CITY OF ALMA

Yard Waste Pickup/Leaf Collection 2019

The City's FINAL round of yard waste pickup, city wide, for 2019 will be the week of October 21st thru October 25th. Residents should plan to have any yard waste out at the curb before their regular pickup day that week. Yard waste placed out after that day will not be picked up.

City crews will begin the annual fall leaf collection on Monday, October 28, 2019. The leaf pickup program provides leaf collection throughout the City, twice, and proceeds through the City in a clockwise direction. Residents should rake their leaves to the edge of the roadway **prior** to the days scheduled for their neighborhood. Leaves should not be raked into the traveled portion of the roadway or onto sidewalks.

The City will follow the schedule as shown below; however, delays may result should excessive rain or snowy days occur. The leaf collection map can also be viewed on the City's website www.myalma.org. Please call 989-463-8339 or 989-463-8346 if you have any questions. Thank you!

FALL CAR CARE

Fall Driving Tips

Fall driving can be unpredictable because of weather changes and the end of daylight saving time. To be safe and aware on the roads this fall, follow these guidelines:

Watch out for leaves

Once leaves become wet, they can present slippery and dangerous driving conditions. Be sure to watch for patches of wet leaves on the road or on road lines. Dry leaves can also present a problem to your vehicle. Avoid parking your vehicle near leaf piles to prevent fires that could start from your vehicle's catalytic converter.

Plan ahead for wet conditions

Fall often brings rainfall, which can decrease visibility and cause hydroplaning. Make sure your windshield wipers are in good working condition. If driving on a road with excess water, slow down and avoid sudden movements with the steering wheel or brake pedal. If you feel like you're floating, steer straight and gently release the gas pedal until you feel the tires make contact with the road surface. In an especially heavy downpour you may want to pull off the road until it's safe to continue.

Low beams in the fog

When driving in fog, high beams will reflect off the fog, creating a "white wall" effect, so set your headlight to low beam. This setting aims the beam of light down toward the roadway. Also reduce your speed and watch your speedometer. Fog creates a visual illusion of slow motion when you may actually be speeding. If fog becomes really thick use your road markers to guide you and help you to stay in your lane.
