"This program was very uplifting and I learned that the aging process can be done gracefully. I am working on a plan for the future to share with my family."

—AMP Participant

Small Steps, Big Rewards

The Aging Mastery Program®

aims to help millions of baby boomers and older adults take key steps to improve their well-being, add stability to their lives, and strengthen their ties to communities. In this program, participants take core and elective classes that combine evidence-informed materials, expert speakers, group discussions, levels of mastery and achievement, and small rewards. All of the courses are designed to provide the skills and tools needed to achieve measurable improvements in managing health, remaining economically secure, and contributing actively in society. AMP includes:

Navigating Longer Lives: The Basics of Aging Mastery

- | | |
|--------------------------------|-------------------------|
| ✓ Exercise and You | ✓ Sleep |
| ✓ Healthy Eating and Hydration | |
| ✓ Financial Fitness | ✓ Medication Management |
| ✓ Advance Planning | ✓ Healthy Relationships |
| ✓ Falls Prevention | ✓ Community Engagement |

CLASSES BEGIN IN SEPTEMBER, with a commitment to attend all 10 sessions. Due to grant funding this program is currently **FREE** but Pre-registration is required.

Recognized as Industry Role Model

American Rock Salt Company LLC

has been honored by the National Association of State Land Reclamationists (NASLR) for excellence in community outreach and innovation in addressing the challenges of mining.

The NASLR is presenting American Rock Salt with its 2019 Outreach Award. This award goes to organizations that serve as outstanding role models for the industry.

American Rock Salt operates the largest salt mine in the United States in a rural area south of Rochester, New York. The mine has capacity to produce about 18,000 tons of de-icing salt a day for use by state and local highway departments in clearing winter roads.

Recognizing the prominence of its operation, as well as concerns about mining in general, American Rock Salt has engaged in an extensive outreach program involving schools, libraries, museums and other community organizations in the region.

"American Rock Salt is committed to transparency and openness. We have gone to great lengths to provide community members and regulators with a view into how we do business and to educate them about the history and importance of mining," said Joseph Bucci Sr, Co-CEO & Vice Chair of Production & Operations, American Rock Salt.

"Receiving this honor reflects how far we've come in meeting this commitment. It is a total team effort, but we're not resting on our laurels. We will continue to build bridges through open and honest communication and outstanding environmental stewardship."

The award recognizes American Rock Salt for a variety of outreach programs, including financial donations to charities and local universities; delivering or sponsoring lectures to geology students; providing internships or other learning opportunities and delivering talks to museums and other institutions about mining history and its environmental impact. American Rock Salt will receive its award at the NASLR annual conference in Pittsburgh on September 9.

The award covers outreach activities related to the newly approved Hampton Corners Salt Mine, an expansion of the company's current mining operations in Livingston County.

Upon its founding in 1997, American Rock Salt became the first successful new salt mine to open in the United States since 1960.

The National Association of Land Reclamationists was formed in 1972 to promote research, innovative technology and professional development to foster superior restoration of land and waters affected by mining.

White Water Rafting on the River in Letchworth Park!! **ON US!!**

The Village Baptist Church & Adventure
Calls Rafting invite Dads/Moms and their
kids to come river rafting September 28th
with us for **FREE***

National Preparedness Month

**Free
Training!**

Citizen Preparedness Corps

With severe weather events becoming more frequent and more extreme, it is more important than ever that New Yorkers are prepared for disasters.

The NY Citizen Preparedness Training Program

teaches residents to have the tools and resources available to prepare for any type of disaster, respond accordingly, and recover as quickly as possible to pre-disaster conditions.

This training course will provide an introduction to responding to a natural or man-made disaster. Participants will understand how to properly prepare for any disaster, and will include developing a family emergency plan and stocking up on emergency supplies.

Each family participating will receive a free Citizen Preparedness Corps Response Starter Kit.

ATTENTION FARMERS IN LIVINGSTON COUNTY

The Livingston County Board of Supervisors has designated the month of September as the thirty-day period for submission of petitions by landowners for inclusion of land that is highly suitable for a commercial farm operation into an existing Agricultural District.

If you would like to have your land included in an existing Agricultural District, please submit your written request, along with the tax map identification number and a description of the farming activities on the land, to the Livingston County Planning Department, 6 Court Street – Room 305, Geneseo, NY, 14454 by September 30, 2019.

Petitions cannot be accepted for removal of parcels from an Agricultural District.

Questions can be directed to the County Planning Department at **(585) 243-7550** or **(585) 335-1734**.

Morris Ridge Solar Energy Center

Livingston County, New York

NOTICE OF SUBMISSION OF PROPOSED STIPULATIONS

Morris Ridge Solar Energy Center, LLC, an indirect subsidiary of EDF Renewables, Inc. (MRSEC or Applicant), is proposing to construct a major solar electric generating facility of up to 177 megawatts (MW) alternating current (AC) in capacity in the Town of Mount Morris, Livingston County, New York. To construct the Facility, the Applicant must obtain a Certificate of Environmental Compatibility and Public Need (CECPN) from the New York State Board on Electric Generating Siting and the Environment (Siting Board) pursuant to Article 10 of the Public Service Law and the Siting Board's rules (16 NYCRR Part 1000). Under Article 10, an applicant may enter into stipulations, which are agreements with any interested person, agency or municipality, as to any aspect of the methodology or scope of study, or program of studies, made or to be made to support an application under Article 10. The Article 10 regulations, 16 NYCRR §1000.5(j)(3), require that, before any proposed stipulations may be executed by the interested parties, the public must be given notice and afforded a reasonable opportunity to submit comments on the proposed stipulations.

