A Local Doctor's Sister Did Something To Change Her Life But Sadly It Was Too Late

You see, my sister lost her fight on Dec. 9th, 2017 at the young age of 54, after being sick for years. She is probably one of the few people who was taken off of life support, to live an additional 37 months. She was a fighter; she did not want to leave her family

athletic injuries, just to name a few.

Here's what some of my patients had to say, Dr. Mike has been helping me with my low back pain and headaches for over nine years." (Larry Luttrell)

"I did have a lot of leg pain due to a pinched nerve. Not any more thanks to Dr. Mike." (Leonard McPeters)

Being a chiropractor can be tough. because there's a host of so-called experts out there. They tell people a lot of things

leg to correct your health. You are going to write a check to someone for your health care expenses, you may as well write one for a lesser amount for chiropractic. When you bring in this article by Nov. 17th, 2019, you will receive my entire initial visit, the whole ball of wax for \$37 out of pocket. And, further care is very affordable. You see, I'm not trying to seduce you to come see me with this low start up fee, then to only make it up with high fees after that. Further care is very important to consider when making your choice of doctor. High cost can add up very quickly.

Great care at a great fee ... Please, I hope that there's no misunderstanding about quality of care just because I have a lower exam fee. You'll get great care, at a great fee. My qualifications ... I'm a 1991 graduate of Life University. I'm certified by the National Boards as well as the states of Alabama and Tennessee, I've practiced in Alabama for 26 years after a one-year associateship in Huntsville. I just have that low exam fee to help more people who need care. Results may vary in individual cases. My assistant is Sandy and she is a really great person. Our office is both friendly and warm and we try our best to make you feel at home. We have a wonderful service, at an exceptional fee. Our office is called **ELLIS CHIROPRACTIC CENTER** and it is at 916 Main Street, Hanceville. Our number is **1-256-352-1252**. Call Sandy or me today for an appointment. We can help you. Thank you.

-Michael Ellis, D.C.

Please do not call between 12:00 and 2:00 p.m.

P.S. When accompanied by the first. I am also offering the second family member this same examination for only \$20.

P.P.S. Can you imagine not having to wait at a doctor's office? Well, your time is as valuable as mine. That's why we have a no-wait policy. You will be seen within minutes of your appointment.

You benefit from an Amazing Offer - Look, it shouldn't cost you an arm and a

It's not fun seeing a loved one on a feeding tube for over a year and weighing 64 lbs., or to see her airlifted to Vanderbilt five or six times. She slept with our Mom the last few years of her life because she was afraid of dying alone.

With the help of our Mom and a new doctor she was able to wean off of the pills, but it was too late. At least she didn't sleep through Christmas dinner, like in the past. If you are in pain try the more conservative route first. If you or a loved one are addicted, seek help before you are like my sister, spending all of her time these days at Loretto Memorial Garden.

Now for Emma, who is the little girl in the photo. She was plagued by asthma when she was younger. Each day as I changed her diaper, I would give her an adjustment. The asthma started to improve immediately, and now she is virtually symptom free.

My son Nicholas. has recently been having some headaches. He'll come up to me and say, "Daddy, adjust my neck." And even before he gets up he'll say, "man that feels a lot better, it's all gone."

It's strange how life is, because now people come to see me with their carpal tunnel syndrome problems. Also they come to me with their headaches, migraines, chronic pain, neck pain, shoulder/arm pain, whiplash from car accidents, backaches, ear infections, asthma, allergies, numbness in limbs,

Pediatrician

Cullman Regional welcomes Dr. Ketchum to the Cullman Regional Medical Staff. A graduate of Lincoln Memorial University — DeBusk College of Osteopathic Medicine in Harroage, TN, she completed her post-doctoral training at the University of South Florida. Dr. Ketchum will manage the health of children, including physical, behavioral and mental health issues. She joins the practice of Internal Medicine & Pediatrics of Cullman.

"I'm excited to bring our family to Cullman and to become a part of the community. I look forward to using the insight I have gained as a new parent to help me provide even better pediatric care to the children of the Cullman area."

PHARMACY TOPICS
 by Rex Smith
 Hospital Discount CENTRAL

Pictured L-R: Vanessa Patton, Becky Cook, Becky Burks and Rex Smith, RPh

Newborns with vitamin D deficiency have an increased risk of schizophrenia later in life, according to a recent study published in Scientific Reports. The study found that newborns with vitamin D deficiency had a 44 per cent increased risk of being diagnosed with schizophrenia as adults, compared to those with normal Vitamin D levels. Schizophrenia is a group of poorly understood brain disorders characterized by symptoms such as hallucinations, delusions and cognitive impairment.

As physicians attempt to decrease antipsychotic use in seniors with dementia, they need to be aware that trazadone, frequently used as an alternative, is associated with a similar risk of falls and major fractures as atypical antipsychotics, according to new research in Canadian Medical Association Journal.

With the aim of preventing birth defects, most American doctors recommend that women start taking prenatal vitamins before trying to conceive to make sure folic acid, iron, calcium and other nutritional levels are adequate. Most prenatal vitamins contain 400 international units (IU) (10 micrograms) of vitamin D per tablet. The federal government has not set a recommended daily intake of vitamin D, though many agree the dietary intake of the vitamin should increase with age. The Institute of Medicine of The National Academies recommends that females 1 to 70 years old consume 600 IU (15 micrograms) or vitamin D daily, regardless of their pregnancy status. The group sets tolerable maximum levels at 4,000 IU (100 micrograms) for pregnant and non-pregnant women who are 19 and older.
