SMART PRODUCTS

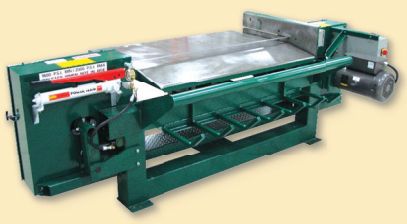
Is Your Answer! For Pallet Lumber Recovery and Repair Solutions.

"The Difference is Engineering"

Leasing & Financing Alternatives Available

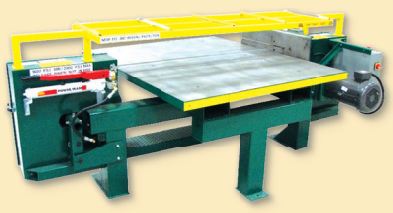
Dismantlers

One-Man Dismantler



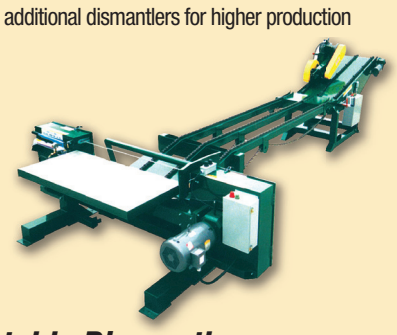
- 52" or 64" capacity
- 10 HP, 3-phase, electric motor standard (2200 FPM blade speed) (single phase available)
- Optional 15 HP, 3-phase (4400 FPM blade speed) electric motor available
- 18 HP gas-powered electric start on Portable Dismantler
- Gear reduction drive
- Self-contained hydraulic blade tensioning
- Low maintenance durable blade guide bearings
- Push button operated table height adjustment

Two-Man Dismantler

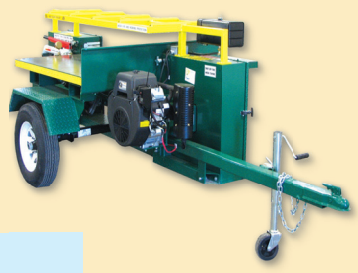


Pallet Dismantler System

- 64" capacity **Front Discharge** Dismantler
- Linear accumulating conveyor feeds boards easily to operator of Inclined Power Trim Saw
- Add additional dismantlers for higher production



Portable Dismantler



Notchers

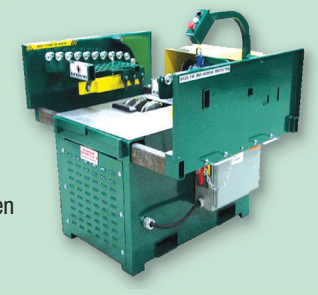
Double Head Notcher

open *closed*

- Two, 20 HP, three (3) phase, electric motors with V-belt driven indexable notching cutterheads
- One-person operation/1,000 double notched stringers per hour
- Notches new or recycled lumber
- 48" to 96" stringer capacity standard
- 9" x 1-1/2" notches, with 18" between notches
- Quick set-up
- Continuous power feed system
- Self exhaust design (useful when notching recycled material)

Single Head Notcher

- 20 HP, three (3) phase, electric motors with V-belt driven indexable notching cutterhead
- One-man operation/500 double notched stringers per hour
- Notches new or recycled lumber
- 72" stringer capacity standard
- Quick set-up
- Continuous power feed system
- Self exhaust design (useful when notching recycled material)



