risks of infectious disease.

This 90-hour Phlebotomy Technician Program prepares professionals to collect blood specimens from clients for the purpose of laboratory analysis. Students will become familiar with all aspects related to blood collection and develop comprehensive skills to perform venipunctures completely and safely. Classroom and lab work includes terminology, anatomy and physiology; blood collection procedures; specimen hands-on practice; and training in skills and techniques to perform puncture methods.

Note: There is no outside externship rotation included with this program. Several state and national certification exams exist to test the competency of aspiring phlebotomy technicians. **Pre-Requisites:** High-school diploma, GED, etc. A strong reading-comprehension level and good, basic math ability is necessary. **GCC Batavia Campus • Student Tuition: \$1,799** (Textbooks included) **Course Contact Hours: 90 hours** **Tuesdays & Thursdays, June 11-August 22 • 6:00-9:30 pm** **(3) Saturdays: June 22, July 13, August 3 • 9:00 am-3:00 pm** **NO CLASS: July 4** **Register by June 4, 2019**

Security Guard 8-Hour Pre-Assignment

Under the Security Guard Act of 1992, licensing is mandatory for all contractual and proprietary security guard employers. The law also requires security guards, themselves, to register with the New York Department of State. This course is for anyone seeking employment as a security guard and provides an overview of the Security Guard Act of 1992. One hundred percent attendance is required, and participants must earn a passing score on a final exam. Individuals who successfully complete the course will receive a certificate of achievement.

The course covers the following areas: CPT (Introduction, Guidelines, Evaluation and Management), specialty fields (such as surgery, radiology, and laboratory), ICD-10 and ICD-9 (Introduction and Guidelines) and basic claims processes for medical insurance and third party reimbursements. Students will learn how to find the service and codes using manuals, (CPT, ICD-10CM/PCS or ICD-9).

Note: After obtaining the practical work experience (6 months to 2 years), students who complete this course could be qualified to sit for the American Academy of Professional Coders (AAPC) - Certified Professional Coder Exam (CPC or CPC-H Apprentice); the American Health Information Association (AHIMA) Certified Coding Associate (CCA) exam; and/or other National Certification Exams. Although currently both the AAPC and the AHIMA certification exams include ICD-9 material, pending the proposed October 1, 2015 switch to ICD-10 both may begin testing for ICD-10 information in 2016. **Additional Costs:** A medical dictionary is helpful.

Ashton Laird Accepted Into GCC Nursing Program

Big congratulations to Medina High School senior, Ashton Laird! Ashton recently was accepted into the Genesee Community College (GCC) Nursing Program. The two-year program prepares students to pass the national R.N. licensing examination.

GCC only directly accepts ten students into that program per year. The Dean of Admissions and other GCC representatives, along with the college’s mascot, the Cougar, came to the school to surprise Ashton with her acceptance. We are so proud of her!

Tips on how to write CLASSIFIED ADS that sell!

- 1 USE A KEY WORD.** This immediately tells the reader exactly what you have to sell.
- 2 Make your description CLEAR AND FACTUAL.** State the year, make, model, color & size and tell what condition the item is in. Also, state the special features.
- 3 STATE THE PRICE.** Successful classified advertisers have learned that the price in an ad helps increase the chances for results.
- 4 IF THERE IS A GENUINE SENSE OF URGENCY,** say so. The words “We’re moving,” or “Must sell fast,” suggest that readers respond immediately.
- 5 INCLUDE YOUR PHONE NUMBER.** Classifieds get results fast and often generate immediate sales. If you cannot be available to answer the phone at all times, be sure to specify special calling times such as “after 9pm” or “before 11am.”

Royalton-Hartland Central School District's Music Education Program Receives National Recognition

The Royalton-Hartland Central School District has been honored with the Best Communities for Music Education designation from The NAMM Foundation for its outstanding commitment to music education.

Now in its 20th year, the Best Communities for Music Education designation is awarded to districts that demonstrate outstanding achievement in efforts to provide music access and education to all students. To qualify for the Best Communities designation, Royalton-Hartland answered detailed questions about funding, graduation requirements, music class participation, instruction time, facilities, and support for the music programs. Responses were verified with school officials and reviewed by The Music Research Institute at the University of Kansas.

This award recognizes that Royalton-Hartland is leading the way with learning opportunities as outlined in the Every Student Succeeds Act (ESSA). The legislation guides implementation in the states and replaces the No Child Left Behind Act (NCLB) which was often criticized for an overemphasis on testing, while leaving behind subjects such as music. ESSA recommends music and the arts as important elements of a well-rounded education for all children.

