ORANGE CITY AREA HEALTH SYSTEM

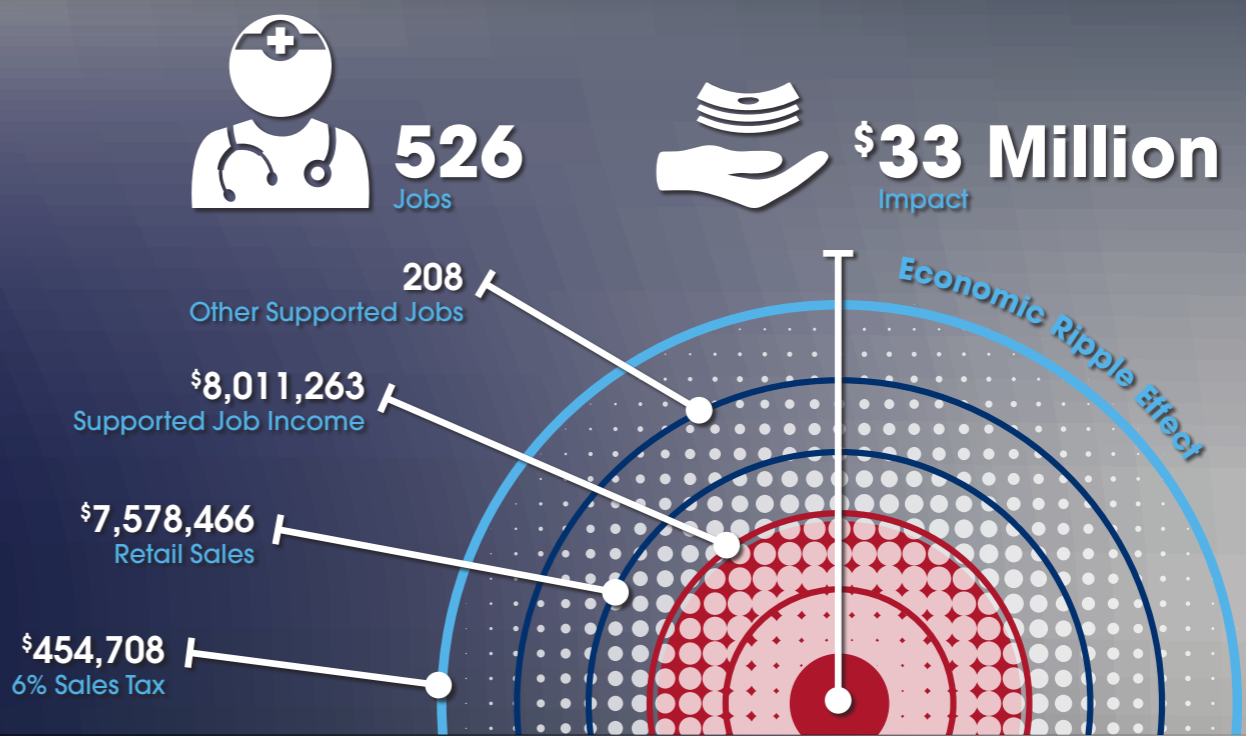

HOW YOUR COMMUNITY HOSPITAL ENHANCES QUALITY OF LIFE

Orange City Area Health System

ECONOMIC BENEFIT

Orange City Area Health System is a significant economic contributor whose effects extend well beyond the hospital itself. As one of the area's largest employers, this economic impact ripples out to create even more jobs and income. These substantial dollars translate into income for local businesses, from grocery stores and restaurants to car dealers and home builders, as well as tax revenue that supports community infrastructure, social programs and schools.

COMMUNITY BENEFIT

As part of their essential mission, a nonprofit hospital like Orange City Area Health System provides programs and services at little or no cost. These community benefit programs are designed to address specific community health needs, ranging from classes, screenings, immunizations and counseling to scholarships, research and in-kind contributions to other community groups.

SOCIAL BENEFIT

Beyond economic impact and community benefitting services and programs, hospitals provide a social benefit that may not be readily measured but can be seen throughout the community. Because of their relatively large size, hospitals offer opportunities for employees to grow their careers and support this by subsidizing employee continuing education. This leads to long careers at the same hospital, creating local stability as these employees raise their families and become increasingly anchored in the community.