On April 1, 2019 MRSEC, filed its Preliminary Scoping Statement (PSS) for the Morris Ridge Solar Energy Center. Several comments were received and MRSEC filed its responses on May 13, 2019. A procedural conference was held on May 15, 2019, at which time MRSEC expressed its intent to commence stipulation negotiations. At that time, it was explained how MRSEC proposed to revise the PSS to incorporate comments received from parties participating in stipulation negotiations.

A Notice of Commencement of Stipulation Negotiations was filed with the Siting Board on May 16, 2019. Shortly thereafter, MRSEC circulated to parties indicating an interest in negotiating stipulations a revised, redlined version of the PSS (hereinafter the Revised Scoping Statement or RSS). The RSS reflected the comments received from the parties and public on the PSS, as well as additional comments received during the stipulations' discussions.

Parties' comments that were not initially resolved in the RSS were discussed with the parties participating in stipulations in order to reach agreement on the scope. The RSS was again revised and currently reflects additional written comments from the parties, as well as comments made during teleconference calls and meetings with agency Staff. The proposals contained therein now represent the full scope of all studies, investigations and content that the Applicant will provide to satisfy the requirements of Section 164(1) of the Public Service Law in this proceeding.

PLEASE TAKE NOTICE that, on or about September 10, 2019 MRSEC will, pursuant to 16 NYCRR 1000.5, file in the Article 10 proceeding (Case 18-F-0440) the RSS, which contains the full scope and methodology of studies to be conducted in support of the Application, as well as proposed stipulations. The stipulations will attest that each signatory agrees that the RSS contains the full scope of all studies, investigations and content that the Applicant will provide to satisfy the requirements of Section 164(1) of the Public Service Law in this proceeding. The filing of the stipulations and RSS will start a 30-day public comment period whereby anyone may comment on those documents before the stipulations are executed by the interested parties.

The Facility is proposed to include: rows of photovoltaic (PV) solar panels, no more than 12 feet in height and arranged in discrete subarrays dispersed throughout the Facility site; associated electrical collection lines, inverters and medium-voltage transformers; and may include approximately 50 MW of energy storage capacity, fencing, access roads and an Operations and Maintenance building. The Facility would deliver electricity to the New York State power grid via a short (less than 1,000 feet) transmission line connecting the project substation to a point of interconnection substation along the South Perry-Meyers 230-kV electrical transmission line, which bisects the Facility site and which is currently owned by the New York State Electric and Gas Corporation. More information on the proposed Facility can be found on the Siting Board's website under Case 18-F-0440, on the project's dedicated website (www.morrisridgesolar.com), and at the local document repositories listed at the end of this notice.

This notice is to serve as a summary of the contents of the proposed RSS and stipulations agreed to between the Applicant and the New York State Department of Environmental Conservation, New York State Department of Public Service, the New York State Department of Agriculture and Markets, the Town of Mt. Morris, and the Livingston County Planning Department pursuant to 16 NYCRR 1000.5(j)(2). Within 30 days after the filing of the proposed stipulations, any person, agency or municipality may submit comments by serving such comments on the Applicant's designated representative (Kevin Campbell - NewYorkSolar@edf-re.com) and filing a copy with the Secretary of the Public Service Commission (Hon. Kathleen H. Burgess at secretary@dps.ny.gov). All comments should specify, on the first page, "Case 18-F-0440, Morris Ridge Solar Energy Center, Comments on Proposed Stipulations."

The proposed RSS provides a comprehensive and detailed description of the proposed contents of the Article 10 Application and generally tracks the exhibits required to be included pursuant to 16 NYCRR 1001.1. The parties signing the stipulations will be agreeing that the studies outlined in the RSS constitute all the necessary studies concerning the subject matter of the stipulations and that the Applicant will not be requested by the parties signing the stipulations to provide additional studies, except as otherwise provided for in the stipulations.

Any party that executes a pre-application stipulation may not raise objections at the Application hearing as to the methodology or scope of any study or program of studies performed in compliance with the RSS and stipulations. Any other party may timely raise objections at the hearing as to the methodology or scope of any study or program of studies performed.

The proposed RSS includes but is not limited to: the scope and types of studies to be conducted, the content and analysis to be supplied with each exhibit and/or study, the types of maps, drawings or explanations to be provided, the methodologies to be used in performing studies, the data to be collected and compared in studies, impact avoidance and mitigation measures, the type and extent of agency consultations needed before submitting the Application and the information required to be provided in the Application in compliance with the regulations. The proposed stipulations provide for agreements on the scope of studies to be performed and the information to be contained in the Application including but not limited to studies and information regarding potential: environmental and health impacts from construction and operation of the Facility; noise and vibration impacts; geological impacts; impacts to land use; public health and safety; terrestrial ecology; water resources and aquatic ecology impacts including wetlands and streams; communications, transportation and utility impacts; cultural and historical and recreational resource impacts; visual impacts; and electric system impacts. The proposed stipulations provide for agreements on all of the exhibits required under Article 10.

