with contributions from Richard Baumann

## Grandma Goes to the Fair

I love going to the Sheboygan County Fair. Despite its name, the fair takes place in Plymouth at the end of August and early September. When our children were youngsters, my husband and I always took them to the fair—our favorite food item were the cobs of corn plunged into a vat of melted butter and then doused with salt. The kids preferred the cotton candy (what do they know about good food).

All of a sudden our two girls are grown and then we started taking their children to the fair—pony rides were their favorites and walking through the barns was a fun experience for them. Never knew there were that many different kinds of rabbits or chickens and by golly those pink little piglets are really so cute. Don't know if I can ever eat ham again!

Then, of course, there's all that "boring" stuff that the kids tolerated looking at. Yeah, the flowers are pretty and who cares about all those jars filled with pickles. Well, husband Richard was motivated one year—he entered a jar of his dill pickles and he even won a ribbon and a cash prize, which equaled the entry fee. He really entered for the glory and not the money.

The kids persuaded us that all this was enough and it was time for the rides. The merry-go-round was ok but the Ferris wheel and Tilt-A-Whirl were certainly more exciting. Far be it from me to not get involved — I felt the bumper cars were more my speed. I soon

learned that you're best off if you drive over to those areas which have fewer cars and then get all revved up to hit the others before they can break loose from the traffic jams that inevitably occur. I'll never forget one time when grandson Max came laughing down the ramp after I had kind of demolished all competitors. In answer to our questions he said, "That lady was asking her kid how he liked it and he said, 'oh, it was okay, but you really had to watch out for that old grandma over there. She was hitting everyone.'"

But one thing they're not embarrassed about is how I can usually win some goldfish by throwing ping-pong balls into those little bowls that are set up in a square in the middle of a booth with railings behind which you have to stand. I'll share my secret—throw the ball high up so that it comes down almost vertically - not always - but quite frequently, it will land or bounce into one of the bowls. If you just toss it out there any which way it's more likely to skim over the top and fall onto the other side. I hope you won't be banned from figure gold fish competitions by my giving you this 'inside information'. I figure that the readers of the Depot Dispatch are entitled to something more than just a good story.

Final comment: We now have two great-grand-children and I guess we'll just have to treat them to this Sheboygan County Fair experience, assuming we're still able to hobble around.

# 12 Hours of Biking at RA

The 12 Hours of Road America bike ride was conceived as the primary fundraiser to support the mission of myTEAM TRIUMPH around the state!

The event took place August 10th from 6pm to August 11th 6am.

Individuals or teams took on the challenge to cover as many miles as possible on the historic 4 mile race track known as "America's Playground of Speed" and to raise funds for the mission of myTEAM TRIUMPH!

In total more than 300 participants took to the track including 15 athletes with disabilities!

The event was more than a cycling race. Participants were treated to a VIP experience while they weren't riding with food trucks, live music, midnight pizza buffet, movies in victory lane and a pancake breakfast! More than \$90,000 was raised and donated by the sponsors and participants!

myTEAM TRIUMPH is human service organization dedicated to addressing one of the biggest challenges facing people with disabilities...social isolation. They provide the support and equipment so individuals with disabilities can participate in road races and triathlons with able-bodied volunteers.

Athletes with disabilities are called "Captains" while their partners are called "Angels". Through the start and finish line, both groups form lasting, authentic relationships!

There are 20+ Chapters of mTT around US and Canada. Wisconsin was started in 2010 inspired by Mary Cox, who has muscular dystrophy. Annually, mTT serves more than 2000 individuals through 70+ inclusive events and offers more than 15,000 training and racing opportunities in 8 regions around the state of Wisconsin!

Road America officials commented that they couldn't be more proud of how the event went. Road America is planning to continue it annually and to grow it and continue to make it better.

"We believe the event has the potential to be one of the most unique and special cycling festivals in the country!" one official said.

Lucy & Levi were the first 2 customers and became the store dogs. Below is an inside view of opening day 8-29-14 - lots of inventory has been added since that day including opening a second store.

# Dogs, cats, owners all love the goodies at Christel's Pet Supplies

By Mike Mathes  
for the Depot Dispatch

Business has gone to the dogs. It's gone to the cats, too, for that matter.

Christel's Pet Supplies & More celebrates five years of going to the dogs and cats this year, a business designed to cater to pet owners and their furry friends.

Christel's Pet Supplies & More opened its original Kiel location at 230 Fremont Street in 2014, then followed with its second store, at 216 E. Mill Street in Plymouth.

Christel's Pet Supplies & More offers a holistic, all-natural approach to pet food (Fromm and American Natural Premium), treats, and chews. The "& More" portion of the name refers to such as animal themed birdhouses, garden art, memorials, picture frames and even paw print fashion scarves.

Mary Christel, who owns and operates the two stores with her husband, Dan, said, "We focus on purchasing products made in the U.S. This does limit our selections at times but we are happy and proud to say that 95 percent of our merchandise is made in the U.S. We research and look hard to find U.S. vendors. In some cases we go without a product because we have not yet found a U.S. source."

