**PREGNANT?**

Are you pregnant or thinking of becoming pregnant? If you are, the Livingston County Department of Health would like to remind you of the importance of prenatal care. Prenatal care is crucial to your baby's development. Please remember to see your health care provider regularly, take at least 400 micrograms of folic acid before and throughout your pregnancy, eat healthy meals including fruits and vegetables, and if you smoke, drink, or do drugs, STOP! Your baby eats, drinks, and inhales everything that you do. If you have any questions or concerns please contact your health care provider or call the Livingston County Department of Health at 243-7299.

## Prenatal Care is Crucial

One of the most critical factors in ensuring a healthy pregnancy for a woman and her baby is early prenatal care. Prenatal care means health care during your pregnancy, before your baby is born. Prenatal care is important to ensure that problems and treatments can be administered as soon as possible.

If you are planning a pregnancy or are already pregnant, here are some ways to take care of yourself and your baby:

- Eat healthy foods consisting of fruits, vegetables, and whole grains.
- Exercise regularly. About 30 minutes a day is recommended. Studies have shown that women who exercise regularly have an easier time recovering from childbirth.
- Take at least 400 micrograms of folic acid every day. Folic acid will help to prevent certain birth defects.
- See your health care provider for a check-up as soon as you become pregnant. Your health care provider will then set up a schedule of visits throughout your pregnancy and may suggest prenatal vitamins if you are not already taking them.
- Do not smoke, drink alcohol, or take drugs. When you inhale, or ingest these things, your baby does as well. Babies can have slow development and may be born prematurely from these toxins.
- Protect yourself and your baby. Talk with your health care provider about getting your flu and Tdap (pertussis) shots during your pregnancy.

By following these steps both the mother and baby can have a healthy beginning. Livingston County Department of Health has services for women who are thinking of becoming pregnant and who are pregnant. For more information on prenatal care or women's health, please contact your health care provider or the Livingston County Department of Health at 585-243-7299 or visit our website at [www.livingstoncounty.us/doh.htm](http://www.livingstoncounty.us/doh.htm).

## Healing Rooms on the Genesee

It has been right at 2 years since a Healing Room started in Mount Morris.

During that period we have prayed for dozens of people who have been touched by the Lord. We have but one purpose: to pray for those who need God's touch of love and healing.

Right before Jesus left the earth, He told His followers, in Mark 16:18, to go out and pray for the sick and they would see the sick recover. We follow Jesus' instructions.

**Give Us A Call. We'd Love To Come Pray For You.**

We will pray for you in a safe and confidential manner.