A 2015 study supported by The NAMM Foundation, "Striking A Chord," also outlines the overwhelming desire by teachers and parents for music education opportunities for all children as part of the school curriculum.

Royalton-Hartland is a rural public school district and although a small school district (student population 1,231), Royalton-Hartland has a vibrant arts program that is fully supported by both the community, the school administration and the Board of Education.

The NAMM Foundation is a nonprofit supported in part by the National Association of Music Merchants and its approximately 10,400 members around the world. The foundation advances active participation in music making across the lifespan by supporting scientific research, philanthropic giving, and public service programs. For more information about the NAMM Foundation, please visit www.nammfoundation.org.

THE
LAW
AND
YOU

BY NATHAN D. PACE
ATTORNEY AT LAW

WHAT IF?

If a person becomes incapable of managing his or her affairs due to illness, disease, injury, or old age, it has been traditionally necessary to go to court to get a conservator of his or her estate appointed. Because conservator proceedings can be lengthy, expensive, and emotionally challenging, it's certainly preferable to avoid the necessity of this procedure by signing a "power of attorney" before such need arises. This document gives another person the right to act on the grantor's behalf. While "ordinary" power of attorney ends with the incapacitation of the grantor, a "durable" power of attorney enables the individual holding the power of attorney to act and/or make decisions on behalf of the grantor until the grantor's death.

Trust is a key factor when choosing an agent for your power of attorney. Whether the agent selected is a friend, relative, organization, or attorney, you need someone who will look out for your best interests, respect your wishes, and won't abuse the powers granted to him or her. To schedule a free consultation, please call the **Law Office of MACK & PACE at (585)798-1000**. Our areas of specialization include living wills and trusts, small business, mortgages and foreclosures, powers of attorney, probate and estate law, and vehicle and traffic law.

IT'S OVER!

By Douglas H. Domedion

Well if you had not gone out to the "swamp" to see the spring migration you will have to wait until next spring as the migrating geese and tundra swans have continued their journey north. I noticed a great movement the last week of March of both birds. It has been a great year for the tundra swans and there were some huge numbers of them this year.

My attention now leans toward the local eagles and their nesting activities. We have a great observation situation on the Iroquois National Wildlife Refuge at the Ringneck Marsh Overlook just off Route 63 on the Oak Orchard Ridge Road. Right out in front of the overlook there are two islands with the one on the east (left side) having an active eagle nest where two eaglets just recently hatched off. The nest is on the west edge of the island in a dead snag.

This has been an osprey nest for a number of years, but starting three years ago a pair of adult eagles took an interest in it and last year they chased the ospreys off. Ice fishing on the marsh has not helped to encourage the pair, but this year they went for it! Hopefully traffic down that dike will not disturb the nesting season. As a reminder, there is no boating allowed on this marsh and use of drones is strictly prohibited. Earlier this spring a couple of guys were running drones all around Ringneck Marsh and got caught and paid a good price.

With the popularity of drones now there will be some idiots harassing wildlife with them to "get that shot." Flying drones near eagle's nests is highly illegal, but I'm sure someone is going to try it. The federal law officer shows up randomly and is a pretty sneaky guy. You probably won't see him until he is writing you ticket! If you see this kind of activity or anyone disturbing wildlife get their license number and drop it off at the INWR headquarters on Casey Road.

So how are our eagles doing? Well, good news and a little bad. The nest on the NY DEC Tonawanda WMA has failed. Just recently it was discovered that there were no eagles around the nest. She had been incubating since the middle of February and was due to hatch the third week of March, but that was when she disappeared. There are predator guards on the nest tree to prevent raccoon from getting to the nest and everything seemed to be going fine until the week of her due date and they disappeared. The theory is something happened to one of the adults and so of course the one left was unable to guard and take care of the nest. Another nest on the INWR also seems to be a failure. It was a new nest last year and they raised two eaglets, but it seems nothing is going on this year. It has no predator guard, so maybe a raccoon got up there early in the nesting season.

On the good side a new nest was found on the NYS DEC Oak Orchard WMA just recently which makes it the second eagle nest on that area. This makes nine eagle nests in our area now. All are on either the federal or state refuge areas except one north of Medina and another up by Lake Ontario.

At present, most have hatched out except for two late starts which are due this week. It is difficult to see the young until they are about two weeks old, but after that a good spotting scope will give you good views of the nesting activities for another eight weeks or so. The best place to do this is the above mentioned location at the Ringneck Marsh Overlook. And remember, you must stay 200 yards from an active eagle nest and NO DRONES. If you think you know of a eagle nest you can call our local DEC Office at 585-948-5182 or me.

