Health Forum Spreads Misinformation

By Padma Kasthurirangan

An anti-wind forum called “Health Impacts of Industrial Wind” was held at ECC’s North Campus on Tuesday. “Ghosts of Wind Turbines past” would have been a more apt title to the event.

As an engineer and wind installer, I have not experienced any of the “wind turbine syndrome” personally while working on, in, near or around a wind turbine of any size. I also work with and for people who live in excellent wind sites and have or potentially want to host utility scale wind turbines on their land that don’t seem to have problems with wind farms.

Nevertheless, I have heard my share of the usual complaints – noise, shadow flicker, safety concerns, bird/bat impacts – and some more unusual complaints – like clothes not drying on the line or more cabbage smell in the air. I have also worked with National Labs and participated in various efforts by the wind industry to proactively identify issues and come up with mitigation measures where warranted.

I have learned that all of the legitimate claims can be addressed by responsible siting and ethical engineering practices. The anti-wind industry seems to have learned that, too. So they have changed their rhetoric – they’re now going with “you can’t hear the noise, but you can feel the presence of them” and the effects claimed range from squint-eye to appendicitis.

If I had a bag of popcorn and a plush throw, I would have sworn I spent Tuesday afternoon watching a Stephen King movie. The “ex-

perts” invited touted their lengthy presentations filled with graphs from past decades rife with wrong data and vague numbers like “several,” or “non-trivial number,” which is just code for absence of real data.

The environmental attorney’s brief on transmission capacities was just outdated and his 35 dBA sound level recommendation for rural New York essentially outlaws one of the state’s biggest industries – farming.

The one resident “impacted by wind turbines” I stayed to hear related genuinely scary sounding health issues. However, she also stated that these symptoms started as soon as the developer first approached the town regarding the project. Considering the yearslong permitting and construction times of projects in New York, I do hope that she would go to a real doctor ASAP and address the symptoms rather than chalk it up to the voodoo magic of energy generators.

It is saddening and aggravating to hear elected public officials use public money and a place of education to formally spread misinformation.

I urge everyone to visit the U.S. Department of Energy’s Wind Energy Technologies Office webpage for real information.

Padma Kasthurirangan is an engineer and partner at Buffalo Renewables, which installs wind and solar power systems.

Tips on how to write CLASSIFIED ADS that sell!

- USE A KEY WORD.** This immediately tells the reader exactly what you have to sell.
- Make your description CLEAR AND FACTUAL.** State the year, make, model, color & size and tell what condition the item is in. Also, state the special features.
- STATE THE PRICE.** Successful classified advertisers have learned that the price in an ad helps increase the chances for results.
- IF THERE IS A GENUINE SENSE OF URGENCY,** say so. The words "We're moving," or "Must sell fast," suggest that readers respond immediately.
- INCLUDE YOUR PHONE NUMBER.** Classifieds get results fast and often generate immediate sales. If you cannot be available to answer the phone at all times, be sure to specify special calling times such as "after 9pm" or "before 11am."

Ed Grabowski, attorney for the estate of Mariann R. Holcomb, presented a check at the Medina Central School District's Board of Education meeting on Sept. 26 in the amount of \$35,274.86. The new scholarship will be given in Mrs. Holcomb's name.

THE LAW AND YOU

BY NATHAN D. PACE ATTORNEY AT LAW

A MATTER OF DOING BUSINESS

If you own a business, you have likely factored in a number of expenses justified as "the cost of doing business." If so, you also probably realize there are a number of things beyond your control that can make it difficult for your work to go smoothly. The fact is that suppliers or consumers can sue you for breach of contract, or other companies or individuals may file suit over infringement of their intellectual property rights. Customers may also claim they have suffered harm when using the company's product or as a result of a product defect, while employees may claim discrimination, violations of wage-and-hour laws, or <https://www.bc-llp.com/news-media/wrongful-termination/wrongful-termination>. In these and other instances, you will need legal help.

As a business owner, understanding your liabilities and obtaining the necessary small business insurance policies is critical. After all, a single lawsuit can potentially close a small business for good. To schedule a consultation, please call the **Law Office of MACK & PACE at (585)798-1000.** Our areas of specialization include small business, living wills and trusts, mortgages and foreclosures, powers of attorney, probate and estate law, and vehicle and traffic law.

Great Gift for Any Angler!

LOST STREAM MAP

The STREAM & LAKE MAP OF NEW YORK resembles another map-- known to Pennsylvania anglers as the "Lost Stream Map."

It was completed in 1965 after a 30 year effort by Howard Higbee, a former Penn State Professor.

