**Digital PRINTING COLOR**  
Captures Attention.

**Fast Turnarounds**  
The market for printing has been undergoing changes in recent years. A demand for fast turnarounds is one of the largest of those changes. Digital Printing gives the ability to have next day printing - there is little setup, no plating and no dry time.

**Short Run - Full Color**  
Small quantities at an affordable price. Difficult to believe, but true! With no setup costs, there is no more overprinting. How many you need, is how many you get. Need a reprint? Even easier and very affordable. Convenience at its best.

**Direct Marketing**  
Need an edge? Digital Printing creates a scenario where each piece printed can be different. The use of variable data, such as a customer data base, can be used to personalize each piece printed.

**Extremely Efficient**  
The efficiency and convenience of Digital Printing benefits any company whether large or small. The capability of full color short runs, direct marketing, and fast turnarounds is breaking down printing barriers.