Pallet Prep

- Commonly referred to as the "SmartSaw"
- Smart Saw is **multifunctional:** designed for repair (1 person) or recycling (2 person) operations of BLOCK or GMA/STRINGER pallets
- Standard 10 HP, 3-phase, electric motor with gear reduction drive
- 20' standard **M42 bi-meta**l band saw blade
- Air actuated, 3-position, roller table and table extension easily positions pallet for board removal
- Machine provided with **advanced safety measures** in place, including interlock switches for perimeter guarding and cabinet doors
- Improved **canopy guarding**, with front and rear portions that move up and down with the roller table
- Specifically designed to QUICKLY (as a **1-person** operation) cut out damaged boards, including **top and bottom** deck boards, as well as **connector** and **stringer** boards
- Also designed, as a **2-person** operation, to process the disassembly / tear-down of block or stringer pallets for INCREASED LUMBER RECOVERY. For block style machine, includes a specially designed **Block Recovery Tool** (or BRT) that **salvages blocks** now being scrapped with other machines and processes

Double End Power Feed Trim Saw

Trim Saws

Single End Power Feed Trim Saw

- Power Feed Trim Saws trim boards 2" thick from 18"- 60" in length on the single end, and 18"- 66" in length on the double end
- Inclined board feed and overhead saw design help eliminate board kickback
- Manual Trim Saw handles boards up to 6" thick and 6" wide
- 18" diameter nail resistant saw blades and 10 HP motors
- Heavy duty steel tube construction
- Multiple adjustable board stops on Single End and on Manual Feed Trim Saws
- Easy blade change
- Easily moved with built-in fork lift pockets
- Right saw head on double end easily adjusts to cut desired board length

Manual Feed Trim Saw

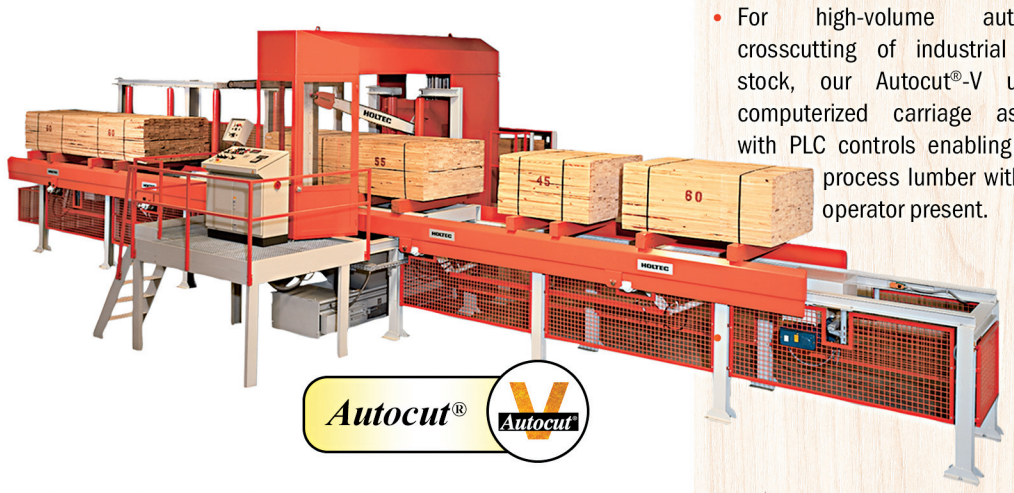
Every machine we build is backed by the pallet industry's most trusted and respected reputation. You can count on us being here long after the others are gone.

TO MAKE EVERY DOLLAR COUNT– YOU HAVE TO MAKE EVERY CUT COUNT

Selecut® with **Inline Squeeze**

- For prime lumber cut to length or Precision End Trimming needs, our Selecut®-V uses a Fixed Frame Assembly with a moveable cutting platform to meet your production needs in a limited space environment and is available with our Inline Power-Squeeze Package Alignment system.

Transcut® II Station
from **$26,999***



Autocut®

- For high-volume automated crosscutting of industrial length stock, our Autocut®-V uses a computerized carriage assembly with PLC controls enabling you to process lumber without an operator present.

Transcut® II Portable
from **$7,999***

- For custom manufacturers, our Transcut® II Station will cleanly cut through a unit of hardwood or softwood in less than a minute using generic chain-saw chain and with a precision of +/- 1/16th" or better*.
- For simple crosscutting of EWP or lumber, our versatile Transcut® Portable saws are priced and designed to offer a significantly safer and faster alternative to hand-held chain saws.

