humidity issues

Bad hair days aren't the only problem caused by excess moisture in your home.

Mold and dust mites – enemies of many allergy-sufferers – thrive in high humidity. Dehumidifiers remove excess moisture, which helps control mold and dust mites. ENERGY STAR dehumidifiers use about 30 percent less energy than standard models. The energy you'll save could run your ENERGY STAR refrigerator for four months.

Ask us about a \$25 rebate!

LEGAL DESCRIPTION: N 1/2 of the SW 1/4 of Section 28, Township 90 North, Range 43 West of the 5th P.M., Plymouth County, Iowa. (Per Original Government Survey)
GENERAL DESCRIPTION: In the offering is a very nice 80 acre tract of unimproved farmland. This 80 lays just 1 mile East of Kingsley, Iowa, one of Plymouth Counties most robust and progressive communities. Just 1/2 a mile from a highway and so close to Kingsley's Grain Marketing facilities as well as the Marcus Ethanol Plant, the Merrill Ethanol Plant and just minutes away from Sioux City's Terminal Markets, makes it even more attractive and gives you lots of marketing options (always nice).
 We all know the value of adding these 80's and 160's to our operations when and if they become available. Those opportunities are becoming more and more rare all the time with the land consolidation that is taking place. Odds are this will be the only opportunity you or your family will ever have at this piece of ground. With grain prices rising and seeming to stabilize, the land has held together very well, all things considered. By buying this now when it's available may well put you ahead of the curve as prices go up and less and less land becomes available. There have been excellent conservation practices used on this farm for years. One of the areas top farm families have farmed this and taken care of it like it was their own for years. Good luck to all of you!

MECHANICAL SERVICES SUPERVISOR

Northwestern College is seeking applicants for a supervisor of mechanical services to begin mid-August 2019. This is a full-time, 12-month position managing and maintaining the technical aspects of physical plant systems for the college-owned portfolio of buildings. The supervisor reports to the director of facilities management and is responsible for managing the overall operation of the physical plant, in accordance with policies and procedures and current federal, state and local regulations governing our facility.

Responsibilities include scheduling and monitoring building automation systems, troubleshooting electrical systems, and supervising HVAC/electrical and plumbing personnel. This person is also responsible for performing routine maintenance tasks as needed and documenting labor and material used in the work order system. Experience in managing preventative maintenance programs for life safety systems including fire alarms is preferred. The person is also on a rotation for after-hour service calls and emergencies.

The successful candidate will have an associate's degree or 1-3 years of post-high school training in building trades areas such as building automation, construction, electrical, plumbing, etc., with preference given to those with 5-7 years of progressive experience in building trades, system integration, troubleshooting, or installing and programming PLC/BAS controls systems, etc. Prior supervisory experience is preferred. The candidate must be a person with strong organizational and computer skills with proficiency in Microsoft Office products; solid interpersonal, oral and written communication skills; and the ability to multitask. The candidate must be a self-starter with attention to detail and a team player willing to contribute in a collegiate environment.

The successful candidate will have an authentic Christian faith and support the college's mission (www.nwciowa.edu/mission) and identity as expressed in our Vision for Learning (www.nwciowa.edu/vision), Vision for Diversity (www.nwciowa.edu/vision4diversity) and Christian identity statement (www.nwciowa.edu/Christian-identity).

Northwestern College is affiliated with the Reformed Church in America and seeks to more fully reflect the cultural and ethnic diversity of the body of Christ in its faculty, staff, administration and students. Women and candidates from historically underrepresented groups are enthusiastically encouraged to apply. Review of applications will begin immediately until the position is filled. To apply, send letter of application, resumé and Northwestern College application form to:

FACE behind the CARD

Insulation is the "not-so-glamorous" side of a building or remodel project...definitely not as much fun as new granite counter tops or a tile shower! In fact, the best insulation will go un-noticed if it is done right- it keeps you comfortable and extra money in your pocket from lower energy bills.

BUT "cheap" or poorly installed insulation will constantly remind you that something is wrong, usually with drafts and cold spots and can lead to high heat and cooling bills. Bad insulation can also lower the life expectancy of your home or other building!

Insulate your building right the first time! Four Way Insulation offers affordable, technologically advanced insulation options for your home, shop, ag building, or commercial project that will protect your investment and keep you comfortable. Our staff has the knowlege to take care of all the details and get the job done right. Give Pat a call for a free estimate!
