RIGHT TO PETITION

ABOLISH SALES TAX ON WATER

The first Amendment to the U.S. Constitution guarantees the American people the right to petition the Government for a redress of grievances.

This petition hopes to remedy or set right this undesirable and unfair situation of taxing drinking water.

ABOLISH SALES TAX ON WATER

You read that right . . .

If you buy water in a store, you pay sales tax like it's a luxury . . . water is necessary and essential in the body's processes of digestion, circulation, elimination, and the regulation of body temperature.

Human beings can live for a few weeks without food, but not without water. Unlike food, the maximum time an individual can go without water seems to be about a week.

You need about 2 quarts or more of water per day. This intake can be as beverages we drink or water in food we eat . . . for example, a tomato is about 95% water.

The average person takes in about 16,000 gallons of water in his or her lifetime.

Your body is about 65% water. If the body loses 20% of its normal water content, excruciating and painful death may occur.

Please take a moment to make a moment and embrace reality . . .

Author unknown.

In the Bible Genesis 1:1-3 seems to indicate that water was created before light and time.

To be delivered to Governor Andrew Cuomo, the N.Y. State House and the New York Senate.

Please sign below and mail the petition to: Petition, c/o Mount Morris Shopper, P.O. Box 129, 85 Main Street, Mount Morris 14510; Or deposit in Drop box at Mount Morris Shopper; or click the link below and sign the petition online.

- **Saturday, 11/23 at 9:00 am, Room T121**

Effective Workplace Investigations: What Every Employer Needs to Know

Every employer must be prepared to conduct fair and impartial investigations into employee complaints and allegations of misconduct. This responsibility includes carefully examining the facts and circumstances, thoughtfully considering the evidence, and reaching reasonable conclusions. The results of poorly conducted workplace investigations—which can be devastating to the individuals involved as well as the company—often include: continued workplace misconduct; retaliation; formal complaints against the employer filed with the Equal Employment Opportunity Commission (EEOC), lawsuits; and even personal liability for management, HR, and anyone conducting investigations. This course will include a review of the laws, regulations, and employer obligations related to workplace investigations, as well as a discussion of the importance of following a consistent and thorough workplace complaint investigation process. Participants will have an opportunity to develop a complaint response plan, investigation plan and timeline, and interview questions, and work through a mock investigation.

Objectives:

1. A better understanding of the laws, regulations, and obligations related to workplace investigations
2. Internal vs. external workplace investigations, and when each may be appropriate
3. Developing a complaint response plan and basic investigation plan
4. How to conduct an effective workplace investigation
5. The importance of reaching a conclusion with every investigation

Enhance Images – Photoshop for Photographers

Now that you have captured that digital image, what can you do with it? This workshop will cover basic digital workflow to process your digital files, to enhance them and improve the image quality. Using basic Adobe Photoshop as a guide, you will learn how to improve an image by retouching, using Levels to do global enhancement, Curves to make specific adjustments, Non-Destructive Sharpening, entering Metadata and keywords and saving in various file formats to use for basic output to the web and print. Please bring your digital camera with media card (with photos). Topics discussed in class will be applied to assignments shot outside of class as homework and experiences will be reviewed. Bring: Digital Camera, Media Card and a USB flash-drive or external jump-drive. Upon completion of this course, students will:

1. Understand digital workflow management.
2. Understand basic digital bitmap editing software.
3. Understand key wording & metadata.
4. Understand basic archiving methods.

Fee \$79 • GCC Batavia Campus, B207 Mac Lab
Wednesdays, 10/30, 11/6 & 11/13 • 6:00-8:00 pm

Enrich your life or reach your professional goals – anytime, anywhere... it's just a click away!

Course Categories:

- Business and Professional
- Healthcare and Fitness
- IT and Software Development
- Management and Corporate
- Media and Design
- Hospitality and Gaming
- Skilled Trades and Industrial

Features:

- Facilitators and mentors are available to answer questions and help you through your studies
- Career Counselors will help you prepare for the transition from the classroom to the workplace
- Courses are all open-enrollment and self-paced
- No additional charges - all materials, workbooks and software are included in the course fee
- Payment plans available
- 6 - 18 Month Format

Livingston County's 2021 Bicentennial:
Volunteers Needed to Narrate Upcoming Video

Geneseo, NY, October 21, 2019 – Formed in 1821, Livingston County will be celebrating its Bicentennial in 2021. Multiple county-wide events will be held as this milestone draws near. The second event, entitled “Local History Out Loud – Part Two: The History of Livingston County from the Civil War to the Industrial Revolution”, involves the creation of a historical video by the Livingston County Historian's Office.

The Historian's Office is searching for volunteers to narrate portions of the video.