Though Kiel was the first location for Christel's Pet Supplies and More, Mary said that Plymouth's location was always part of their five-year plan.

Plymouth's downtown planners gave an assist that enabled Christel's Pet Supply and More to move into its downtown Hub City location two years early. "The downtown development manager came to us in August of 2015, found us a location and helped us with our business plan," she said.

Another factor that helped facilitate the growth plan was the availability of a ready and eager store manager in the person of Mary's daughter, Nadine Becker.

## Food a staple product

Dog and cat food products are the staple for Christel's Pet Supplies & More.

"In addition, to being made here in Wisconsin, our pet food brands are known for

their pet health benefits," Christel said.

As a bonus, they are Wisconsin made products supporting the Badger State economy.

"These foods have been specially selected. You won't find this kind of product in a big box store," she said.

A variety of other items offered at the store also appeals to pets and their owners.

Dog and cat treats are atop the list of accessory products, along with leashes, collars, chew and play toys, stain and odor removers, flea and tick sprays. The list may be endless, but it is impressive.

Christel acknowledged that one leash variety is made in China, but she made the exception to feature it, since the firm was started by a US veteran.

Other forms of animal-friendly items include fair-trade constructed bird houses, and garden art items that are sold to benefit various animal rescue programs.

Christel's Pet Supplies & More believes in supporting rescue organizations.

"Almost monthly we hold some type of event, at one or both of the stores, that benefits Paws Up Pet Rescue, ranging from nail clipping, to pet photos to specials on cookies, donating the proceeds," Mary said.

Events planned for this rescue include Hogs for Dogs (100 mile trivia ride) - Sept 7, 2019 - Smerkes Sportsman's Club registration 10 to noon.

Nail Clipping - Plymouth store - September 24 - 5 p.m. - 6:30 p.m.

Barks, Brews & BBQ in conjunction with Plymouth Brewing Co - October 6, noon to 3.

Pasta for Paws - Amore ' - October 15 - 4:30 - 8:30.

March MUTTness - March 14, 2020 - 11 a.m. - 3 p.m. Lakehouse Bar & Grill - Crystal Lake

Store hours at the two Christel's Pet Supplies and More locations are:

Kiel—Closed Sun & Mon., Tues. 10-5, Weds. noon to 7, Thurs. & Fri. 10-6, Sat 8:30 -1

In Plymouth starting Oct. 1 the store

# Cobblestone Hotel plans reveals by Van Horn

Van Horn Real Estate, in partnership with Wisconsin-based Cobblestone Hotels, has announced a new hotel project, scheduled for completion by 2020.

Van Horn Real Estate and Cobblestone Hotels have signed a Letter of Intent to develop a new hotel in Plymouth, WI. Located on Eastern Avenue, the 55-guestroom Cobblestone Hotel & Suites represents Phase 1 of a larger master-planned development project; including additional retail and residential buildings. Each room will feature signature Cobblestone Hotel amenities such as microwaves, refrigerators, coffee service, free high-speed internet and flat panel televisions. Other services will include complimentary hot breakfast, guest laundry facility, convenience store, pool and exercise equipment.

“Area research showed a need for more lodging in the Plymouth area,” said Chris Merklein, Director of Real Estate. “With Plymouth as the corporate headquarters for Van Horn Automotive Group, we are

familiar with the area, and enjoy investing in our community.” Whether traveling for business or for leisure, guests can expect big-city quality with small-town values. Visit [www.CobblestoneHotels.com](http://www.CobblestoneHotels.com) for reservations and more information.

About Cobblestone Hotels  
Based in Neenah, WI Cobblestone Hotels, LLC® is a leading upper-midscale hotel brand with over 160 hotels open, under construction, or in development in 27 states. The company continues to pride itself in filling the lodging needs of communities through its upper mid-scale new build brand. Signature amenities include high-speed Internet access, complimentary hot breakfast, convenience store, fitness centers, business centers, and more.

Cobblestone Inn & Suites is part of Cobblestone Hotels, LLC®, which also includes Boarders Inn & Suites by Cobblestone and Cobblestone Hotel and Suites. For development information please visit [www.CobblestoneFranchising.com](http://www.CobblestoneFranchising.com).

Historic log structure with 4.5 acres and 300 ft of frontage on the banks of the Sheboygan River. This location is absolutely stunning. The home has been reduced to the original frame structure and is ready for restoration or to be moved to another site. The barn and shed are solid but would need some restoration as well. There is 4.57 acres of land which is accessed by a long shared driveway and a mound system that is rated for a 3 bedroom home. If this looks like the place that you would like to create your new home please schedule your private showing.

**\$169,000**

# Illusionary show coming to Weill

Five World-Class Magicians/Illusionists/Escape Artists/Sleight-Of-Hand Specialists and more to present show at Weill Center in Sheboygan on Saturday, October 12.

