29-pound salmon takes \$4K grand prize in annual fishing derby

By Tom Rivers, Editor Posted 18 August 2019 on OrleansHub.com

Photo by Tom Rivers

CARLTON – Julie Schaeffer and her husband Mike hold Julie's 29-pound, 6-ounce Chinook salmon which won the \$4,000 grand prize in 2019 Rotary Fishing Derby.

The Schaeffers are from Sligo, Pa., and have been fishing in the derby since the 1980s. Mrs. Schaeffer also won the grand prize in 2017 with a salmon weighing 30 pounds, 14 ounces.

The couple are both retired from a glass plant near their home. They bring a camper and a boat to fish in Orleans County, timing their trip with the annual Rotary Fishing Derby, which lasts 16 days.

Mrs. Schaeffer said she caught the big fish on Aug. 16 with a 2-faced spinner, with one side having green spots and the other black spots, with a fly behind it.

Her husband has never won the grand prize, but did have a first place in the salmon division in a past derby, which was good for \$500.

There were about 325 participants in the derby, with fish eligible from the Niagara River to the Genesee River.

There was \$8,800 in total cash prizes in four divisions – salmon, rainbow trout/steelhead, brown trout, and lake trout.

Besides \$4,000 for the biggest fish, the four division leaders each get \$500, followed by \$300 for second, \$200 for third, \$100 for fourth and \$50 for fifth.

There is also a \$200 prize to the Orleans County resident who catches the biggest fish. (Jeff Newman of Lyndonville won with a salmon weighing 23 pounds, 10 ounces.)

Albion police officers donate \$500 to youth football program

By Tom Rivers, Editor Posted 20 August 2019 on OrleansHub.com

ALBION – Karol Hughes, president of the Albion Police Benevolent Association, on Aug. 19 presented a check for \$500 to the Albion Youth Sports Athletic Program. Geno Allport, right, is commissioner of AYSAP, which includes about 100 kids, ages 6 to 14 in four teams of football and cheerleading. Johnathan Eibl, second from left, and Mason Lynch are both 8th-graders on the varsity football team in AYSAP.

Hughes said the Albion PBA wanted to donate to a local organization that works with youth. The PBA has a dozen members in the Albion Police Department.

Allport said the donation would likely be used for equipment. He said new helmets are \$150 each. AYSAP charges families \$125 to be on a team. The program also is looking to refurbish the pads on the blocking sleds.

County highway helps Albion put in new culvert on Clarendon Road

By Tom Rivers, Editor Posted 19 August 2019 on OrleansHub.com

ALBION – An inspector stands in a culvert and watches the Orleans County Highway Department and the Town of Albion Highway Department put in and compact fill material on Aug. 19.

The inspector is making sure the material is properly compacted and done at the same time on each side of the culvert on Clarendon Road.

A section of Clarendon Road was closed on July 8 and should reopen in late August in time for the new school year.

The town was awarded a \$174,000 Bridge NY grant to cover 100 percent of the project's costs. However, the construction bids for the project were way over that cost, with the low bid \$130,000 over budget.

The town was looking to replace the culvert with a 3-sided precast concrete culvert. The County Highway Department, now led by John Papponetti, re-evaluated the project to see if the costs could be lowered. Papponetti is an engineer.

Papponetti and the Labella Associates engineering firm determined an arch pipe would work for the culvert. That was significantly less money.

The town was awarded the Bridge NY grant back in January 2017. Mike Neidert, the town highway superintendent, said he appreciates the assistance from the county in getting the project done under budget. "The county highway has been great," Neidert.

The state grant will pay the county's personnel and equipment costs, and also for the town's material costs. The county has had three people assigned to the project, with the compaction this past week requiring a bigger crew from the county as well as three town highway workers. All of the labor costs for the town and county will be reimbursed through the Bridge NY grant.

The arch pipe is 128 inches wide at its peak and 83 inches high at the peak. It moves water from the west branch of Sandy Creek. "There are times when you get a lot of flow through there," Neidert said.

The section of Clarendon Road will be reopened in time for school in early September. Papponetti said the county would like to work with local municipalities to put in one of two culverts each year. That way the infrastructure work continues to go forward, especially when it can be difficult to secure state and federal funding for projects.

