Due to sever lower back pain, I haven't even been able to even do the dishes without taking a break to sit down. I didn't realize I had two bulging discs that were pressing against a nerve until I came to Tullahoma

Chiropractic. The decompression therapy is wonderful. For the past 2 years, I haven't been able to walk for thirty minutes without being in pain and having to take a break. This week, I went shopping for 3 hours pain free! Decompression therapy has changed my life!

#### Who is a Candidate?

Our spinal decompression system has been found to relieve the pain associated with disc degeneration, herniated and bulging discs, facet syndrome, and sciatica. Spinal decompression is a great option because back surgery is so risky.

#### The Solution:

Our method is a proven, comprehensive treatment program which includes computerized true disc decompression, cold laser therapy, and exercise rehabilitation to promote long term spinal health. Spinal decompression is considered by many doctors to be the most advanced and successful noninvasive treatment of serious back, neck, leg or arm pain. The method allows for a much higher success rate by increasing hydration and restoring health to your discs. This results in a more effective and lasting solution to your pain. There are no side effects and no recovery time is required. This gentle and relaxing treatment has proven to be effective even when drugs, epidurals, traditional chiropractic, physical therapy and surgery have failed.

#### Sciatica and herniated discs are often misunderstood.

They can cause pain and numbness in the back, neck, legs and feet. This pain affects everything you do, from work to play, and ultimately your quality of life. We are here to tell you that there is hope. We have the technology and experience to help you find relief from sciatica and back pain. We have helped thousands of pain sufferers just like you. We offer only the most advanced non-surgical treatments.

### Before you consider surgery consider these points:

- Back surgery can cost \$50,000 to \$100,000 or more
- Recovery can be very painful and can take months or years
- Surgery may or may not relieve your pain
- Dependence on prescription drugs may occur after surgery
- Missed work can amount to \$1,000's in lost wages
- Outcomes may be uncertain, and surgery is not reversible

#### Get Your Life Back Today!

"If you suffer from sciatica, severe back or neck pain, you can find relief! If you are serious about getting your life back and eliminating your back and neck pain, my staff and I are serious about helping you and proving how our technology and experience can help. We are extending this offer to the first 30 callers. These spaces fill up quickly, so call today to reserve your spot."

# \*\*\*Important Knee Arthritis Pain Alert\*\*\*

“Study Shows Simple Treatment Delayed Knee Replacement Surgery in 75% Of Worst Cases For At Least 7.3 Years..”

Free Screenings\* Offered At Fayetteville Medical Clinic To See If You Qualify For This Proven And Effective Treatment. \*Spots Are Limited Due To High Demand

**Tenn** - What would it be worth to you if... in just 60 minutes... you could finally discover a way to get relief for your knee arthritis pain?

And... How would it feel if you could wake up tomorrow morning and some... or even all your pain was gone?  
 And... **Wouldn't it be wonderful to start a brand new life and leave all your pain and suffering behind?**

A life where...  
 ...you jump out of bed in the morning, well rested and ready to take on the new day, without pain...  
 ...you don't have to take slow, limping laps around your bedroom just to be able to walk every morning...  
 ...you can go for walks, go up and down stairs and maybe even play sports like tennis and golf again...  
 ...you can finally do all the things and enjoy life (just like everyone else) without constant, nagging pain...  
 Well... that's exactly what can possibly happen to you if you spend just 60 minutes with us...

*...Because that's all it will take for one of our expert doctors to show you what we believe to be the safest, and most effective knee arthritis pain treatment there is...*

I know you may find this hard to believe. Just about every one does when we tell them about this... at first. But it doesn't take long for them to turn from skeptic to raving fan as soon as their pain improves so fast.

**Do You Have An Open Mind?**  
 So, I'm not asking you to believe me just yet. All I ask is you approach this and read the rest of this information with an open mind. If you give us a chance, we promise, you won't be disappointed...

**Because There is Proof Real medical proof.**  
 Get this. A leading Orthopedic Surgeon and knee pain expert was getting excellent results with this non-surgical treatment on his own patients. In fact, this study involved almost 2000 patients followed over 10 years. And more specifically, he was getting

amazing results the way HE was doing this treatment using high tech imaging for precise technique... just like we do it.. And he wanted to prove... beyond a shadow of a doubt... the results he got.. were not only REAL... they could most likely work for others just like you. So he conducted some research, an 11 year project, and it was published in the "Journal of Knee Surgery"... a Real and REPUTABLE medical journal (A copy of this research is available on our website or by mail).