Sheboygan, WI – August 12, 2019 – The Co-Creator of Broadway’s “The Illusionists” franchise will present an all-new Illusionary show - ABRACADABRA Live on Tour, on Saturday, October 12 at the Weill Center in downtown Sheboygan. The show features five world-class magicians/illusionists/

escape artists/sleight-of-hand specialists, a supporting cast of dancers/visual artists, and five macaws and cockatoos who will appear from nowhere and fly above the audience, ABRACADABRA’s format is family-friendly and for all ages.

The five illusionists will include:  
Anti-conjuror Dan Sperry - Hailed as the most in-demand and “Relevant Modern Illusionist of This Generation,” Sperry has starred on Broadway and network TV. One of the top 10 most-searched on YouTube, Sperry has been described as “Marilyn Manson Meets David Copperfield.” He presents magic for people who love magic shows but an even better show for people who hate magic shows.

Grand illusionist Brett Daniels - Co-creator and original front man of “The Illusionists” before it came to America, Sheboygan will have a first-look at new and exciting illusions created by this world-champion magician. He was awarded “Magician of the Year,” “Entertainer of the Year,” “Best of the Best Grand Illusionist,” “Illusionist of the Millennium” and was star of NBC’s special “The World’s Greatest Magic,” Houdini - Unlocking The Secrets,” and ABC’s “Champions of Magic.” Daniels was co-producer of Criss Angels’ SUPERNATURALISTS.

Erika Weiss – Weiss took her name from the king of handcuffs, Appleton’s own

Harry Houdini, who was born Erik Weiss. She is reimagining the typical “restraints” (pun intended) of the traditional male escape artist and blending it with modern theatrics. Weiss will present a new act, “Lady in the Water” along with emotionally jarring feats of mental, physical and psychological challenges in her original groundbreaking escape act.

Matthew Teague - Previously an underground artist sought out by high end corporate and casino clients, the Weill Center audience will understand what everyone’s talking about. “Mind-blowing” has been used to describe this young master of sleight of hand.

Machiavelli – From Serbia, this “ghost” - known and whispered as a “myth” by those who know the magic underground, Machiavelli is both a musical prodigy and a master illusionist. ABRACADABRA is the first public show of this rumored master.

World champion grand illusionist Brett Daniels, in partnership with legendary rock and Broadway promoter, Arny Granat’s Grand Slam Productions will stage magic and illusionary acts that have drawn industry raves. ABRACADABRA features “The Best of the Best” presenting the latest and greatest magic and illusion, including Blackbird, Mighty Wings, the Goddess levitation, Machiavelli’s mystery and many more; as well as world premiere illusion acts. Select children attending the Weill Center show will be invited onstage to join in the magic and fun.

Tickets for ABRACADABRA go on sale August 13 at noon. The ticket office at the Weill Center, 826 N. 8th Street in downtown Sheboygan, is open Tuesday through Friday noon to 4:00 PM. Tickets can also be purchased via phone 920-208-3243 or online at [www.weillcenter.com](http://www.weillcenter.com)

## Inside the Bottle

by Jaclyn Stuart CS, DWS, FWS

### How to taste

Some people like to make tasting wine far more snooty and involved than it needs to be, but if you really want to get the most out of a wine there are certain steps that you can take to fully appreciate the wine’s bouquet and flavor profile. To make this simple and easy to remember, just follow the “7 S’s of Wine Tasting.” At each of my wine classes, we go through these together once and then I leave it up to tasters to continue to follow them – or to simply just drink and relax. Not every glass of wine needs to be fully analyzed, but even if I don’t mechanically go through each of these steps, I do subconsciously.

**See.** Look at the wine’s color and make sure that it is the correct color for the type of wine. If it is a young white wine, it should be crystal clear with a light yellow or green color. As white wine ages or oxidizes, it turns golden, and eventually brown, in color. If you have a white wine that is youthful (1-5 years old) and very gold in color or cloudy, this could be a sign of poor storage. For red wine, you want the wine to be ruby red or garnet in color if it is younger, with tawny or brown hints as it ages. If it is hazy or muddy looking, this could be a sign that something is wrong with the wine.

**Swirl.** When you swirl the wine in your glass, not only do you look like a wine aficionado, but you are actually waking up the wine and allowing the aromatics to evaporate up to your nose for the third “S”. Next time you pour a glass of wine, let it sit for a moment and then give it a sniff. Notice how it seems a bit muted. Then give the wine a swirl in your glass - just a few rotations will do - and then check it again. You should notice that the aromatics are more pronounced.

**Sniff.** This step is most important for ensuring that the wine isn’t bad. It shouldn’t smell musty, corky, or vinegary. Once you become a wine pro, you might start talking about the bouquet and how it smells like “gooseberries,” “petrichor,” or “forest floor.” If you smell it and just smell “wine” that’s okay, too! Just be sure it smells worthy of sipping.

