Meeting to Spotlight Fall Health Programs at WSCC

Health Science programs with openings available for the Fall 2019 semester at Wallace State Community College will be on hand at an informational meeting on Thursday, June 27, at 10 a.m. on the 12th floor of the James C. Bailey Center on the Hanceville campus.

"This meeting is to let students know they do have options for this fall," said Lisa German, Dean of Health Sciences. "Students who didn't get into their first-choice program or anyone who wants more information about our programs are welcome to attend."

"They can learn about other programs that may help them reach their ultimate goal of employment in the medical field or possibly lead them down a path they hadn't considered before," German added.

After a brief overview of the programs, students can meet individually with representatives of each. The meeting is open to the public.

The programs that will be represented at the meeting include: Child Development, Emergency Medical Services, Health Information Technology/Medical Coding, Medical Assistant, Medical Laboratory Technician/Medical Laboratory Assistant, Pharmacy Technology, Polysomnography, and Therapeutic Massage.

Classes for the Fall 2019 semester will begin Aug. 19. Priority registration begins July 8, with registration for all starting July 11.

For more information about the meeting or Wallace State's Health Science programs, visit www.wallacestate.edu or call 256-352-8000.

Clinicians prescribed antibiotics without an infection-related diagnosis nearly half of the time and one in five prescriptions were provided without an in-person visit, according to research being presented at IDWeek2018. The study, which is the first to look at overall outpatient antibiotic prescribing, analyzed more than half a million prescriptions from 514 outpatient clinics. Previous research has found antibiotics often are prescribed for certain symptoms (such as a sore throat or cough) when they shouldn't be. Most of these types of illnesses are caused by viruses and therefore don't benefit from antibiotics, which only treat bacterial infections

The U.S. Food and Drug Administration has approved a supplemental application for Gardasil 9 (Human Papillomavirus (HPV) 9-valent Vaccine, Recombinant) expanding the approved use of the vaccine to include women and men aged 27 through 45 years, Gardasil 9 prevents certain cancers and diseases caused by the nine HPV types covered by the vaccine. In 2014, Gardasil 9 was approved for use in males and females aged 9 through 26 years. According to the CDC, every year about 14 million Americans become infected with HPV; about 12,000 women are diagnosed with and about 4,000 women die from cervical cancer caused by certain HPV viruses. Additionally, HPV viruses are associated with several other forms of cancer affecting men and women.

Pregnant women who had low plasma levels of long-chain n-3 fatty acids in their first and second trimesters were at a significantly higher risk of early preterm birth when compared with women who had higher levels of these fatty acids, according to new research published in EBio Medicine.

SHOP TODAY'S LOW PRICE TAGS:

We have HUNDREDS of non-advertised items marked down throughout our entire store. More savings passed on to our customers. Just look for blue tags on the shelves.

NO LIMITS:

Our competitors also have advertised specials. The difference is, in most cases, they have a limit on how many of an item you can buy at the sale price...we don't have any limits to family shoppers.

Innovation that excites

Saving You MONEY

MITCHELL
GROCERY CORP.

IS WHAT WE ARE ALL ABOUT

No Cards, No Games, No Gimmicks - Just Hometown Values For Your Hard Earned Money

AD PRICES EFFECTIVE WEDNESDAY, JUNE 19, 2019 THRU TUESDAY, JUNE 25, 2019

SHOP TODAY'S LOW PRICE TAGS:
We have HUNDREDS of non-advertised items marked down throughout our entire store. More savings passed on to our customers. Just look for blue tags on the shelves.

NO LIMITS:
Our competitors also have advertised specials. The difference is, in most cases, they have a limit on how many of an item you can buy at the sale price...we don't have any limits to family shoppers.
