And... How would it feel if you could wake up tomorrow morning and some. even all your pain was gone?

up tomorrow morning and some... or even all your pain was gone?
And...
Wouldn't it be wonderful to start a brand new life and leave all your pain and suffering behind?
A life where...
...you jump out of bed in the morning, well rested and ready to take on the new day, without pain...
...you don't have to take slow, limping laps around your bedroom just to be able to walk every morning...
...you can go for walks, go up and down stairs and maybe even play sports like tennis and golf again...
...you can finally do all the things and enjoy life (just like everyone else) without constant, nagging pain...
Well... that's exactly what can possibly happen to you if you spend just 60 minutes with us...
... Because that's all it will take for one of our expert doctors to show you what we believe to be the safest, and most effective knee arthritis pain treatment there is...
I know you may find this hard to believe lust about every one does when

I know you may find this hard to I know you may find this hard to believe. Just about every one does when we tell them about this... at first. But it doesn't take long for them to turn from skeptic to raving fan as soon as their pain improves so fast. Do You Have

An Open Mind?

An Open Mind?

So, I'm not asking you to believe me just yet. All I ask is you approach this and read the rest of this information with an open mind. If you give us a chance, we promise, you won't be disappointed...

Because There is Proof

Real medical proof.

Get this. A leading Orthopedic
Surgeon and knee pain expert was getting excellent results with this non-surgical treatment on his own patients. In fact, this study involved almost 2000 patients followed over 10 years. atients followed over 10 years. And more specifically, he was getting

amazing results the way HE was doing this treatment using high tech imaging for precise technique. just like we do it. And he wanted to prove... beyond a shadow of a doubt.. the results he got .. were not only REAL.. they could most likely work for others just like you. So he conducted some research, an

likely work for others just like you.

So he conducted some research, an
11 year project, and it was published in
the "Journal of Knee Surgery"... a Real
and REPUTABLE medical journal (A
copy of this research is available on our
website or by mail).

What were his results and what do
they mean for your pain?
In this study, he found that 75% of
the severe knee arthritis pain patients
he treated... and were facing knee
replacement surgery... and
were still OK 7.3 years later!

This is incredible news for you...
and here's why...
The patients in this study were Stage 4
knee arthritis. That's the most advanced
and worst stage. These are the cases that
are usually sent for knee
replacement surgery.

These serious bed also ground through

are usually sent tor knee replacement surgery.
These patients had also gone through the common medical treatments like pain and anti inflammatory pills, physical therapy etc. and all that had failed.

... these were the WORST cases of which every thing else had failed ... YET, after this treatment, 75% still did not need knee replacement even more than 7 years later

7 years later.

And it gets better. The study only collected data up to that time. It is pretty safe to say that many may never

need surgery.

Bottom line: This study clearly showed this treatment is safe and extremely effective even for even the worst cases.

So, even if you aren't one of the worst

So, even if you aren't one of the wors cases... imagine what it can do for you.

What Is This Treatment

And How Can You Find Out

If It Can Help You?

As studied as this treatment is... you may have an "Oh No!" reaction.

Why? Because there is a very good chance you have heard of it. You may

have even given it a try... and NOT gotten good results.

That's because this treatment is actually pretty common now a days.
But...and this is a very big BUT... there is a very specific way to apply this treatment (as done in the study) that makes it so successful. And many are NOT doing it this way.

makes it so successful. And many are NOT doing it this way.
So... please hear us out. This really might be the answer you are looking for.
Ok... here is the treatment and the full scoop on why it works so well... when done THIS WAY.

This way.

The treatment is called "viscosupplementation." It is frequently called, "gel treatment." Or "joint oil".

In this treatment, a gel is painlessly injected directly into you arthritic joint. This lubricates the joint, reduces friction... and allows more movement without all the inflammation and "grinding" caused by arthritis.

This is like putting oil on a rusty hinge. Once the oil is applied, the hinge can move must better.

But here is something you must

hinge. Once the one in can move must better.