**Sip.** Take a small amount and move it around on your palate so that all your taste buds get a chance to enjoy it. Our tongue is full of sweet, salty, bitter, and salty receptors; with the fewest concen-

“Inside the Bottle” will be a monthly column that dives into the world of wine, craft beer, spirits, and other beverages – fermented and beyond. Jaclyn Stuart, author of *The Complete Idiot’s Guide to Wine & Food Pairing* and owner of *Vintage Elkhart Lake*, will author the column and answer questions she frequently encounters inside her shop, at our wonderful Elkhart Lake area restaurants, and on her travels. If you have a question that you would like to see answered in this column, you can submit it to [sommelier@vintage-elkhartlake.com](mailto:sommelier@vintage-elkhartlake.com).

trated in the middle of our tongue. Most people just knock back wine through the middle of their palate and they miss out on all intricacies that the wine has to offer. If it makes your mouth water, that is likely due to higher acidity and if it makes your tongue feel dried out, that is likely a result of tannin. Paying attention to how your palate reacts to wine can help you choose wines that you are more likely to enjoy in the future.

**Slurp.** This step takes some practice but can really make a difference. Just like swirling wine in your glass helps open up the wine, slurping does the same in your mouth. Trilling the wine with a little bit of air can take the flavor sensation and dial it up. Just be careful not to dribble.

**Swallow.** This one is pretty self-explanatory.

**Savor.** This final step is probably the most important. I often hear from people that they ‘just don’t like’ a certain type of wine. But when I try to inquire as to why, they often can’t provide a reason. When you take a moment to savor the wine, think about why you do or don’t like it. Is it too tart? Too dry? Too sweet? The perfect balance of fruit and earth? Whatever it is that you do or don’t like about it, take a moment to note that. This way, when you are in a restaurant or wine shop, you can explain what it was that you enjoy or dislike, so you can be sure to hone in on the perfect pour.

With any new lesson, it is important to practice, practice, practice! So grab a bottle, pop the cork (or twist the cap) and pour yourself some wine to practice your 7 S’s!

Cheers!

# New programs

## Lakeland University offers two more degrees

Lakeland University is launching two new bachelor's degree programs this fall which address hiring needs in the region and throughout Wisconsin.

As the healthcare industry moves to hire registered nurses with four-year degrees, Lakeland has launched an RN to BSN completion program for licensed registered nurses who have an associate degree in nursing.

Lakeland is also starting a bachelor of science in industrial systems analytics, a program highly sought by regional employers that will immerse students across the fields of technology, programming, statistics and data analysis and visualization.

Lakeland's BSN program features curriculum geared toward career advancement and positions nurses for supervisory and other leadership roles. Nurses with an associate degree can transfer up to 72 credits to Lakeland, and those with college-level coursework from an accredited four-year college may transfer more, cutting down the time to finish a bachelor's degree.

Wisconsin Center for Nursing (WCN) research shows that 22 percent of RNs plan to further their education in the next two years at a time when more hospitals are requiring RNs to hold a BSN. WCN research also shows that no Wisconsin region meets the goal of having 80 percent of RNs with a BSN by 2020.

"Nearly 50 percent of RNs in Wisconsin have a BSN, so it'll be important for nurses to return to school to keep pace," said Kerry Hamm, director of Lakeland's nursing program. "Lakeland is excited to assist the state's healthcare providers in meeting future nurse workforce needs and provide a way for nurses to grow in their profession."

Graduates of Lakeland's BSN program will be in line for higher-paying positions and better hours in addition to leadership opportunities. Hamm said studies show that RNs with a BSN earn on average 5-6 percent more than RNs with an associate degree, and nurses with a bachelor's degree who work in nursing management earn 13 percent higher salaries than their associate degree counterparts.

To learn more about Lakeland's RN to BSN, email [getstarted@lakeland.edu](mailto:getstarted@lakeland.edu) or visit [Lakeland.edu/RNtoBSN](http://Lakeland.edu/RNtoBSN).

Industrial systems analytics will prepare students to design, develop, implement and operate complex processes and systems in industry and elsewhere.

"Data analysis applies to a world that goes beyond business decisions, as today information and data influences every aspect of our world," said Brian Frink, dean of Lakeland's School of Science, Technology & Education. "Organizations have told us they need graduates who can help them become smarter and more efficient at predicting future opportunities, as well as risks."

"This program will allow us to positively impact the companies in our geographical area, including the large, growing manufacturers that are generating more and more data that they will need to understand in order to continue to improve and grow."

The workforce for graduates of the program is bright. Wisconsin's Workforce and Labor Market Information System notes that operations research analyst is the fastest growing job market in the state, and is growing faster in Wisconsin than nationally.

Wisconsin ranks second in the nation, behind only Indiana, in the percentage of earnings and employees that work in manufacturing according to the U.S. De-

partment of Commerce, Economics and Statistics. Sheboygan County ranks 25th (out of more than 3,000 counties) in the nation in the percentage of total earnings due to manufacturing.