Professor Higbee painstakingly plotted by hand, the location of 45,000 miles of streams onto the map. It sold extremely well - until the printer declared bankruptcy and hauled Higbee's work to the landfill.

But reprints were impossible because the maps were printed in non-photographic blue. Higbee was even offered \$400 for one of his last maps. And state agencies were forced to keep their copies under lock and key.

Then, at the age of 91, Howard Higbee's dream came true. Computers made it possible to reprint the map.

Then the STREAM & LAKE MAP OF NEW YORK was created.

Stream & Lake Map of New York

Why every angler and boater needs this map

Professor Higbee's Stream & Lake Map of New York is the first and only highly detailed map of its kind. The 3.5-foot-by-4.5-foot New York map shows 65,000 miles of streams plus lakes.

For a limited time -- get 3 bonuses with each map

BONUS #1 **GUIDEBOOK:** Pinpoint the best fishing in New York with this valuable guide. Easily locate over 3,000 streams and 1,200 lakes shown on the "Stream & Lake Map." Your map guide will take you to the top 1,123 select water for 19 species of gamefish.

BONUS #2 **REPORT: Finding Secret Fishing Spots** 47 tips, tactics and tools you can use to find your own secret spot and catch more fish.

BONUS #3 **REPORT: How Anglers Stalk and Catch Record Fish** The average big fish has evaded capture for over 10 years. Find out which instincts set them apart from smaller fish. Stalking and catching a trophy requires knowledge of their unique habits and those special times when their guard is down. Armed with the information in this new and exclusive 24-page report--you could be in for the fight of your life.

RAVE REVIEWS

"It is in showing where to find out-of-the-way trout streams that makes the map such a treasure to the fisherman."

—Joe Gordon, TRIBUNE-DEMOCRAT, Johnstown, PA

"I have one of the original Higbee's Stream Map of Pennsylvania on my wall behind my desk. It's the best thing available as far as streams are concerned. I use it all the time for reference. I don't know of anything more extensive and it is the most accurate map out there as far as streams are concerned."
—Dave Wolf, PA Fish and Boat Commission

DOT plans \$15 million project to upgrade Main Street lift bridge in Albion
 By Tom Rivers, Editor Posted 30 September 2019 on www.OrleansHub.com

ALBION – The Main Street lift bridge in Albion is slated for \$15 million in repairs and construction work beginning in 2022, with the project keeping the bridge closed for 18 months until 2023. The state Department of Transportation will discuss the project during a public information meeting on Oct. 17 from 3:30 to 5:30 p.m. at the Hoag Library, 134 South Main St.

The bridge was originally built in 1914. It typically closes a few days each year for short-term repairs. It is one of 16 lift bridges on the Erie Canal, and one of seven in Orleans County.

The DOT said the work includes installing high-strength galvanized steel to replace the steel floor system and select truss members. Updates will also be made to the mechanical and electrical components of the lifting mechanisms. The lift tower will also be rehabilitated. In addition, the bridge railing and guide rail on the bridge approaches will be improved and bridge will be repainted. The DOT will have the project done the same time contractors work on the lift bridge on Route 19 in Brockport.

“Due to the unique work required, there are cost savings associated with combining lift bridge rehabilitations,” the DOT said in an advisory. The DOT anticipates the design for the Albion bridge will be completed in June 2021, with construction expected in 2022 and 2023.

Photo by Tom Rivers: Cyclists are pictured on July 8 by the Main Street lift bridge as part of the annual Cycle the Erie Canal trip.

Kendall dedicates war memorial, an effort led by 4 Boy Scouts

Photos By Tom Rivers, Orleans Hub Editor Posted 29 September 2019 on www.OrleansHub.com

KENDALL – The Kendall community dedicated the new war memorial at the community park on Sept 5. 29, a project that was spearheaded by four Boy Scouts.

The four scouts – Jayden Pieniaszek, Noah Rath, Brian Shaw and Ryan Barrett – join local veterans for a group photo at the new Kendall War Memorial, which the Scouts worked on together for their Eagle Scout community service project. The Scouts first presented the plan to the Kendall Board of Education about a year ago. The plan quickly gained momentum in the community and was complete within a year of that initial meeting.

The 39-foot-long brick wall features granite plaques highlighting the American Revolution, the Civil War, World War I, World War II, the Korean War, Vietnam War, the Persian Gulf War and the War on Terror. Alternating the granite plaques are concrete medallions representing the five branches of the military.

Three flag poles stand tall behind the brick wall. The center American flag pole is 35 feet high, with two 30-foot flag poles representing the State of New York and Orleans County standing on either side. The memorial is respectfully lit from dusk to dawn.

