STEPS TO PEACE WITH GOD

- 1. God's Plan—Peace and Life**
God loves you and wants you to experience His peace and life. The BIBLE says: "For God so loved the world that He gave His only begotten Son, that whoever believes in Him should not perish but have everlasting life" (John 3:16, NKJV).
- 2. Our Problem—Separation From God**
Being at peace with God is not automatic, because by nature you are separated from God. The BIBLE says: "For all have sinned and fall short of the glory of God" (Romans 3:23, NKJV).
- 3. God's Remedy—The Cross**
God's love bridges the gap of separation between God and you. When Jesus Christ died on the cross and rose from the grave, He paid the penalty for your sins. The BIBLE says: "He personally carried the load of our sins in his own body when he died on the cross" (1 Peter 2:24, TLB).
- 4. Our Response—Receive Christ**
You cross the bridge into God's family when you receive Christ by personal invitation. The BIBLE says: "But as many as received Him, to them He gave the right to become children of God, to those who believe in His name" (John 1:12, NKJV).

To receive Christ you need to do four things:

1. **ADMIT** your spiritual need. "I am a sinner."
2. **REPENT** and be willing to turn from your sin.
3. **BELIEVE** that Jesus Christ died for you on the cross and rose from the grave.
4. **RECEIVE**, through prayer, Jesus Christ into your heart and life.

CHRIST says, "Behold, I stand at the door and knock. If anyone hears My voice and opens the door, I will come in" (Revelation 3:20, NKJV). The BIBLE says, "Whoever calls on the name of the Lord shall be saved" (Romans 10:13, NKJV).

What to Pray:
Dear God, I know that I am a sinner. I want to turn from my sins, and I ask for Your forgiveness. I believe that Jesus Christ is Your Son. I believe He died for my sins and that You raised Him to life. I want Him to come into my heart and to take control of my life. I want to trust Jesus as my Savior and follow Him as my Lord from this day forward. In Jesus' Name, amen.

A new review published in The Journal of the American Osteopathic Association found Vitamin D cannot be metabolized without sufficient magnesium levels, meaning Vitamin D remains stored and inactive for as many as 50 percent of Americans. Patients with optimum magnesium levels require less Vitamin D supplementation to achieve sufficient Vitamin D levels. Magnesium also reduces osteoporosis, helping to mitigate the risk of bone fracture that can be attributed to low levels of Vitamin D. Deficiency in either of these nutrients is reported to be associated with various disorders, including skeletal deformities, cardiovascular diseases, and metabolic syndrome. While the recommended daily allowance for magnesium is 420 mg for males and 320 mg for females, the standard diet in the United States contains only about 50 percent of that amount. As much as half of the total population is estimated to be consuming a magnesium-deficient diet.

A new study presented at an American Heart Association meeting indicates that the diabetes medication empagliflozin has important effects that can improve cardiac structure in people with Type 2 diabetes who also have heart disease.

When it comes to preventing blood clots after a knee replacement, good old aspirin may be just as effective as newer, more expensive drugs. That swap could help reduce the cost of caring for the nearly 1 million Americans who have a knee fixed each year, researchers say. After knee surgery, there's a risk of blood clots in the legs or lungs. So, it's routine for patients to take clot-preventing drugs for some time afterward. Some doctors choose powerful anti-clotting drugs. But a recent study published in JAMA Surgery found few patients developed a blood clot after surgery, and those who used aspirin did just as well as patients who took anticoagulants.