To learn more about Lakeland's industrial systems analytics degree, email [getstarted@lakeland.edu](mailto:getstarted@lakeland.edu) or visit [lakeland.edu/isa](http://lakeland.edu/isa)

# Marsh educational facility promoted

## Friends of Marsh bring awareness efforts to downtown

Friends of the Marsh had a booth at Elkhart Lake's Downtown Night to raise awareness of their project to build a 3800 plus square foot educational facility at the Broughton Sheboygan Marsh. Of the \$2.1million project, \$300,000 is needed before groundbreaking can begin.

Children and users of our wondrous marsh will benefit for generations to come when this educational facility is built. Please donate and spread the word with those who are able to contribute to this worthy cause. We hope to start construction soon. We are so close to our goal, so your help is important to build for the future.

To donate send to: Friends of the Sheboygan Marsh, Inc. at P.O. Box 301, Elkhart Lake, WI 53020

What fun it was at Downtown Night! Camp Y-Koda Education Director, Sarah De Zwarte is shown here with the Camp mascot, Sakia, a female corn snake. Lil Pipping, President of Friends of the Marsh, manning the booth.

# NH historical sites remain open to public on weekends

The New Holstein Historical Society's Timm House and Pioneer Corner Museum are open to the public on weekends.

An added feature for the 2019 season is an exhibit, at the Timm House, of eight wedding dresses from the NHHS's own collection or on loan from friends of the NHHS. The dresses span a time slot from 1886 to 1961. Dresses are displayed in various rooms throughout the restored

Victorian home. Each dress is accompanied by a description of who wore the dress, and when, as well as a short history of "happenings" in New Holstein for the time period when the dress was worn.

Both the Timm House and Pioneer Corner Museum are open Saturdays and Sundays from 1 to 4 p.m. through October 27. An admittance fee is charged.

# Lakeshore Technical College welcomes public review input

Lakeshore Technical College will host a site review for continuing accreditation of its associate degree nursing program by the Accreditation Commission for Education in Nursing (ACEN).

The public is invited to meet the site visit team and share comments about the program in person at the meeting on Wednesday, September 18, at 4 pm in room L222 of the Lakeshore Building on LTC's Cleveland campus.

Written comments are welcome and should be submitted directly to: Dr. Marsal Stoll, Chief Executive Officer, Accreditation Commission for Education in Nursing, 3343 Peachtree Road NE, Suite 850, Atlanta, GA 30326. Written comments can also be submitted via email to: mstoll@acnursing.org. All written comments should be received by ACEN by September 11, 2019.

# Otto's

# Sundance hosts national horse trials

The Sundance Farm Horse Trials will be taking place on September 28-29. This is a nationally recognized competition approved by the United States Eventing Association. Riders will begin the competition on Saturday, with dressage rides in the morning. This test requires riders to do specific maneuvers on horseback showing the communication of horse and rider throughout the ride. Riders wear black coats, light colored breeches and tall black boots. Dressage begins at 8:00 am

By 10:00, some of the riders must switch equipment and apparel to compete in phase two of the competition. This would be the stadium jumping which is held on the grass. The colorful course of jumps is situated on reasonably flat terrain, however there are some hilly rolls and dips to the course that add challenge to conquering the jumps. All the poles sit on shallow metal cups. If the horse happens to lightly rub any of the jumps the poles will fall down and the competitor will garner 4 penalties per jump.

Horses are also penalized for refusing jumps or for doing the course too slowly. Equipment for this phase includes protection for the horse's legs and helmets for the riders. The saddles are also different as they help place the rider more forward for staying over the horse's center of gravity for jumping. Some horses and riders have difficulties with bright fences, while others have problems with the wider oxer jumps, or the combinations that require the horse to jump, take two strides and immediately take a second jump. The morning starts with the more advanced levels where the jumps are higher and wider. There are also more jumps and the optimum time is shorter. Stadium jumping begins at 10:00am.

Sunday morning competition rounds out with the third phase, starting at 8:30.

Known by competitors as the 'Cross Country' Phase, it is the main reason most riders are in this sport. This course is made up of solid obstacles that do NOT fall

down. Horse and rider must jump a course of cabins, logs, roll tops, coops, ditches, banks and water. Many are located on rolling terrain, through the woods, and across fields or around fields. An optimum time is required, so again, riders must keep up the pace and cut corners where they can.

While riders are permitted to walk the course as many times as they want beforehand, the horses are not allowed to see the course ahead of time. Trust between horse and rider is a big part of this day's competition. Once again, horses wear protective leg gear. Riders are required to wear protective helmets and vests. It is traditional for competitors to outfit themselves and horses in a specific color theme. All the equipment and rider attire will be the same color, so leg wraps match saddle pads and protective vests making for ease of spectators to identify their favorite rider.

This particular horse trial, while only in its sixth year, is becoming known for the bright triangular Sargento cheese wedges that the horses must jump over, along with the Bank First National Picture Frame jump that the upper level horses must jump through. New this year, various stone wall fence lines have been cut through to offer better gallops on course and a path through the hollow is now available for easy viewing by spectators. The Sundance Farm Horse Trial has been featured in the National Eventing magazine as an 'Up and Coming' attraction in the Midwest. The course has a reputation, with competitors, as being the most beautiful course in the Midwest.

