Teaching is a critical role of this position. They will use company set KPIs (key performance indicators) to convey to sales representatives how they performing. Sales team leaders are responsible for the success or failure of their team members. They will play an integral part of the hiring and recruiting process of new team members. Sales team leaders will handle 10-15 weekly accounts. They are responsible for receivable collections of accounts handled by their team members. Team leaders will need a thorough understanding of marketing. They need the ability to learn new technologies, how to implement them and, in some cases, sell those services to our customers. *They Got Me Back On My Feet After A Stroke.*

Bill Danley with Richard Bagby, MD, and Jill Mushett, Director of Inpatient Rehabilitation

While visiting his family in Memphis, Bill Danley suffered a debilitating stroke that paralyzed his left side. Following his acute care hospitalization, he was transferred home to complete an intensive stroke rehabilitation program. When Bill arrived, he was unable to walk, dress or feed himself. His speech was slurred, making him very difficult to understand.

Bill and his family were uncertain if he would ever walk again. He and the rehab team were determined that he would not only walk, but would cook, drive, and even play golf again. Within three weeks of being admitted, his hard

work and dedication paid off. He was able to walk, speak clearly, and dress himself.

Today, he is active - attending church, working on his golf grip and hoping to play very soon. "They made me work so hard that I found myself enjoying it. Their dedication made it possible for me to have a life again," he says.

The rehabilitation team at Southern Tennessee Regional Health System consists of occupational therapists, physical therapists, speech language pathologists, nurses, social workers, dieticians, and a medical doctor.