**What were his results and what do they mean for your pain?**  
 In this study, he found that 75% of the severe knee arthritis pain patients he treated... and were facing knee replacement surgery... did not need to have knee replacement surgery... and were still OK 7.3 years later!  
**This is incredible news for you... and here's why...**  
 The patients in this study were Stage 4 knee arthritis. That's the most advanced and worst stage. These are the cases that are usually sent for knee replacement surgery.

These patients had also gone through the common medical treatments like pain and anti inflammatory pills, physical therapy etc. and all that had failed.

So... these were the WORST cases of which every thing else had failed ... YET, after this treatment, 75% still did not need knee replacement even more than 7 years later.

**And it gets better.** The study only collected data up to that time. It is pretty safe to say that many may never need surgery.

**Bottom line:** This study clearly showed this treatment is safe and extremely effective even for even the worst cases.

So, even if you aren't one of the worst cases... imagine what it can do for you.  
**What IS This Treatment And How Can You Find Out If It Can Help You?**  
 As studied with this treatment is.... you may have an "Oh No!" reaction. Why? Because there is a very good chance you have heard of it. You may

have even given it a try... and NOT gotten good results.  
 That's because this treatment is actually pretty common now a days. But...and this is a very big BUT... there is a very specific way to apply this treatment (as done in the study) that makes it so successful. And many are NOT doing it this way.

So... please hear us out. This really might be the answer you are looking for.  
 Ok... here is the treatment and the full scoop on why it works so well... when done THIS WAY.  
 The treatment is called "viscosupplementation." It is frequently called, "gel treatment." Or "joint oil".  
 In this treatment, a gel is painlessly injected directly into your arthritic joint. This lubricates the joint, reduces friction... and allows more movement without all the inflammation and "grinding" caused by arthritis.  
 This is like putting oil on a rusty hinge. Once the oil is applied, the hinge can move must better.

**But here is something you must know:** In that research project, all of the procedures were done with highly advanced imaging to guide the injections and make sure the gel got into the joint space area ultra-precisely.

This is EXTREMELY important... because... research also shows that injections done WITHOUT this imaging to guide them... can miss the joint space about one third of the time.

That means, in one third of the injections, the gel wasn't in the joint space and couldn't possibly work!!!

We feel this is why so many people have tried this treatment and DIDN'T get good results like in the patients in this research.

So, if you have already had this treatment and it didn't work... was it done with this advanced medical imaging?  
 If not... there is still hope.  
 In fact, there is a very good chance you can still get relief.

Here is why: Fayetteville Pain and Rehab is a medical clinic located at 4140 Thornton Taylor Parkway Suite D Fayetteville, TN 3733.

And the clinics owner, Dr. Walter Bennett... is an expert in this treatment... and uses the advanced imaging to make sure the treatments are extremely precise and get the best results possible.

**Dr. Bennett has the best treatments and technology... but also make everything VERY affordable**  
 Just because he offers the best possible treatments and technology... doesn't mean he is so expensive only rich people can get his wonderful treatments.  
 While treatments may be covered by Medicare and some insurances... he also offer pricing plans for as little as \$13.57 per week so patients can finally relieve their pain and try to avoid surgery.

We don't want lack of insurance or money to be the reason you continue suffering.  
**Your Special Invitation...** If you have knee arthritis pain... and are even just a little interested in finding out what this treatment can do for you... Dr. Bennett are inviting you to come in for a FREE screening appointment.

During this screening, you will get to talk to the doctor... ask questions... and find out if you qualify.

He will go over everything with you... and you will breathe a big sigh of relieve finally having real answers and a specific plan to possibly relieve your pain.

He will leave no stone unturned... and He will help you any way He can.  
**Please understand this:** This treatment can possibly take away your pain...

**No matter how long you've been suffering.** It really doesn't matter. It may take a little more time if you've been suffering for years as opposed to a "new" case... but in the end... you can still get tremendous results.

**No matter how bad or helpless you THINK your case is.** Many of our patients thought their case was hopeless , too far gone, for anything to help them. Many of their previous doctors told them that. Well you're NOT. With this treatment... the way our expert doctors do it...there is always

hope.  
 Most of Dr. Bennett's patients have told him he was their last resort. Last stop before packing it in and completely giving up and submitting to surgery. They soon found out that his treatments made it really easy to get relief... and, best of all...