Depending upon the number of competitors, Sunday's competition will go until at least 1:00pm.

Admission is free. Food will be available on the grounds. Consider coming early to see horses and riders preparing and warming up. The first horse goes on course at 8:30am

The competition entrance address is W6224 Woodland Road, Plymouth. Located near Sargento, off of County Road C.

For more information check our website at [www.Sundancefarm.net](http://www.Sundancefarm.net) or on Facebook "Sundance Farm Horse Trial"

# Everyone helps protect the lake

Everyone has a role to play in protecting Elkhart Lake. Implementing Best Management Practices is a critical step toward improving Elkhart Lake's water quality and clarity. Here are a number of important steps you can take to help Keep Elkhart Blue.

1. Never dump anything down storm drains or in the lake - Do not dump aquarium plants, fish or amphibians into the lake. They can wreak havoc with the lake's ecology.

2. Maintain your septic system - Failed septic systems or saturated fields can cause serious lake quality problems. County ordinances require a 3 year inspection routine on septic systems.

3. Reduce or eliminate pesticides - Residue from pesticides can run into the lake. It can poison birds, fish and insects, all of which are required for healthy lake water. Try a natural approach to gardening and skip the chemicals. If you must use pesticides, use the least toxic pesticides, follow labels, and learn how to prevent pest problems without pesticides.

4. Avoid Fertilizers - The phosphorous and nitrogen you put down on your lawn or garden also feeds the aquatic weeds in Elkhart Lake. Most lawns don't need fertilizer to grow healthy and green. Leave your grass clippings on your lawn as a source of natural fertilizer and you can avoid using chemical fertilizers. It's cheaper and safer. If you must use fertilizer, use it sparingly and sweep up driveways, sidewalks, and gutters afterwards.

Or use an organic or slow release kind to minimize the impact on the lake.

5. Buffer Areas - All water flows downhill to the lake and carries with it the nutrients that feed vegetation. Placing a buffer zone of plants between open lawn areas and the water's edge helps decrease runoff and nutrients entering our lake. Plus the geese won't hang out on your lawn!

6. Control Erosion - Plant native trees and shrubs along waterways to prevent soil erosion and control run off around the perimeter of the lake. Direct downspouts away from paved surfaces; consider a rain garden to capture runoff.

7. Adhere to beneficial landscaping practices - Consider lawn alternatives to grass and vegetate bare spots in your yard. Compost your yard waste.

8. Monitor invasive weed introduction.

9. Properly dispose of pet waste - Pick up after your pet and scoop the poop!

10. Go to a car wash - Washing your car in the driveway or yard will carry oil and soap products into the soil or down the storm drain to the lake. This will add nutrients to the lake water.

11. Check your car for leaks and recycle your motor oil.

At the Beach:

1. Please DO NOT feed the wildlife - It only encourages gulls, geese or ducks to hang out, which increases the risk of fecal matter at the beach and in the lake. A whole flock can dramatically increase the phosphorus and bacteria in the water and

stimulate algae growth. The parasites that cause swimmer's itch also live in waterfowl so leave the breadcrumbs at home.

2. Don't enter the water if you are ill.

3. Dispose of litter in appropriate trash containers - especially cigarette butts and diapers.

4. Change diapers - Put plastic/rubber pants on diapered children before allowing them in the water.

On the Lake:

1. Clean Boats, Clean Waters - Follow the Clean Boats, Clean Waters program guidelines to help prevent the introduction or limit the spread of aquatic invasive species. Inspectors at the boat launch conduct boat and trailer inspections and educate boaters on how to prevent the spread of aquatic invasive species. Follow the Wisconsin transport laws for boaters and anglers:

INSPECT your boat, trailer and equipment.

REMOVE any attached aquatic plants or animals (before launching, after load-

ing and before transporting on a public highway).

DRAIN all water from boats, motors and all equipment. NEVER MOVE live fish away from a waterbody.

DISPOSE of unwanted bait in the trash. BUY minnows from a Wisconsin bait dealer. Use leftover minnows only under certain conditions.

2. Keep trash from blowing overboard - Bring it back to port for proper disposal or even pick up trash you find in the lake. Like the camping motto - "pack it in, pack it out."

3. Follow "no Wake" postings.

4. Don't Spill Fuel - Be careful when fueling your boat; catch any overflow with petroleum absorbent materials.

5. Fisherman - Never leave fishing line in the lake or tangled in trees or docks.

6. Use onshore restrooms.

# LTC earns prestigious NSF grant

Lakeshore Technical College was selected as a recipient of a MentorLinks: Advancing Technological Education grant funded by the National Science Foundation (NSF) and awarded by the American Association of Community Colleges (AACC).

"This is one of the first, competitive, nationwide grants awarded to LTC in a number of years and we are extremely honored to be one of only 10 colleges in the nation selected for the MentorLinks program," said LTC President Dr. Paul Carlsen. "We pride ourselves on providing the best learning environments for our students, and with the MentorLinks grant, we can help raise our community's overall educational attainment and meet the needs of our regional employers."

