**SHERIFFS WEEK – SEPTEMBER 22-28, 2019**

NYS Sheriffs' Association and Sheriff Randy Bower are announcing the week of Sept. 22 through Sept. 28, 2019 as "Sheriffs Week" in New York.

Today's Sheriffs are proud of the rich history of their office. It is one of the oldest institutions in America, dating back to Biblical times. The modern office of Sheriff in the United States descends from a one-thousand-year-old English tradition: a "shire-reeve" (shire-keeper) is the oldest appointment of the English crown. Because county governments were typically the first established units of government in newly settled American territories, Sheriffs were among the first elected public officials in an area and thus developed a leading role in local law enforcement.

Most Sheriffs are elected every four years. It is this election process that makes the Office of Sheriff unique to all of law enforcement. These elections make most of the 3,085 county Sheriffs throughout the United States directly accountable to the people they serve.

**A Sheriff's Office for the People**

We represent the highest order of law enforcement in Orleans County and answer directly to the people. The Orleans County Sheriff's Department strives...

- To serve and protect the citizens of Orleans County
- To provide a safe and secure jail, providing necessary treatment to better prepare inmates to reenter society
- To be visible and accessible
- To maintain peace and order in Orleans County
- To provide professional public safety dispatching
- To properly receive and execute all legal and civil processes referred to the Office of the Sheriff
- To deliver effective law enforcement services to all citizens of Orleans County
- To support and defend the constitution of the United States of America
- Activities scheduled for Sheriffs week:
- Lunch with a Deputy Sheriff and students at all county elementary schools.
- Village and town park clean up detail by the inmates of the Orleans County Jail.

*Sheriff Randy Bower*

**THE LAW AND YOU**

**BY NATHAN D. PACE**  
ATTORNEY AT LAW

**A MATTER OF WILL**

Depending on which survey you take into account the percentage of Americans without wills ranges from 55% to 64%. It should also be pointed out that, even though a fair portion of people might have a will in place, they have failed to update it in recent years to fully reflect their current circumstances. In any case, whether you have an outdated will or no will at all, you are leaving many important matters for courts to decide. These concerns often transcend finances, as a will can establish guardianship for surviving children, rather than leaving the decision to the courts. Even younger adults should recognize that, while death may wait on a far horizon, it is important to establish a legacy.

Estate planning is a smart step for everyone, regardless of income, wealth or the size of your estate. I help individuals and families craft estate plans that suit their needs and provide stability and security for the future. To schedule a free consultation, please call the Law Office of MACK & PACE at (585)798-1000. We emphasize living wills and trusts, mortgages and foreclosures, small business, powers of attorney, probate and estate law, and vehicle and traffic law.

# Tips on how to write CLASSIFIED ADS that sell!

- 1 USE A KEY WORD.** This immediately tells the reader exactly what you have to sell.
- 2 Make your description CLEAR AND FACTUAL.** State the year, make, model, color & size and tell what condition the item is in. Also, state the special features.
- 3 STATE THE PRICE.** Successful classified advertisers have learned that the price in an ad helps increase the chances for results.
- 4 IF THERE IS A GENUINE SENSE OF URGENCY,** say so. The words "We're moving," or "Must sell fast," suggest that readers respond immediately.
- 5 INCLUDE YOUR PHONE NUMBER.** Classifieds get results fast and often generate immediate sales. If you cannot be available to answer the phone at all times, be sure to specify special calling times such as "after 9pm" or "before 11am."

**Medina's new school resource officer connecting with students, staff**

Posted 25 September 2019 on www.OrleansHub.com • Press Release, Medina Central School

MEDINA – There is a new school resource officer in the Medina Central School District and he is already making an impact on the students. Police Officer Stephen Gross has been busy acquainting himself with staff and students.

"I am really excited about being here," Gross said. "I love getting out and being in the community and working with the kids has been very rewarding and I am enjoying getting to know them all. As far as the school district is concerned, safety is their priority and I felt ready to step into that role and I am excited about that."

Joe Byrne, a social studies teacher, asked Officer Gross to come to Byrne's 8th grade classes and talk to the students.

"I wanted to give him a chance for the students to become more familiar with him and show off his impressive knowledge of school district law," Byrne said. "Today we are talking about how we balance civil rights in our society with school safety. I think it is very important that they know their civil rights as students, but also the concerns that we, the government, have for school safety."

The students talked about such cases as Tinker v. Des Moines that cemented students' rights to free speech in public schools. New Jersey v. T.L.O concerns 4th Amendment rights against unreasonable searches and seizures. In Ingraham v. Wright, the U.S. Supreme Court ruled that corporal punishment in public schools did not violate constitutional rights. In Kent v. United States, it was determined that juvenile offenders are entitled to the same amount of due process of law as adults while under the jurisdiction of a juvenile court.