For more information or to sign up as a volunteer, please contact Amie Alden, Livingston County Historian, at 585-243-7955 or historian@co.livingston.ny.us.

In addition, the Historian's Office is currently displaying a historical map exhibit that includes maps from 1779 through the early 20th century. All are encouraged to visit the exhibit at the Livingston County Government Center, 6 Court Street, Geneseo, NY 14454 to find homes and property owners' names, churches, schools, Indian reservations, and more!

We all know that it can be difficult to fit physical activity into our busy lifestyles.

Physical activity allows us to maintain a healthy lifestyle and reduce the risk of many preventable diseases. The advantages of physical activity include:

1. Reduction of blood pressure, or the risk of developing high blood pressure.
2. Reduction of body weight.
3. Reduction of cholesterol or risk of developing high cholesterol.
4. Reduces the risk of diabetes, cancer and heart disease.

For more information, contact the Livingston County Health Department at 243-7299.

Sickle Cell Disease Awareness

What You Need To Know

Mount Morris, NY, October, 2019 – Sickle Cell Disease (SCD) is the most common hereditary disorder that affects over 70,000 Americans, predominantly people of African, Middle Eastern, Grecian, Indian, and Latin American descent. Sickle Cell Disease causes red blood cells to become hard and sticky and look like a C-shaped farm tool called a "sickle." Sickle cells die early, which causes a constant shortage of red blood cells. Also, when the cells travel through small blood vessels, they get stuck and clog blood flow. This can cause pain and other serious problems. SCD is inherited and is present at birth when a child receives two sickle cell genes—one from each parent. Therefore, a child can only have SCD when both of his/her parents have at least one abnormal gene.

People with SCD start to have signs of the disease during the first year of life (usually around 5 months of age). Complications of SCD can include:

- Swelling in the hands and feet
- Pain Episodes that range from very mild to severe
- Anemia caused by not having enough red blood cells to carry oxygen
- Infections
- Vision Loss
- Leg Ulcers
- Stroke

The only cure for SCD is a bone marrow or stem cell transplant. These transplants take healthy cells from the blood of one person (a donor who is usually a relative) and puts them into someone whose cells are not working properly. Other treatments can include maintaining adequate water consumption, medications for pain and often times blood transfusions. Blood transfusions can relieve the pain and complications that can occur during a sickle cell episode.

For more information about Sickle Cell Disease and where it is most prevalent, please visit the Centers for Disease Control and Prevention at <https://www.cdc.gov/ncbddd/sicklecell/index.html> or contact the Livingston County Department of Health at 585-243-7299.

Happy Halloween

This is NOT a contest, just a Halloween Fun Page for all ages!

GOD TOOK JASON'S SEVERE PAIN AWAY

Jason was walking toward us with his head tilted to one side in a very abnormal way. He told us his neck and shoulder had been in very severe pain for about 3 weeks. Pain meds were not working. The pain made his job harder because he had to lift heavy loads over his head. Jason rated the pain at a 9 out of 10, with 10 being the worst possible.

We laid hands on him and prayed for him according to Mark 16:18. The Lord touched Jason immediately and completely. Three weeks later his neck and shoulder were still completely pain free and felt wonderful. No more pain at home or at work. THANK-YOU JESUS!

We want to bring God's love and power into your need for physical healing. Give us a call and we'll come and pay for you.

Rehabilitation

Graduation Ceremony for Certified Nurse Aides

On October 11, 2019, a graduation ceremony was held for 13 students who completed the Certified Nurse Aide (CNA) Program at the Livingston County Center for Nursing and Rehabilitation (CNR). The program is currently administered through Finger Lakes Community College (FLCC).

The CNA Program has been in existence since 2007 and is offered twice per year – once in the spring and once in the fall – for interested students. It is a five-week, full-time program that offers a mix of classroom education and hands-on clinical experience. Recruitment for the spring semester will begin in January 2020. The starting class size for the CNA Program is commonly 16 - 20 students each semester.

Stephen Woodruff, Director of Long Term Care at CNR, said, "We are truly grateful for our strong partnership with FLCC. Our continued collaboration with the college has led to a successful program that is gaining in popularity among students." Woodruff added, "Because of the increased demand, we are considering the addition of a third class each year, which would allow more students to come through the program."

Multiple sources of funding – including grant funds through the Livingston County Office of Workforce Development – allow students to enroll in the CNA Program for free.

"The healthcare field is thriving," said John Jaeger, Employment Counselor at the Livingston County Office of Workforce Development. "For those who are genuinely interested in building a solid career in the nursing profession or other health-related field, CNA training provides the perfect opportunity to get a foot in the door."

For more information on the CNA Program, please contact the Livingston County Office of Workforce Development at 585-243-7047.