We're proud of the fact that HOLTEC pioneered the concept of precise package cutting over 40 years ago. Today our industry's technological and manufacturing advances have enabled us to achieve the fastest cut in the industry and an unmatched precision on every cut. So, if you're considering investing in a package-crosscut saw, consider these facts*:

- At 55 seconds per cut HOLTEC systems cut up to twice as fast as other systems available today;
- With our own team of dedicated Field Technicians and service vehicles, HOLTEC is the only company that provides you a service response time of 24 hours or less on-site and on-time;
- Our state of the art Germany manufacturing facilities are ISO-9001 certified, ensuring that you're getting the highest quality manufacturing standards available today;
- With an unmatched precision of +/- 1mm (.040"), HOLTEC systems exceed precision-end-trim tolerances;
- HOLTEC systems are designed with the highest safety standards in the world, ensuring that your employees are working in the safest environment for package-crosscutting available today;
- HOLTEC has almost 2,000 systems in North America and over 8,000 systems delivered worldwide, ensuring that we'll be here for you in the future as we have been for the last 40 years

WE ENSURE EVERY DOLLAR COUNTS BY ENSURING EVERY CUT COUNTS

SIMONDS INTERNATIONAL

PUTTING THE COMPETITIVE EDGE IN YOUR HANDS.

Every operation needs an edge. And you'll get one with Simonds **PreSharp™** blades. Backed by the industry's best service, you'll experience superior blade performance with our unique square-faced edge for faster feed rates and a smooth, clean cut.

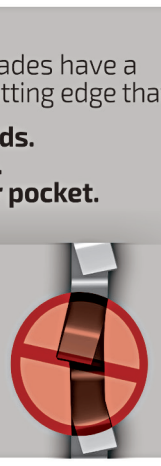
Invest in your operation, and gain the competitive edge. Choose the blades that outperform the rest.

PRESHARP

Simonds **PreSharp™** blades have a unique, square-faced cutting edge that:

- **Delivers cleaner boards.**
- **Increases production.**
- **Puts more $$$ in your pocket.**

Conventional blades channel dust to the side of the blade, increasing dust spillage.



Digital Tension Gauge for Bandsaw Blades

Know your machine's optimum number and hit it!

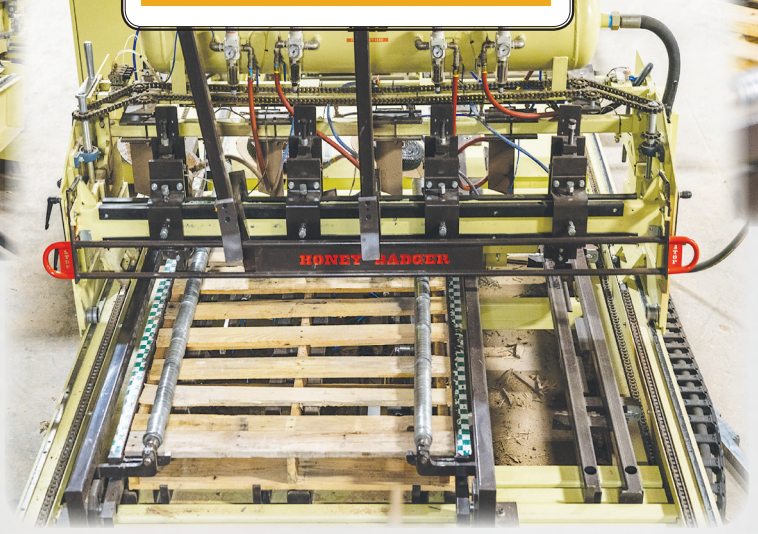
The Honey Badger HB 100 Recycle Pallet Machine Assembles Any Size or Grade Material—No Set up!