But here is something you must know. In that research project, all of the procedures were done with highly advanced imaging to guide the injections and make sure the gel got into the joint space area ultra-precisely.

This is EXTREMELY important...

because... research also shows the injections done WITHOUT this

injections done WITHOUT this imaging to guide them... can miss the joint space about one third of the time. That means, in one third of the injections, the gel wasn't in the joint space and couldn't possibly work!!!

We feel this is why so many people have tried this treatment and DIDN'T get good results like in the patients in this research.

So if you have already had this.

this research.
So, if you have already had this treatment and it didn't work... was it done with this advanced medical

In not... there is still hope.
In fact, there is a very good chance
you can still get relief.
Here is why: Elk River Medical
is a medical clinic located at 2310

Thornton Taylor Parkway, Suite C Fayetteville, TN 37334.

And the clinics owner, Dr. Walter
Bennett... is an expert in this treatment..
and uses the advanced imaging to
make sure the treatments are extremely
precise and get the best results possible.
Dr. Bennett has the best
treatments and technology...
but also make everything
VEPV affordable.

but also make everything
VERY affordable
Just because he offers the best possible
treatments and technology... doesn't
mean he is so expensive only rich people
can get his wonderful treatments.
While treatments may be covered by
Medicare and some insurances... he also
offer pricine plans for as little.

Medicare and some insurances... he a offer pricing plans for as little as \$13.57 per week so patients can finally relieve their pain and try to avoid surgery. We don't want lack of insurance or money to be the reason you continue

money to be the reason you continue suffering.

Your Special Invitation... If you have knee arthritis pain... and are even just a little interested in finding out what this treatment can do for you... Dr. Bennett is inviting you to come in for a FREE screening appointment.

During this screening, you will get to talk to the doctor... ask questions... and find out if you qualify.

He will go over everything with you... and you will breathe a big sigh of relieve finally having real answers and a specific plan to possibly relieve your pain.

He will leave no stone unturned... and He will help you any way He can.

He will help you any way He can.

Please understand this: This
treatment can possibly take away

your pain...

No matter how long you've been suffering. It really doesn't matter. It may take a little more time if you've been suffering for years as opposed to a "new" case... but in the end... you can still get tremendous results...

No matter how bad or helpless you THINK your case is. May yef our

No matter how bad or helpless you THINK your case is. Many of our patients thought their case was hopeless, too far gone, for anything to help them. Many of their previous doctors told them that. Well you're NOT. With this treatment... the way our expert doctors do it...there is always hope.

Most of Dr. Bennett's patients have told him he was their last resort. Last stop before packing it in and completely giving up and submitting to surgery. They soon found out that his treatments made it really easy to get relief... and, best of all...

You Get To See If You

You Get To See If You Qualify For FREE
That's 'right. He want you to see
EVERYTHING first hand and to prove to you... without a shadow of a doubt... he has the help for your knee pain that you are desperately wanting. And he wants to do it without you spending a pennyor risking awthing to find out. penny or risking anything to find out That's why he are offering you this

free screening.

So my big question for you is – is morning... and every other morning for the rest of your life... with less pain... worth the 60 minutes it will take to

worth the 60 minutes it will take to be evaluated?

What else could you possibly do with that same 60 minutes that could have such a profound impact on the rest of you and your family's lives?

You know, it's really disappointing to me that so many people just go on living with pain when you don't have to. So many of patients told him how they used to be in pain... just about every day.

So many of patients told nim now tney used to be in pain... just about every day.

They were in so much pain... they were grumpy and miserable all the time. They hated work. Their relationships were strained. Life was just one big struggle Now that they've discovered what he will reveal to you at your free screening... all that's changed...

Work and family have become rewarding and fun. Life is so much easier and better... in so many ways... without the pain. Finally, things start falling into place the way you always thought they would.

One of the best things Dr. Bennett hears is "Hey doc since starting this program I've lost 17 pounds because now that I can finally move around pain-free the weight just keeps coming off!"

Which one of those amazing things I just mentioned would you like to