Black granite engraved bricks border the memorial sidewalk in honor of veterans who are currently serving, who have served, who have paid the ultimate sacrifice, or in appreciation of all veterans. Those bricks were sold for \$100 each. The centerpiece of the memorial is a black granite stone that previously stood in front of the Kendall Town Hall and was dedicated to Kendall residents who have served.

The Scouts remove the cover on a bench by the memorial. The bench includes a quote by Joseph Campbell: "A hero is someone who has given his or her life to something bigger than oneself."

County Highway Department to become a Department of Public Works

By Tom Rivers, Editor Posted 2 October 2019 on www.OrleansHub.com

ALBION – The Orleans County Highway Department, which includes the Buildings and Grounds Department, will have its name dissolved and will become a Department of Public Works. The County Legislature will have a public hearing on the change at 4:20 p.m. on Nov. 20. The county needs to adopt a local law to change the name of the department.

The proposal also includes changing the title of the highway superintendent to the superintendent of the Department of Public Works.

The Highway Department and Building and Grounds used to be separate with their own department heads. About a decade ago the Buildings and Grounds was moved to be under the Highway Department, under the direction of the highway superintendent.

The Legislature appointed a new highway superintendent on March 27, following the retirement of Jerry Gray. John Papponetti, the new highway leader, has suggested the Highway and Buildings and Grounds become a Department of Public Works.

That is how the highway staffs are known in the local villages. The towns in Orleans County all call them "Highway Departments." With the town highway departments, the superintendents are all elected. The DPW leaders are all appointed by the Village Boards. At the county level, the position is made by appointment of the County Legislature.

Former Medina Teacher Leaves Legacy for Scholarship Fund

Medina High School will begin to give out a new scholarship this year in honor of a former teacher. Ed Grabowski, attorney for the estate of Mariann R. Holcomb, presented a check at the Medina Central School District's Board of Education meeting on Sept. 26. It was in the amount of \$35,274.86, for a scholarship in Mrs. Holcomb's name.

Mariann R. Davies-Holcomb, former Business teacher at Medina High School, passed away on January 17, 2018. Mrs. Holcomb taught Keyboarding, Business Communications, Personal Typing, Business Math, Office Practice, Recordkeeping, Introduction to Occupations, Business Law and Business Dynamics from 1974 until her retirement in 1997. As part of her estate, she left money to fund a scholarship to be awarded annually to a deserving Medina graduate business student(s) to further their education.

The Medina Central School District is honored and appreciative of this generous gift.

(LtoR), Ed Grabowski - Attorney, Arlene Pawlacyk - Board of Education President, Mark Kruzynski, the Superintendent of Medina Central School District.

Don't buy into Apex's talk of community benefits **WITHOUT** also considering the **COSTS** of those benefits – costs in the form of:

- Reduced property values
- Negative health impacts brought on by shadow flicker, infrasound, noise and sleep deprivation
- Decimating the bird population of eagles and songbirds
- Increased agricultural pests and mosquitos due to the mass killing of bats
- Pitting neighbor against neighbor
- The permanent scarring of the landscape by turning fields, pastures and woodlots into industrial sites with 650-foot wind turbines

Check out what people are saying about Bidleman Chevrolet in the Google Reviews...

Myrna M. ★★★★★

Brad Shelp was amazing! He took the time to go over everything with me. I appreciated that very much. He even helped me set up OnStar, and set up my phone to the car (as I have never done that before). Truly, all of his years of experience stand out. He is a treasure to be valued, respected, and learned from. An old school Gentleman, that is honest and fair. Travis was a wonderful finance person to deal with too, everyone was kind, lovely. No pressure!! Thank you!

Scott K. ★★★★★

Our salesman, Dennis was very patient with us while we looked at many different options to find something that met our needs/budget. He is very knowledgeable about the Chevy products, and explained the options and equipment very well.

Charles R. ★★★★★

Looked online for 2 weeks educating myself on which trucks suited me best. I learned enough to become a salesman for any truck maker. Everytime I looked online I found myself back at Bidleman. No one within 100 miles compared to the pricing. I visited 4 major dealers and 2 private sellers and yet again I ended up at Bidleman. It was well worth the ride out to Albion and I couldn't be happier about the sales and service teams, specifically Steve Bagley, sales consultant and Jeremy DeMarco, finance manager. I believe the service tech's name was John and he was extremely helpful with his knowledge and pointers regarding my new pride and joy, a 2016 Silverado 1500 custom. If I haven't convinced you as a customer looking for a super sweet deal and honest, compassionate care, then take the beautiful, scenic ride out to Bidleman and see for yourself. You won't be disappointed. Thank you again Bidleman Chevrolet Buick GMC! I look forward to doing business in the future for myself, family and friends. Happy truckin'!