It's All About Versatility. The Honey Badger Produces...

Recycled Pallets • #2 Pallets • Reman Pallets • Combo Pallets



THE HONEY BADGER
• PALLET MACHINE •
BY VIPER INDUSTRIAL PRODUCTS

Many nailing machines require standard material with tight tolerances.
The Honey Badger effectively nails:

- ☑ RANDOM WIDTH BOARDS
- ☑ RANDOM THICKNESS DECK
- ☑ RANDOM HEIGHT/WIDTH STRINGERS
- ☑ #2 LUMBER
- ☑ WAYNEY LUMBER
- ☑ ALMOST ANY DEGREE OF RECYCLED MATERIAL

Lumber Sorting is No Problem! Our unique hold down system lets the operator use 4", 6" 8" or full decks in any configuration—without changing setup.

SAVE ON LABOR COSTS!

The Honey Badger can produce 1 pallet per minute with 1 operator.
That's up to 400 pallets per shift — a great return on your investment!

Need a solution to build combo pallets but don't want to wait a year or more for delivery?

Northern Michigan Land Auction

690 Acres ~ 3 Locations ~ Timber ~ Wildlife

At Absolute Auction!

Free refreshments for onsite bidders!

November 6th at 6:00 PM

Sellers: Paul and Linda Yoder

Directions: Auction to be held at Crown Choice Inn 722 S Huron Ave Mackinaw City MI 49701.

See brightstarauctions.com for online bidding or much more info...

Property 1

Address: 6621 Friedrick Road
Millersburg MI 49759

230 Acres of mostly flat and gently-rolling timberland

This property has lots of young hardwoods, cover for wildlife, and secluded potential building spots! It has clearings that could be superb for developing food plots if a hunting paradise is in your dreams! Good trails would lend themselves well to ATVs, horseback riding, and hiking. The property also appears to be surrounded by public land which could provide hundreds of miles of additional trails!

Less than 2 miles from Lake Huron!

Fifteen minute shoreline drive from the beautiful lakeside town of Rogers City.

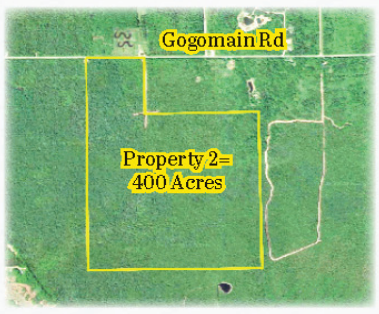
Property 2

Tremendous timber!

Address: 5998 E Gogomain Road
Pickford MI 49774

400 Acres of Timber

It has not been harvested in many years and had timber valued at $350,000 in 2007!



This is a unique property! With plenty of wildlife from deer, bear, to lots of small game and located right on the main road (Gogomain) it has thick cover for wildlife that includes lots of quality white cedar and pines as well as some mixed hardwoods.

Property 3

No minimums, no reserves!

60 Acres

On this land you will find beautiful rolling hills with plenty of good building sites. If you are looking for a getaway cabin site, hunting camp or to build your remote dream home in the UP this could be for you. It is remote enough to get away from it all yet just minutes from the beautiful up north town of Marquette MI. This property has so much to offer: hunting, plenty of deer sign, small game, and even bear and wolves and maybe an occasional moose! Mostly hardwoods that were recently thinned with some mature pines mixed in. It just a short drive (1/2 mile) from the spectacular remote "Dead River Storage Basin" lake where there is amazing Walleye, Northern Pike, Bass fishing and more. Also just minutes from Lake Superior! Must see to appreciate.

From Marquette MI, take CR 510 northwest 11 miles to County Road GGT. Left on GGT 3 miles (follow curves, GGT eventually turns south) to Willow Creek Road. (There should be a sign at this intersection.) Left on Willow Creek Road half mile to a trail that goes right. Follow trail to the right 3/4 mile to property.