The class had some interesting opinions on the various cases as Officer Gross talked about them and discussed how they would relate to what happens in their school. There was also time for students to get a little more personal and ask him about his gear, role in the school and the community.

"My number one goal is to help students to be less afraid of police and to make sure that you get home safe every day," he told them. Byrne said he is very grateful for the time that Officer Gross spent in his class.

"He had a training in New Jersey the day before and made sure to get back here to talk to my students," Byrne said. "I think it was a great way for them to feel more comfortable with him and incorporate some of the lessons we are learning in class."

**Breanda Johnson**, Varsity Volleyball (12th grade): Bre led the girls to a 5 set win against Newfane on 9/ 12. She had a record setting 12 aces, 26 assists, 8 digs and 2 kills. She was selected to the all-tournament team at the Albion Tip-Off Tournament.

**Charley London**, JV Soccer (10th grade): Charley has been a dominant defender this soccer season. Her work ethic is outstanding as she leads by example setting the tone for her team during practices and games. As a leader, her coaches and teammates respect how she encourages and challenges her team in positive and constructive ways. She scored a goal on a direct kick during an early season tournament game, and she has been the backbone of a defense that has only allowed 4 goals to be scored through 6 games!

**Claire Squicciarini**, 11th grade, Varsity Soccer: Claire is a junior midfielder/forward. Claire has played a key role as her team has started the season with a record of 4-2. Claire has scored four goals and earned three assists. Claire puts constant pressure on the opponents, wins the ball and initiates our attacks. Her extraordinary work ethic affects everyone on the team. She encourages her teammates, always demonstrates excellent sportsmanship and exemplifies our team motto "I've Got Your Back."

**Chris Shabazz**, 11th grade, Varsity Football: Chris has played very well for the varsity football team in their first two weeks. In week two, Chris made his presence known to the offense of Springville. Late in the 2nd quarter Chris picked off a pass and with the help of his teammates, ran it all the way back to the end zone. This was Chris's 2nd pick of the year and also 2nd pick six of the year.

## Medina native's company wins \$1 million in state's clean energy contest

Orleans Hub staff reports • Posted 25 September 2019 on www.OrleansHub.com

BINGHAMTON – A Medina native's company, which turns used vegetable oil and restaurant grease into fuel for trucks, is the \$1 million winner of a renewable energy contest.

Gov. Andrew Cuomo announced that Optimus Technologies, based in Pittsburgh, PA, won the grand prize in the annual 76West Clean Energy Competition, one of the largest contests in the country that supports growing clean energy businesses to foster economic development.

Optimus Technologies was created by Colin Huwyler, a 2002 Medina graduate. The company designs and manufactures biodiesel fuel systems for medium and heavy-duty diesel trucks to operate on up to 100 percent biodiesel, thereby reducing fuel costs and greenhouse gas emissions by more than 80 percent.

Huwyler, 34, a son of Bobbi Huwyler of Medina and Monte Huwyler, is founder of Optimus Technologies in Pittsburgh, the market leader in development of biodiesel conversion systems for medium and heavy duty trucks. Huwyler has four patents on his technology, with several more pending. (Click here to see a previous Orleans Hub article on Huwyler.)

A total of \$2.5 million was competitively awarded to six innovative companies at today's awards ceremony at Binghamton University where Lieutenant Governor Kathy Hochul announced the winners. Besides the \$1 million for Optimus Technologies, the state recognized a \$500,000 winner and four \$250,000 winners. The competition is administered by the New York State Energy Research and Development Authority.

In this year's 76West competition, NYSEDA received 169 applications representing 14 countries and 21 states. Of these, 18 semifinalists were chosen and participated in a two-day pitch session this summer at Binghamton University. Judges then recommended the top six winners.

As a condition of the award, companies must either move to the Southern Tier or establish a direct connection with the Southern Tier economy, such as a supply chain partnership, job development with Southern Tier companies or other strategic relationships with Southern Tier entities that help spur economic development and create jobs. For companies already located in the Southern Tier, they must commit to substantially growing their business and employment in the region.

# Health Forum Spreads Misinformation

By Padma Kasthurirangan

An anti-wind forum called “Health Impacts of Industrial Wind” was held at ECC’s North Campus on Tuesday. “Ghosts of Wind Turbines past” would have been a more apt title to the event.

As an engineer and wind installer, I have not experienced any of the “wind turbine syndrome” personally while working on, in, near or around a wind turbine of any size. I also work with and for people who live in excellent wind sites and have or potentially want to host utility scale wind turbines on their land that don’t seem to have problems with wind farms.