Robert E. Fuller, 88 of West Shelby entered into rest peacefully at his home surrounded by his family on Thu., Aug. 15, 2019. Born March 10, 1931 at the family homestead on Salt Works Road, Bob was a son of the late E. Laverne and Dorothy (Puff) Fuller. He was a graduate of Medina High School class of 1950. He went on to have a career at Harrison Radiator/Delphi in Lockport and retired after 30 years. Having grown up on the family farm, Bob was a lifelong farmer. The Relationship Between Exercise and Cancer

Exercise benefits the body in myriad ways. Studies have shown that routine exercise can help people effectively maintain healthy weights, sleep better at night and have more energy throughout the day. But exercise also may play a role in preventing one of the world's most deadly diseases.

The World Health Organization notes that cancer is annually responsible for about one in six deaths across the globe, making it the second leading cause of death in the world. Many of those deaths can be prevented by employing some simple yet effective strategies, such as avoiding tobacco products and applying sunscreen before going out in the sun. And while researchers aren't exactly sure why, the National Cancer Institute notes that substantial evidence suggests high levels of physical activity are linked to lower risks of several cancers.

The relationship between exercise and cancer risk is complicated. The NCI notes that nearly all of the evidence that links physical activity to cancer risk comes from observational studies. In such studies, individuals report on their physical activity and are then followed for years to see if and when they are diagnosed with cancer. While such studies are no doubt valuable, they cannot definitively establish that physical inactivity causes cancer or that physical activity prevents cancer. All they can do is establish a link between physical activity and lower cancer risk.

As mysterious as the relationship between exercise and cancer can seem, researchers can theorize about the connection between the two. For example, the Dana-Farber Cancer Institute notes that scientists have recently begun probing the connections between exercise, the immune system and cancer risk. Such research is rooted in the notion that exercise can reduce inflammation, an acute or chronic response by the immune system that can contribute to cancer risk.

The NCI also notes that the many biological effects of exercise on the body might shed light on the potential link between routine physical activity and a lower cancer risk. For example, the NCI says exercise lowers levels of certain hormones, such as insulin and estrogen, that have been linked to cancer development and progression. Exercise also has been linked to improved immune system function, and a stronger immune system is more capable of fighting various conditions and diseases, including cancer.

The relationship between routine exercise and cancer remains a mystery in many ways. But the potential for exercise to lower cancer risk is yet another reason for people of all ages to embrace physically active lifestyles. ■

Do you have HEEL pain or ARCH pain?

HEEL SPUR SYNDROME/PLANTAR FASCITIS

is a common problem among people who are active. It starts as a dull intermittent pain in the heel which may progress to a sharp persistent pain. Classically, it is worse in the morning with the first few steps, after sitting, after standing, or after walking.

- Plantar fasciitis often begins with irritation and tearing of the fibrous band of tissue on the bottom of the foot, which may eventually result in the formation of a heel spur.

- Contributing factors: flat pronated feet, high arched feet, poor shoe support, increased age, sudden weight increase, increased activity level, family tendency.

- Approximately 2-3 times your body weight of force is exerted on each foot with walking. Flexible, non-custom molded arch support found at those advertised shoe stores cannot support these forces and usually do not provide long-lasting relief, do not come with a lifetime warranty, and are typically more expensive than custom-molded ones made by our office.

- 95 percent of our patients symptoms are resolved with conservative treatment, avoiding surgical intervention.

- We also offer surgical procedures with the best post-op success rates using Endoscopic Plantar Fasciotomy techniques and EPF resulting in minimal incisions and scarring, immediate ambulation and often back in a shoe in one week.

If you can't remember when your feet didn't hurt, now is the time to give us a call!

SIGNS OF A STROKE

Sometimes symptoms of a stroke are difficult to identify. The stroke victim may suffer severe brain damage when people nearby fail to recognize the symptoms of a stroke. Now doctors say a bystander can recognize a stroke by asking a few simple questions:

- 1 Ask the person to **SMILE**.
- 2 Ask the person to **TALK AND SPEAK A SIMPLE SENTENCE**. i.e. It is sunny out today.
- 3 Ask the person to **RAISE BOTH ARMS**.
- 4 Ask the person to **STICK OUT HIS TONGUE**. If the tongue goes to one side or the other, that is a sign of a stroke.

OTHER STROKE WARNING SIGNS

- Sudden **numbness or weakness** of the face, arm or leg, especially on one side of the body
- Sudden **confusion**, trouble speaking or understanding
- Sudden **trouble seeing** in one or both eyes
- Sudden **trouble walking, dizziness**, loss of balance or coordination
- Sudden, **severe headache** with no known cause

If you or someone with you has one or more of these signs, don't delay!