GPS coordinates of property are:
46.609551, -87.678704

Auctioneer's Note: Tremendous opportunity! This land sells with no minimum and no reserve! Be sure to attend or bid online as these properties have all kinds of potential.

Online bidding available!

Open House: Public is welcome to walk the land during daylight hours.

Terms: 5% of purchase price down evening of auction (nonrefundable). Balance at closing in approximately 45 days. Ten percent buyer's premium will be added to the winning bid to determine purchase price. Your bidding is not contingent on financing, so be sure you have arranged financing if needed.

Auctioneer's Note: This firewood processing business is currently supplying 800 chain stores as well as selling 250 semi loads per year through brokers. It is extremely profitable. It is located in the Midwest and the real estate is available for purchase or lease. However, the business could be moved anywhere. It will be listed for sale as an entire business with current accounts until sold or until January 4th 2020. If not sold before then, it is scheduled for a liquidation auction in March of 2020.

Entire, running firewood business!

Serious inquiries only. Interested parties will be required to sign a non-disclosure agreement before being privy to details.

Bobcat 5750 skid steer, 8000 hours, runs good

Timber jack 330 Knuckleboom, Cummins 5.9 diesel, 6578 hours, very good condition

46' Tandem axle trailer, 2008, road ready, nice trailer

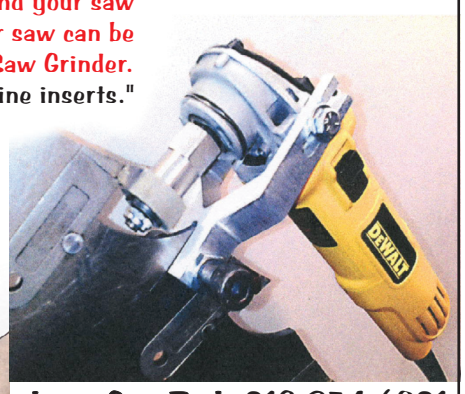
Jones Slasher/Cut-off Saw Grinder

ITCO Model SX33D
AC or Air Drive $425

Save big money on teeth, down time and saw repair.
Don't wait until dull teeth force you to send your saw in for costly repairs and tensioning. Your saw can be sharpened several times with the SX33 Saw Grinder.
"It pays for itself on the first set of carbine inserts."

Sharpens from front or rear of tooth.



Jones Saw Tools 812-354-6981

PRE-SEASON DISCOUNT SPECIAL! CALL TODAY - SAVE MONEY!

Self-Dumping EZ-Load Hopper for Firewood and Mulch

Load Firewood or Mulch quickly and reduce the risk of damaging your customers vehicle using Iron Bull's EZ-Load Hopper

With the new EZ-Load Hopper, almost any operator can load a pickup without sending firewood pieces flying. Also great for loading mulch. Model shown holds 2 cu. yds. of mulch or a face cord of firewood. Larger sizes available.

Operate without leaving the seat! Different sizes available.

Gentle loading: The operator controls how fast the drop bottom doors open as the hopper is raised.

Loading complete: All action is controlled from the operator's seat. No flying pieces of wood. Faster, easier and safer. No damage, no complaints.

Also available with fork attachment option

"We really like Iron Bull's EZ-Load Hopper for loading firewood. It does it better and gentler than a front end loader."
Jac Siemens, Southeast Pallet and Wood Products, Blumenort, Manitoba Canada

"Our customers are impressed."