Nevertheless, I have heard my share of the usual complaints – noise, shadow flicker, safety concerns, bird/bat impacts – and some more unusual complaints – like clothes not drying on the line or more cabbage smell in the air. I have also worked with National Labs and participated in various efforts by the wind industry to proactively identify issues and come up with mitigation measures where warranted.

I have learned that all of the legitimate claims can be addressed by responsible siting and ethical engineering practices. The anti-wind industry seems to have learned that, too. So they have changed their rhetoric – they’re now going with “you can’t hear the noise, but you can feel the presence of them” and the effects claimed range from squint-eye to appendicitis.

If I had a bag of popcorn and a plush throw, I would have sworn I spent Tuesday afternoon watching a Stephen King movie. The “ex-

perts” invited touted their lengthy presentations filled with graphs from past decades rife with wrong data and vague numbers like “several,” or “non-trivial number,” which is just code for absence of real data.

The environmental attorney’s brief on transmission capacities was just outdated and his 35 dBA sound level recommendation for rural New York essentially outlaws one of the state’s biggest industries – farming.

The one resident “impacted by wind turbines” I stayed to hear related genuinely scary sounding health issues. However, she also stated that these symptoms started as soon as the developer first approached the town regarding the project. Considering the yearslong permitting and construction times of projects in New York, I do hope that she would go to a real doctor ASAP and address the symptoms rather than chalk it up to the voodoo magic of energy generators.

It is saddening and aggravating to hear elected public officials use public money and a place of education to formally spread misinformation.

I urge everyone to visit the U.S. Department of Energy’s Wind Energy Technologies Office webpage for real information.

• **FIRST WEEK OF OCTOBER** •

**ARIES – Mar 21/Apr 20**

A hectic few weeks find you looking forward to some time off, Aries. You may have to finish some complicated tasks first to free up moments for relaxation.

**LIBRA – Sept 23/Oct 23**

It is sometimes good to look at the world through rose-colored glasses, Libra. However, do not let this cloud reality to the point that you do not see the truth.

**TAURUS – Apr 21/May 21**

Taurus, this week, feelings that have been simmering just under the surface come to light. Clear the air and you'll discover everything was just miscommunication.

**SCORPIO – Oct 24/Nov 22**

You are so busy with various activities that it is impossible to be bored for the next several days, Scorpio. You may be able to eke out a little time to recharge if you delegate.

**GEMINI – May 22/June 21**

There's more going on with friends than meets the eye, Gemini. Do not rush to think something negative is going on. Keep an open mind and you could be surprised.

**SAGITTARIUS – Nov 23/Dec 21**

Sagittarius, new friends come into your life this week. It's an exciting opportunity to get to know new faces. You can benefit from expanding your social network.

**CANCER – Jun 22/Jul 22**

Temporary responsibilities at work have you feeling a tad overwhelmed, Cancer. This project was put in your hands, so you will have to see it through to the end.

**CAPRICORN – Dec 22/Jan 20**

Avoid a knee-jerk reaction to a stressful situation, Capricorn. You may find that not all stress is bad; some can spur you to accomplish things you never imagined.

**LEO – Jul 23/Aug 23**

Talk things through with a close friend before you swing into action, Leo. Sometimes it is better to have a springboard for ideas to see if things are truly feasible.

**AQUARIUS – Jan 21/Feb 18**

Aquarius, miscommunication can be a tough hurdle to clear. Make a greater effort to communicate effectively in the coming days and weeks.

**VIRGO – Aug 24/Sept 22**

Virgo, you may be having doubts about just where the future will bring you. But you don't have to be looking too far ahead for the time being. Focus on the here and now.

**PISCES – Feb 19/Mar 20**

Make family your top priority this week, Pisces. Everything else can take a back seat for the time being. There will be time to get everything done.

## GENUINE PEOPLE, REAL PRICES

Andrea S. ★★★★★

The customer service was awesome! Each of my questions was answered completely and quickly. Even after the purchase when I needed assistance, the response email came within the hour. I would most definitely consider buying my next vehicle from Orleans Ford and I would recommend it to others

Nick G. ★★★★★

Every time I am in Orleans Ford I am treated well. They always get my car ready to be serviced at my scheduled appointment time and they make every attempt to be quick since I wait for my car. I feel it is worth the 45 minute drive to Orleans Ford for service rather than going to the Ford service center that is only 10 minutes from my house

Josiah's Journey ★★★★★

Honest. Passing through from IL when I heard a noise coming from the rear. They could have told me anything; I was at their complete mercy. They were honest and worked with me to do only what was necessary to get me back on the road. Reasonably priced, knowledgeable service. There was a parts mix-up that caused a bit of a delay, but they worked to get it resolved.