CALL 9-1-1 IMMEDIATELY!

Signs of a HEART ATTACK

Some heart attacks are sudden and intense, but most heart attacks start slowly, with mild pain. Often people affected aren't sure what's wrong and wait too long before getting help. Symptoms include:

CHEST DISCOMFORT. Most heart attacks involve discomfort in the center of the chest that lasts more than a few minutes, or that goes away and comes back. It can feel like uncomfortable pressure, squeezing, fullness or pain.

DISCOMFORT IN OTHER AREAS OF THE UPPER BODY. Symptoms can include pain or discomfort in one or both arms, the back, neck, jaw or stomach.

SHORTNESS OF BREATH with or without chest discomfort.

OTHER SIGNS may include breaking out in a cold sweat, nausea or lightheadedness

Women are somewhat more likely than men to experience other common symptoms, particularly **SHORTNESS OF BREATH, NAUSEA/VOMITING, AND BACK/JAW PAIN.**

If you or someone with you has one or more of these signs, don't delay!

Call 9-1-1 immediately!

REAL ESTATE GUIDE

Tips on how to write CLASSIFIED ADS that sell!

- 1 USE A KEY WORD.** This immediately tells the reader exactly what you have to sell.
- 2 Make your description CLEAR AND FACTUAL.** State the year, make, model, color & size and tell what condition the item is in. Also, state the special features.
- 3 STATE THE PRICE.** Successful classified advertisers have learned that the price in an ad helps increase the chances for results.
- 4 IF THERE IS A GENUINE SENSE OF URGENCY,** say so. The words "We're moving," or "Must sell fast," suggest that readers respond immediately.
- 5 INCLUDE YOUR PHONE NUMBER.** Classifieds get results fast and often generate immediate sales. If you cannot be available to answer the phone at all times, be sure to specify special calling times such as "after 9pm" or "before 11am."

IT'S COMING!

By Douglas H. Domedion

Can't de-claw them anymore but still don't have to license them or keep them under control!

We complained about the cold all last winter and then summer came and we complained about the heat. Yes, we did have some usually hot temperatures this summer, but as August rolled in we have been getting some breaks in that area. Now we will be looking at some fall colors, hunting seasons, bird migrations and a host of other great fall features.

Our eagles didn't have a great nesting season with three of the the nine nest being failures and only one pair produced a pair of eaglets, the rest one eaglet each.

Ospreys were having a little trouble too as I know of only one nest that had three young and the rest seem to have only one per nest and two were not used this year. Good news is that a new nest was built and produced in the big power lines on Route 63 just south of Fletcher Chapel Road in Shelby. The nest on top of the telephone pole platform on Route 77 near the Cayuga Pool Overlook was a failure again this year. Maybe there is something wrong with this female, but she did stick with the incubation WAY past the due date or maybe too many folks are stopping to take pictures during the critical incubation period and spooking her off the nest. All kinds of signs have been placed along the this dangerous stretch of road saying there is no parking or standing and even the DEC has placed a sign on the pole asking folks not to stop and harass the ospreys. However folks just keep doing it.

There seems to have been a lot of wood ducks produced this year, but not too many mallards which are having reproduction problems all over.

All the emails and calls I received from readers of this column this year indicated that the hummingbird numbers were down. Recently my numbers have jumped right up which is mainly because of female hummers are leading their young to the feeders. My feeders are spread around to different sides of the house to give opportunities to the females during nesting season when the males try to dominate the feeders. A dirty trick was pulled on them last week. I have three feeders under my roof overhang by the high east window which are the ones used by the majority of the females. I left two of those up and took down the rest early one morning to see how many would show up at those feeders. At one time fourteen hummers were spotted a using or trying to use those two feeders!

I love the fall with all it's spectacular colors and the refreshing cooler temperatures. Although I no longer waterfowl hunt it is very exciting for me the witness of the waterfowl migration and photograph it.

Deer season should be great this year as I saw more deer this summer than ever before. Lots of fawns which seemed to have their birthdays spread out a great deal this year. I also notice more bucks this year and some with some dandy racks while in the early stages of their growth.