Another thing has come to an end just recently too, hunting coyotes. There are a number of groups of sportsmen who run coyotes with hounds after deer season in our area. They do us a favor by keeping the coyote numbers down and more importantly keeping the coyote fearful of humans. Without this activity, coyotes get very bold and soon house pets and other domestic animals begin to disappear. They also begin to raise hell with other wildlife.

Recently, these houndsmen have been having problems with folks calling the law on them because their hounds may be on their property. There has even been talk of issuing tickets to these sportsmen for "not keeping their dogs under control." Most of these sportsmen are very respectful of land owners, but sometimes these coyotes take the hound from one end of the county to the other and there is no way to control that. Sure, they are going to cross some land that the hunters may not have direct permission to go on, so being able to keep these hounds under complete control? Get real folks! Do you know where your kids are and have control them when they are out and about?

My contact information is 585-798-4022 or woodduck2020@yahoo.com.

These group did a great job not only got rid of a lot of coyote, but also putting the fear of humans into the ones who survived this year's hunts.

Stream & Lake Map of New York

LOST STREAM MAP

The STREAM & LAKE MAP OF NEW YORK resembles another map-- known to Pennsylvania anglers as the "Lost Stream Map."

It was completed in 1965 after a 30 year effort by Howard Higbee, a former Penn State Professor.

Professor Higbee painstakingly plotted by hand, the location of 45,000 miles of streams onto the map. It sold extremely well - until the printer declared bankruptcy and hauled Higbee's work to the landfill.

But reprints were impossible because the maps were printed in non-photographic blue. Higbee was even offered \$400 for one of his last maps. And state agencies were forced to keep their copies under lock and key.

Then, at the age of 91, Howard Higbee's dream came true. Computers made it possible to reprint the map.

Then the STREAM & LAKE MAP OF NEW YORK was created.

Why every angler and boater needs this map

Professor Higbee's® Stream & Lake Map of New York is the first and only highly detailed map of its kind. The 3.5-foot-by-4.5-foot New York map shows 65,000 miles of streams plus lakes.

RAVE REVIEWS

"It is in showing where to find out-of-the-way trout streams that makes the map such a treasure to the fisherman."

—Joe Gordon, TRIBUNE-DEMOCRAT, Johnstown, PA

"I have one of the original Higbee's Stream Map of Pennsylvania on my wall behind my desk. It's the best thing available as far as streams are concerned. I use it all the time for reference. I don't know of anything more extensive and it is the most accurate map out there as far as streams are concerned."

—Dave Wolf, PA Fish and Boat Commission

REAL ESTATE GUIDE

How to Tame Indoor Odors

A clean home interior can make a strong first impression on prospective buyers, but only if that home is accompanied by pleasant scents. Odors can make a strong impact on buyers' perceptions of a home, including its level of cleanliness and upkeep.

Although dirt and other grime can contribute to the odor of a home, additional culprits can contribute to foul smells as well. Everything from pets to the foods cooked in the kitchen to the hidden presence of mold can impact air quality and odor inside a home. Fortunately, there are ways to remedy stinky problems and come away with sweet-smelling solutions.

It's important for homeowners to realize that foul air inside a home can be the result of poor indoor air quality — which can be a health hazard. The United States Environmental Protection Agency ranks indoor air quality as a top five environmental risk to public health. EPA studies found indoor air pollutants were generally two to five times greater than outdoor pollution levels. In some cases, indoor air pollution was 100 times greater. The United States Consumer Product Safety Commission says the following can contribute to poor indoor air quality and also to some interior odors: combustion sources; tobacco products; building materials and furnishings; wet or damp carpet; cabinetry or furniture made of certain pressed wood products; products for household cleaning and maintenance and even outdoor sources such as radon, pesticides and outdoor air pollution.

So how does one remedy poor indoor air quality and odors inside a home? These tips can improve conditions.

- **Ensure adequate ventilation.** Open windows and doors when weather permits to eliminate the concentration of pollutants and help air out odors. Use exhaust fans in kitchens and baths to pull indoor air to the outside.

- **Invest in an air filter.** A high-efficiency particulate air filter will force air through a fine mesh and trap harmful particles, such as pet dander, smoke, pollen, and dust mites, that can build up in a home. Remember to change the filter regularly.

- **Increase the number of plants.** Plants can brighten interior spaces, and they're also remarkable at cleaning indoor air. The Clean Air Study conducted by NASA set out to find out the best way to clean the air in space stations. The association found that the Boston fern, spider plant, Chinese evergreen, weeping fig, variegated snake plant, and English ivy, among many other plants, were ideal for filtering air and removing harmful contaminants.