The Applicant intends to submit an Article 10 Application by the end of 2019 in order to achieve critical milestones for the Facility. Building on the Scoping process and the RSS agreed to by the parties that have signed the stipulations, the Application will include the studies developed as part of the Scoping process in support of the Facility.

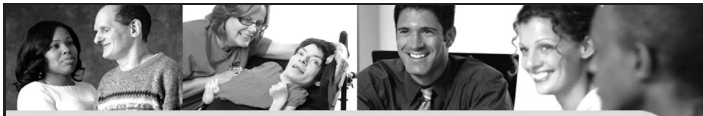

Once an Application is filed and determined by the Chair of the Siting Board to be complete, the Siting Board will schedule a public hearing on the Application. The Siting Board will also issue a notice of availability of application intervenor funds that are available to be used by eligible municipal and local parties to participate in formal review of the Application. A pre-hearing conference will be scheduled by the Hearing Examiners to identify parties, award intervenor funds, identify issues for the hearing, and establish a case schedule. Additional hearings regarding the application and facility impact assessments will be scheduled by the Hearing Examiners as needed. With some exceptions, Article 10 requires that all proceedings on the Application, including a final decision by the Siting Board must be completed within 12 months of when the Application is determined to be complete.

All public documents filed in this proceeding, including the proposed stipulations, may be accessed electronically at the DPS website at (<http://www.dps.ny.gov/>). To access documents, go to "Search" and enter the Case Number 18-F-0440 or the direct link: (<http://documents.dps.ny.gov/public/MatterManagement/CaseMaster.aspx?MatterCaseNo=18-F-0440&submit=Search>) or by going to the Facility-specific website maintained by the Applicant: (<https://www.edf-re.com/project/morris-ridge-solar-project/>).

Documents may also be examined during normal business hours at the Offices of the DPS at Three Empire State Plaza, Albany, NY 12223, and may also be viewed at the following public repositories: Mount Morris Town Office, 103 Main Street, Mount Morris, NY 14510; Mount Morris Public Library, 121 Main Street, Mount Morris, NY 14510; Nunda Town Hall, 4 Massachusetts Street, Nunda, NY 14517; and Bell Memorial Library, 16 East Street, Nunda, NY 14517.

WE ARE HIRING **MAINTENANCE MECHANICS** IN BATAVIA, NY

Company Overview

For more than 170 years, the name Hood® has been synonymous with fresh, quality dairy products that taste great. Founded in 1846 in Charlestown, Massachusetts by Harvey Perley Hood, the company has since extended its New England roots, and today Hood is a national company distributing dairy products throughout the United States. In fact, HP Hood LLC is now one of the country's largest branded food and beverage companies with 13 manufacturing plants throughout the United States. The company also maintains its own research and development operation, which supports the superior product quality and innovation that Hood customers have come to expect.

What We Are Looking For

Highly motivated, dependable and ability to work both in a team and independently, the Maintenance Mechanics are responsible for the preventative maintenance, repair, installation of equipment, systems and utilities in a timely and cost-efficient manner.

Why work for Hood?

- **Maintenance Techs receive \$1000 Sign on Bonus!**
- Onsite Gym
- On the job training
- Competitive pay and benefits
- 401k Match
- Gradual pay increases and shift differentials
- Well known and respected company with quality products i.e. ice cream, milk, juice, dips, etc.
- We care about our employees, animals, environment and communities

Essential Duties and Responsibilities:

- Understands the functionality of equipment.
- Troubleshooting and knowledge in hydraulics, pneumatics, pumps, mechanical maintenance, motors, control circuits, power supplies, basic AC&DC theory, and power distribution.
- Ability to use hand tools including, lathes, drill presses, saws, welding equipment, calibration equipment, etc. to troubleshoot mechanical issues.
- Performs necessary repairs or preventative maintenance on all industrial equipment.
- Ensures safe operational practices for self and other operators.
- Promotes SQF by maintaining food safety and food quality through completing job tasks and maintaining the work area in a sanitary manner.

Education and Experience:

- GED or High School Diploma with at least 2+ years experience in industrial maintenance.
- Experience within PLC's and Ammonia Refrigeration preferred.
- Ability to pass background, drug screen and post offer employment test (POET)

A TESTIMONY ABOUT A PHYSICAL HEALING

We met Joe near Penn Yan.

In talking with him, we discovered that he'd been diagnosed with brain cancer. Joe was very anxious about how his family would get along when he wasn't here any longer. Joe agreed to let us pray with him.

The following week, the oncologist told Joe the cancer was miraculously gone. God had performed a miracle for Joe!

**God is no respecter of persons.
Give us a call and we will come and
pray for you. 585-319-6471**