The \$20,000 grant is to be used to

support efforts associated with program development or improvement related to STEM (science, technology, engineering, mathematics) education with an emphasis on professional development. LTC's grant focuses on college-level instruction in high schools as part of its College Here & Now initiative. More than 100 Sheboygan Area School District high school students have already pre-enrolled in College Here & Now, which offers the opportunity to earn an LTC associate degree at the same place and time they complete their high school diplomas, with no tuition cost.

The grant will pair LTC College Here & Now Instructor Sarah Bornemann and Business & Technology Dean Doug Hamm with a mentor college, and their professional development activities will focus on establishing and benchmark-

ing College Here & Now student performance metrics for enrollment, course completion, and retention. They will also look to effectively scale programming for additional high schools and bring other STEM programs to the College Here & Now delivery format.

College Here & Now was announced in October, 2018 in partnership with the Sheboygan Area School District and Lakeland University to meet the growing, local need for information technology (IT) employees by strengthening the IT talent pipeline.

# Wade House hosts a pair of breakfast events

Wade House guests will have the opportunity to move beyond the microwave when preparing meals this Fall.

The Wisconsin Historical Society historic site will host two Breakfast at the Inn events from 8:00 a.m. - 11:00 a.m., Saturday, September 7, and Saturday, October 12. This foodways program offers participants an opportunity to enjoy a delicious hearth-cooked meal, prepared with their own hands, in the Wade House stagecoach hotel.

"Getting to make and eat your own breakfast the way Americans did in the late 1800s is a great way to become immersed in your own history," said Alli Karrels, Wade House site director. "You get a unique perspective on the history of Wisconsin and you get a delicious meal!"

Authentic recipes from 19th-century cookbooks will be referenced as guests chop, stir, season, roast and prepare their own morning meal. Once breakfast is ready, participants gather family-style in the lovely Wade House dining room for a wonderful sit-down meal with lively

conversation.

The menu features a delectably abundant feast of New England pancakes, eggs and tomatoes, toad-in-the-hole, quick biscuits, fried potatoes, baked apples, apple cider and coffee. This satisfying encounter with Wisconsin's past concludes with everyone pitching in to clear the table, wash dishes (19th-century style) and sweep the hearth.

Due to popular demand and limited seating, advanced registration is required. Registration for the September 7 event closes Wednesday, September 4. Registration for the October 12 event closes on Wednesday, October 9.

Breakfast at the Inn pricing, which also includes access to the entire Wade House Historic Site, is \$45.00 per person. Private Breakfasts for groups of 10 to 20 may also be arranged. Reservations can be made online at wisconsinhistory.org/shop or by calling 920-526-3271. More information can also be found by visiting wadehouse.org

# Elkhart Lake Village update

## First responders host fish boil

The First Responders will again be hosting a Fish Boil fundraiser on Friday, September 20th from 4 p.m. to 8 p.m. at the Fire Station. There will also be steak sandwiches, chili, and hot dogs. Some of the activities available for kids and adults alike are: a kid's activity area, tours of the fire station, Orange Cross ambulance, fire trucks and police cars. There will also be a raffle and much more. We are always looking for donations for raffle items. If you are interested, please call 920-876-2122. Proceeds from the fish boil will go towards training equipment.

If you are unable to attend the fish boil, donations are always accepted. Please contact Kim Purkey at 952-210-1157 to see how you could help.

### Planning Commission

The Planning Commission continues working on new housing developments. The Commission has reviewed a preliminary plat for Victory Park. The Village Board has approved new "nostalgic" zoning districts and Victory Park has applied for a rezoning, which will be taken up at the Village Board meeting on September 3rd, 2019. The Village will continue to work on development agreements and move these projects forward.

### Village Facility Study & Park Plan

The Village Board has begun work on a facilities' study for Village buildings and land. There have been rumors that the Village is removing buildings. This is not the case. No decisions will be made until the Village Board has the facilities' study. The timeline for this study is scheduled to be the Spring of 2020. The Village is working to have the portion of the facilities study that deals with the Park on the Square project completed by November. All agendas and minutes, including those on this topic are posted according to Wisconsin State Statute. They are posted at the Post Office, Grashorn Civic Center, & National Exchange Bank & Trust. If you have any questions you can always contact the Village Office.

### Comprehensive Planning Survey Get in the Know – Street Repairs

While it may seem that decisions regarding street maintenance are arbitrarily made, there is actually a system in place to help Village staff and the Public Works committee of the Board of Trustees make these decisions. They use the Wisconsin Information System for Local Roads (WISLR), an internet-accessible system that helps manage local road data to improve decision-making and meet state statute requirements. WISLR is also used to report local road information (such as width, surface type, surface year, shoulder, curb, road category, functional classification, and pavement condition ratings) to WisDOT. Pavement condition ratings are used to determine which streets are most in need of repairs such as crack filling, seal coating, grind and overlay or complete reconstruction.