- **Ditch disposal odors.** Food can become trapped and decompose in garbage disposals. Cut citrus fruit into chunks and drop them into a running disposal to remove many odors.

- **Air out the washer.** New washing machines have tight seals and gaskets that do not allow air to penetrate (or water to leak out). Mildew can grow as a result. Leave the washer door open after a round of laundry to let things dry and air out.

- **Tame pet odors.** Pets contribute heavily to odor in a home. Wet dog smells are prevalent on rainy days, while cat litter boxes can pack a pungent punch. Cleanliness can cut down on smells. Use activated charcoal in litter products to tame smells and empty the litter box frequently. Make sure dogs are dried off thoroughly when coming in from the rain, and use a deodorizing spray on pet fur. Regular grooming can help as well.

Odors in a home can be embarrassing and set a poor tone when inviting company over or showcasing a home for prospective buyers. Keep odors at bay by identifying the sources of smells and taking action. ■

Seven Steps to Leave a Job Gracefully

Deciding to leave a job is seldom an easy decision. However, it's a more common decision than many people may know, as the U.S. Bureau of Labor Statistics indicates the average worker holds 10 different jobs before age 40.

People change jobs for a variety of reasons. Some do so because of better opportunities elsewhere, while others simply need a change. Regardless of what's motivating a job change, leaving a place of employment can elicit various emotions, including some that may contribute to negative thoughts about a current employer. But it's always best to leave a job gracefully, which can pay dividends down the road. The following

are seven strategies people can employ as they leave their jobs to ensure those exits go as smoothly as possible.

1. Watch out for social media. It's best to keep resignation plans to yourself and off of social media. You never know who is reading your posts, and bad-mouthing a soon-to-be-former employer can lead to hurt feelings and poor references. Resist the urge to rant about what's making you unhappy at work or brag about a new position to your social network.

2. Play by the rules. Your employer may have a plan in place for how the company prefers resignations to be handled. The standard two- to three-week's notice is a guideline. Visit with human resources if you need more information, such as whether or not a resignation letter or other documentation is required.

3. Speak with your manager first. It's respectful for your immediate manager or supervisor to learn of your departure first. This gives him or her ample time to put a plan in place to fill your position. The more notice you can give, the more goodwill you're building on your way out the door. Schedule a meeting for this purpose; do not make it an informal chat by the water cooler. Resist the urge to quit via email or text. Resigning requires face-to-face communication. Present a concise letter of resignation as well. Don't call out colleagues or air your grievances in the letter.

4. Announce your departure. Work collectively with your manager and other higher-ups to decide how to best handle the announcement to other employees.

5. Train your replacement and prepare final assignments. Volunteer to train or assist with getting your replacement set up. If you have any outstanding projects or documents, be sure to tie up any loose ends before leaving. Leave behind instructions or a guidebook if you think it will help your replacement perform their duties more effectively.

6. Keep the momentum. It can be tempting to phone it in as you near departure day, but this is inadvisable. Do your job to the best of your ability up until you say your goodbyes.

7. Pack on your own time. Cause as little disruption as possible by packing belongings before or after office hours. Respect the working environment, recognizing that your coworkers still need to get their jobs done.

Quitting a job can be full of mixed emotions. Just be sure to time it correctly and leave in as positive a way as possible to maintain a strong professional network. ■

• SECOND WEEK OF APRIL •

ARIES – Mar 21/Apr 20

Curiosity is a useful tool, Aries. Keep a handle on it this week. Do not go delving into situations that do not involve you, or you could end up in trouble.

TAURUS – Apr 21/May 21

Taurus, if a certain person’s boastfulness is causing concern, you may need to speak up or simply avoid that person for the time being. He or she may just be blowing off steam.

GEMINI – May 22/Jun 21

Gemini, save yourself a lot of frustration and accept the way things are right now. Focus on the positives in your life and count your many blessings.

CANCER – Jun 22/Jul 22

The universe has an important lesson to teach you, Cancer. It involves giving up a little bit of control so you can benefit in unknown ways. This is challenging, but worth it.

LEO – Jul 23/Aug 23

Leo, think twice before you commit to any projects or confirm appointments with others. You have to have all of the details worked out in advance before you can proceed.

VIRGO – Aug 24/Sept 22

Virgo, if relationship issues are confusing you, it might be the right time to distance yourself and go it alone for a little while. This will help you get your bearings.