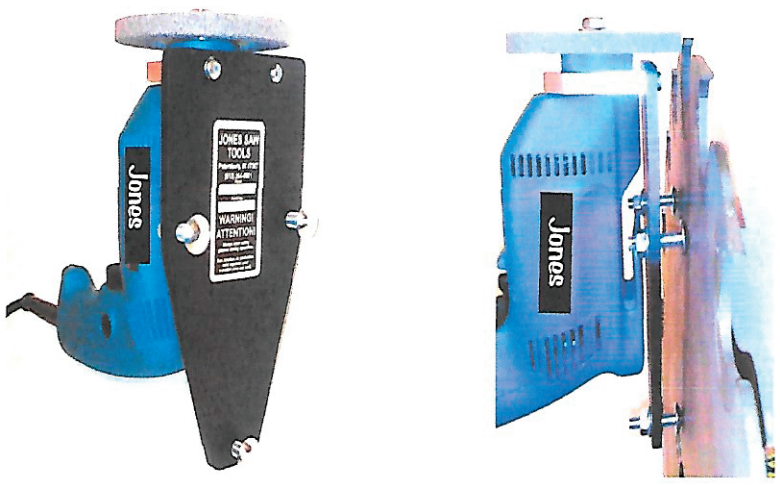
HOT ON THE MARKET!

Saw Tooth Side Grinder

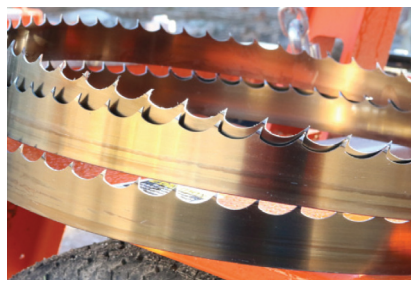


In their on going effort to keep their customer's mills running smoothly and efficiently, **Jones Saw Tools** is introducing the new "T11 Side Grinder".

The Side Grinder is designed to trim back those inserted saw teeth that don't line up true in the saw. Whether it's a tooth that is swaged too wide or a carbide bit that is not centered properly in the saw, grinding it back makes the lumber look better and the saw run smoother. This tool is available with a diamond wheel for carbide bits, or a grit wheel for steel bits.

For more information, contact:
Randy Jones @ Jones Saw Tools

High Performance Bandsaw Blades



Wood-Mizer introduces the Turbo 747 high-performance sawmill blade engineered for all band sawmill and resaw makes and models, horsepower ratings, and sawing applications. Available in Silver-Tip Carbon and DoubleHard High-Alloy steel material, Turbo 747 sawmill blades feature a deep capacity gullet for less sawdust on the board, extreme back angle for faster sawing speeds, and sharp penetrating points for increased sawing accuracy.

"Wood-Mizer is committed to providing the best sawmill blades in the industry for all sawmilling equipment and applications," said Randy Panko, Wood-Mizer Blades Sales Manager. "After extensive field testing, the new Turbo 747 blade has resulted in increased feed rate, accuracy, and sharp life in all horsepower levels and sawmill equipment models. With the blade's steep sloped back angle and proven 7 degree hook angle, sawyers can try it on everything they saw and take on even the most challenging sawing applications."

The Wood-Mizer Turbo 747 sawmill blade is now available to order direct, online at woodmizer.com, or through authorized dealers. Wood-Mizer offers an extensive range of sawmill blades with more than 100 combinations based on profile, width, thickness, tooth spacing, and alloy for any type of sawing or resawing application from green softwoods to abrasive hardwoods.

For more information:
Visit woodmizer.com or call 800-522-5760

Linear Carriage

Hurdle Machine Works Inc. introduces its new Magnum LT Linear Carriage, their latest innovation that is sending shock waves across the sawmill industry.

With 40" knee openings and 29" dog openings the carriage is the perfect size for today's hardwood mills. The first carriage went out in May and is operating in a 6 foot double cut bandmill, running Lewis Controls setworks. Along with a Hurdle resaw the mill is cranking out 50,000 + board feet per day of grade lumber. Superior engineering focused on simple design in an 8,000 to 12,000 lb. package with multiple options make this a smart investment. Parts are stocked for immediate shipment but since the design is simple, there aren't many parts to worry about.

See videos of the new carriage at www.youtube.com/hurdlemachineworks,
Call 901-877-6251 or Visit www.hurdlemachineworks.com.