The next street project to be completed is E. Rhine Street from Lincoln Street west to S. Lake Street and Washington Street from E. Rhine Street south to the rail road tracks. Curb and gutter work for this project was completed last spring and now the street surface will be ground and repaved. Parking will be prohibited on these streets while the crew is working, but there will be one lane open to traffic. The project will start on September 16th and we expect it to be completed by September 27th. We ask residents and visitors to please be patient as the work is completed.

### Comprehensive Planning Update

The Comprehensive Ad-Hoc Committee has been meeting and preparing the 10-year update to the Comprehensive Plan. They have worked to update the 20-year future land use map, as well as creating four priorities for the Village for the next 10 plus years. These priorities were developed based on the community survey that was sent out in early 2019. The four priorities and the maps have been reviewed feedback has been provided by the Village Board and Planning Commission.

The four priorities are:

- Protection of Elkhart Lake
- Lake Partnerships
- Quality & Health of the Lake
- Lake Safety
- Lake Funding
- Community Housing Growth

- New Housing Developments
- Housing to Support the School
- Housing to Support Workers
- Plans to Encourage Development
- Community Economic/Commercial Growth
- Historic Charm & Creation of a Historic District
- Economic Partnerships
- Attraction of New Businesses or Growth of Existing Businesses
- Safe & Non-Motorized Transportation
- Highway 67 Path
- Paths Around the Lake Roads
- Paths to Destinations
- Other Potential Locations
- Impact of the Historic Race Circuit
- Future Funding for Non-Motorized Facilities

### Garbage Pickup Moved to Tuesday on Labor Day Week

A reminder that garbage collection will be one day later when we are celebrating a Monday Holiday. For Labor Day week garbage pickup will be on Tuesday, September 3, 2019.

### Yard Waste and Leaves

Yard waste, leaves/brush/garden debris etc. can be disposed of at the dumpster located at the Village garage from April through October. Dumpster hours are Wednesdays 2:00 p.m. to 6:00 p.m. and Saturdays 8:30 a.m. to 3:00 p.m.

### Dog Refuse Stations

There are Dog Refuse Stations located throughout the Village. Please remember to use these stations to help in the cleanup effort. The dog stations are located at:

- S. End of Walkway
- N. End of Walkway
- Near Village Square Park
- S. Lake Street near Elm St.
- Osthoff Avenue
- Lions Park
- E. Rhine St. near Charlene's
- E. Rhine St. near Two Fish Gallery

Fall will be here before you know it!

## Levy features Last Open Road during final vintage event

Author Burt Levy will be present in Elkhart Lake for the final vintage race of the season.

His book, *The Last Open Road*, is in its 10th hardcover printing. The book, used in several high school and college-level English classes, has spawned 5 award-winning sequels and has become something of a cult classic on the motorsports and collector-car scenes.

More importantly from your perspective, a large segment of the book (three

chapters) take place in Elkhart Lake during the 1952 "through-the-streets-and-countryside" road race weekend.

The book celebrated its 25th anniversary at Road America in July where Levy also debuted a really unique audiobook version at the permanent display in the Road America Paddock Shop.

Levy will be signing copies both at the racetrack and at the tour and concours events in town.

## September mystery photo

## Can you identify the photo?

Take a look at September mystery photo above. Do you know anything about it? Where was the location? What was the approximate year?

If so, let us know!

To enter the September contest, send an email or letter with as many details as you can include to the Elkhart Lake Chamber. Either drop off at our office, or email: [depotdispatch@elkhartlake.com](mailto:depotdispatch@elkhartlake.com).

The person with the best submission will receive a finely matted, quality enlarged print of the original, courtesy of Schamberger Gallery in Elkhart Lake.

The winner for the August contest was Miss Daputt, who was correct in her guess that the setting was Quit Qui Oc Golf Course. Although the guess was the 1920's, the photo actually depicts a time period in the 1940's.

## August mystery photo

## Rural Arts Roadtrip set

Abler Art Glass Gallery has organized their 7th annual Rural Arts Roadtrip event for October 11 & 12, 9-5. Embark on a self-guided road trip to bask in the fall colors on rural roads and scenic small towns. Discover local talent, shop original art, antiques, vintage and reclaimed home décor.

Meet the artists in person and watch some of them at work; watch how glass is blown, cider is pressed or dairy goat milking in action. Along the way enjoy our fine restaurants, businesses and boutiques.

Free to the public, 35 eclectic local

artists represented with: leaded, etched, enameled and hand blown glass; one of a kind jewelry; original paintings; pottery; wood; photography; garden art; hand-felted apparel; handcrafted soaps and lotions.

Savor local and organic foods that include grass-fed beef, artisan cheeses, maple syrup, jams and relish.

Stay the weekend and discover the local beauty, talent, and hospitality in our local

community.

For more information and pictures, visit the website: [www.RuralArtsRoadtrip.com](http://www.RuralArtsRoadtrip.com), Facebook: RuralArts Roadtrip, or call Bonnie @ 920-894-7391 for a brochure.