**You Get To See If You Qualify For FREE**  
 That's right. He want you to see EVERYTHING first hand and to prove to you... without a shadow of a doubt... he has the help for your knee pain that you are desperately wanting. And he wants to do it without you spending a penny or risking anything to find out.  
 That's why he are offering you this free screening.

**So my big question for you is** - is the opportunity to wake up tomorrow morning... and every other morning for the rest of your life... with less pain... worth the 60 minutes it will take to be evaluated?  
 What else could you possibly do with that same 60 minutes that could have such a profound impact on the rest of you and your family's lives?

You know, it's really disappointing to me that so many people just go on living with pain when you don't have to. So many of patients told him how they used to be in pain... just about every day.

They were in so much pain... they were grumpy and miserable all the time. They hated work. Their relationships were strained. Life was just one big struggle. Now that they've discovered what he will reveal to you at your free screening... all that's changed...

Work and family have become rewarding and fun. Life is so much easier and better... in so many ways... without the pain. Finally, things start falling into place the way you always thought they would.

One of the best things Dr. Bennett hears is "Hey doc since starting this program I've lost 17 pounds because now that I can finally move around pain-free the weight just keeps coming off!"  
 Which one of those amazing things

Study shows this treatment was successful in 75% of knee arthritis pain sufferers... saving them from surgery for at least 7.3 years. Will it work for you? Find out for FREE

I just mentioned would you like to happen to you... right now.  
 Maybe it's none of the things I've mentioned. But, you do have hopes and dreams. We all do. And pain robs you of the opportunity to live out those hopes and dreams. Robs you of the life you really and desperately want... and deserve.

Whatever YOUR personal hopes and dreams are... They are all possible if you take action... right now.  
 All you have to do is give this a chance and schedule for the screening. But then again...

What's also possible is that your pain starts getting worse. And that happens to so many people from just doing nothing.

Taking action may seem like a little work... or... it may even be a little scary for you - but not taking actions is almost always worse. The eight most dangerous words to your future, your health, and your hopes and dreams just maybe...

**It Will Just Get Better All By Itself!**  
 Fact is... it may only get worse.  
**Here Is How To Get Your Free Screening...**

Just call us at 931-251-3009 and tell the scheduling coordinator you want your free screening. If you are one of the first 25, it is 100% free. No obligation or strings attached.

There is NOTHING to pay for and you will NOT be stressed in any way. We don't ever do that. You see, Dr. Bennett has been practicing for a very long time... and is extremely busy.

Most are from word of mouth. But he wanted to open up this opportunity to as many arthritis pain sufferers as possible.

But because he gets so many calls... he can only take 25 from what you are reading this month.  
 You have absolutely zero to lose and possibly everything to gain. But your health, and your hopes and dreams just maybe...

1980

## First Edition

Over 40 years ago, 13,000 copies of the first Exchange rolled off of the printing press and into the mailboxes of Lincoln County residents. The every other week editions connected local businesses to the community and created a brand new channel of commerce. Free personal classifieds made it easy to spread the word and make connections.

2000

## 20th Anniversary

Two decades later, the weekly Exchange continued to serve as a valuable resource and guide for those making local buying decisions. It quickly became the most effective advertising source throughout the Lincoln County and North Madison County regions.

2014-2018

## 6 Regions

Today, six editions of the weekly Exchange reach over 85,000 local households in Bedford, Coffee, Franklin, Lincoln, Marshall and Moore counties. 5,495 ads were placed in Exchange editions and website in 2018.

## Welcome to a complete upgrade to your classified viewing experience.

100%

Our goal has been to help you make connections since our first edition in 1980. Whether you are looking to buy, sell, or trade, the weekly Exchange continues to be a great way to connect with others. The new upgrade is all about improving your viewing experience to make connections easier.

# Optimized for readability.

New, enhanced benefits for our readers.

## Easy-to-hold Page Size

Ease of use is the biggest advantage of the new upgrade. The full color Exchange is now easier to hold and view than ever before.

## Streamlined Events Calendar

Quickly look at the week at a glance as well as view more upcoming events in your community.

## Full-Color Classified Ads

Every page in the Exchange is now full-color! Enjoy full-color on all classified ad photos.

## Updated Category Headers

To help you more easily navigate the publication, we have improved the look and feel of all of our category headers.