The raccoon population is up and that is a concern for rabies (we have had a number of cases in our area) and distemper. Fur prices have been pretty low and that has discouraged not only the old trappers and potential new ones. This is a shame as the trapper is the one who controls not only the raccoon, but is an important management tool for our marshes. He keeps our furbearer populations in balance. When wildlife populations get out of balance the environment and the wildlife itself suffer as diseases break out, predation increases and the environment can be degraded. It's nice to think that "just leave it all alone to take care of itself" is the thing to do but it doesn't work that way anymore. Man has altered the environment considerably and now it is up to us to keep things in balance.

Off the subject – what is with the Cuomo's new law about it being illegal to de-claw cats now? How does he come up with these things? Too bad he didn't pass a law that cat owners have to be responsible for their cats and get a license for them like dog owners. Now maybe that would cut down on the feral cats roaming around causing destruction to birds and smaller wildlife. Recently I have noticed a lot of cats being "dropped off" on the Iroquois National Wildlife refuge. "Return them to the wild" I suppose is the theory when these irresponsible folks no longer want their "pets!" Two weeks ago I spotted a white domestic rabbit sitting along the road by School House Marsh on the INWR. Oh a fox or coyote or raccoon will surely eat him, but in the mean time maybe he injected some domestic disease into the wild.

If we want to have a pet, be it a dog, cat, rabbit or parrot, we have the responsibility to the animal and others other folks to keep it under control and and taken care of them.

HOROSCOPES

• FOURTH WEEK OF AUGUST •

ARIES – Mar 21/Apr 20

Aries, you may be feeling sociable this week. Make the most of opportunities to hang out with those people you prefer to spend time with regularly.

TAURUS – Apr 21/May 21

Your work will be a labor of love for someone special, Taurus. Even though you are doing it for generous reasons, give yourself ample time to breathe and unwind.

GEMINI – May 22/June 21

Gemini, your routine offers you comfort this week, but you may want to find some way to veer off course for a little bit. Who knows what waits around the bend?

CANCER – June 22/July 22

Cancer, you may be worrying about things that are troubling you instead of enjoying time spent with friends. Enjoy time with loved ones and your troubles will subside.

LEO – July 23/Aug 23

Surround yourself with loved ones this week, Leo. You will take away much joy from these interactions. Do something fun and playful with siblings or cousins.

VIRGO – Aug 24/Sept 22

Virgo, you may feel the need to be responsible for others over the course of the next few days. They can probably handle themselves, but a little help never hurt.

LIBRA – Sept 23/Oct 23

Libra, if you have put a high level of trust into other people, you won't be disappointed when they live up to all of your expectations. Take some time to thank them.

SCORPIO – Oct 24/Nov 22

Scorpio, you may feel a desire to be fully understood by others this week. But they can only understand you if you're open and honest with them. Be more forthcoming.

SAGITTARIUS – Nov 23/Dec 21

Sagittarius, you are alert and inspired this week, and you may be on a quest to expand your social circle. Go to community events or other social activities in your area.

CAPRICORN – Dec 22/Jan 20

Capricorn, little financial uncertainty should compel you to take inventory or even revise spending habits. Unforeseen circumstances can pop up.

AQUARIUS – Jan 21/Feb 18

You may feel confused about your current situation in life, Aquarius. This may be the case if you're comparing yourself to others. You're actually doing quite well.

PISCES – Feb 19/Mar 20

Pisces, innovative solutions are on the tip of your tongue. You just need to organize your ideas to present them to others.

Check out what people are saying about Bidleman Chevrolet in the Google Reviews...

Valerie B. ★★★★★

The service is awesome! The people are so nice! Fast service! Went in...filled [out an] application...pulled out with my new vehicle that day with awesome payments and great prices! Definitely highly recommend Bidleman!

Charles R. ★★★★★

Looked online for 2 weeks educating myself on which trucks suited me best. I learned enough to become a salesman for any truck maker. Everytime I looked online I found myself back at Bidleman. No One within 100 miles compared to the pricing. I visited 4 major dealers and 2 private sellers and yet again I ended up at Bidleman. It was well worth the ride out to Albion and I couldn't be happier about the sales and service teams, specifically Steve Bagley, sales consultant and Jeremy DeMarco, finance manager. I believe the service tech's name was John and he was extremely helpful with his knowledge and pointers regarding my new pride and joy, a 2016 Silverado 1500 Custom. If I haven't convinced you as a customer looking for a super sweet deal and honest, compassionate care, then take the beautiful, scenic ride out to Bidleman and see for yourself. You won't be disappointed. Thank you again Bidleman Chevrolet Buick GMC! I look forward to doing business in the future for myself, family and friends. Happy truckin'!