LIBRA – Sept 23/Oct 23

Reach out to your friends this week and ask them for advice on your current situation, Libra. They know you well enough and may have some important insight.

SCORPIO – Oct 24/Nov 22

Scorpio your creativity is easily channeled this week and you are bound to surround yourself with others who are eager to brainstorm ideas. This can prove beneficial.

SAGITTARIUS – Nov 23/Dec 21

You have set goals and your feet are firmly planted on the ground. These are assets that will serve you well, and others will soon look to you for inspiration.

CAPRICORN – Dec 22/Jan 20

Try a different approach if you want to see results, Capricorn. Doing the same thing over and over again hasn’t worked for you thus far as it pertains to your relationship.

AQUARIUS – Jan 21/Feb 18

Take the scenic route if you are going on a trip, Aquarius. Getting sidetracked is the goal this time around, and you can wander off to parts unknown.

PISCES – Feb 19/Mar 20

Support a friend who needs a strong shoulder to lean on, Pisces. This person isn’t likely to ask for help, so reach out.

Orange Whole-Wheat Waffles with Yogurt & Fresh Berries

Makes about six 5- to 6-inch waffles. Serves 4 to 6.

Orange Whole-Wheat Waffles

- 2 1/4 cups white whole-wheat flour
- 3 tablespoons sugar
- 2 teaspoons baking powder
- 1/4 teaspoon salt
- 1 1/4 cups whole milk
- 1/2 cup freshly squeezed orange juice
- 2 eggs, separated
- 5 teaspoons packed, grated orange zest
- 6 tablespoons unsalted butter, melted and slightly cooled

Yogurt topping

- 1 cup Greek-style yogurt (see note)
- 4 teaspoons honey
- 1 teaspoon grated orange zest, packed
- Fresh raspberries, strawberries or blueberries, for garnish

1. For the Orange Whole-Wheat Waffles: Preheat a waffle iron (and, if you plan to hold the waffles until serving time, preheat the oven to 200 F).

2. In a large serving bowl, stir together the flour, sugar, baking powder, and salt. In another bowl, whisk together the milk, orange juice, egg yolks, and orange zest. In a third bowl, beat the egg whites until firm, but not stiff.

3. Make a well in the dry ingredients and pour in the milk mixture, blending gently only until the ingredients are combined. Add the butter in a slow stream, continuing to blend until the butter is incorporated. Gently fold in the egg whites.

4. For the yogurt topping: In a small serving bowl, whisk together the yogurt, honey and orange zest.

5. Pour 1/2 cup of the batter (or more, depending on the size of your waffle iron) onto the waffle iron and, using a metal spatula or table knife, spread the batter to within 1/2 inch of the edge. Close the cover and cook approximately 3 minutes, or until crisp and golden brown. (If your waffles aren't crisp, even after a "ready" signal has sounded, continue to cook them, watching carefully, until crisp and golden. If not serving immediately, place the waffles in a single layer on a baking sheet in the preheated oven while you finish with the remaining batter.)

6. Serve the waffles topped with a generous dollop of the yogurt mixture and garnish with some berries.

Note: Nonfat, as well as reduced- to whole-fat varieties of Greek yogurt work in this recipe. ■

I'm very pleased with my recent car buying experience at Bidleman Chevrolet Buick GMC in Albion. From the moment I walked in until the time I left I was treated first class by Jen and Travis. I feel I received a fair deal and I'm enjoying my 2018 Chevy Cruze! I highly recommend this dealership from their excellent customer service to their great selection of vehicles and will be referring people I come in contact with to check them out.

So I was a little skeptical going out to Albion NY for a truck. But I read some reviews about how great they were. I have to tell you, these guys are absolutely amazing! My salesman Dennis wasn't pushy listened to exactly what I wanted! Got my new truck the next day. If you're looking for hassle-free no BS come to this place they will get you in the car you want. I'm going back to see Dennis for the future. They have now made me a life long customer. I have never been treated with this much respect and care ever. If you don't believe me go see for yourself. You'll be blown away!

Jason was wonderful from the time I walked in till I came back a week later to trade in my Ford Mustang for a Buick Encore. He was patient and put up with my goofing off about not wanting to let my pony go... He kept in touch with me and made sure I understood all I needed for this deal. He showed me all I needed about my new vehicle setting up the satellite radio and my phone to the car... AWESOME service! I am glad I found this car at this location! I will go back if I need another car that is for sure! Thank you, Jason!

We're proud to offer the brands and faces you know and trust, plus a fresh new vision for our company.

A wide selection of new and preowned vehicles arriving daily!
