Quit Smoking With Hypnosis

By: Lori Kleinsmith, NLP, Certified Hypnotist

Many people have good intentions to quit smoking. Then something triggers them to fall back into the dangerous habit. Many times it is the ugly stress monster. How will hypnosis help you quit and what is hypnosis?

The word hypnosis itself is defined by being an altered state of consciousness or awareness where the individual under hypnosis appears to be in a trance-like state. This trance-like state is very familiar. Example: Have you ever been talking with someone and you are watching them speak but your mind goes elsewhere? Have you ever driven a car and all of a sudden you are at your destination but really don't remember most of the drive? These are all trance-like states. Just like in hypnosis, you were in control.

Hypnosis is commonly used in the treatment of a variety of physiological and physical problems. It is currently utilized in the treatment of pain control, weight issues, stress management and addiction problems. There is statistical information that shows that for some, it does indeed work, and very well. There are many variables. Do you really want to quit? The basic principle of hypnosis for quitting smoking is to bring those unhealthy thoughts to the surface and to replace them with more positive thoughts that encourage the smoker to cease leaning on something so dangerous to one's health. In many cases, a hypnotherapist will also teach the individual the art of self-hypnosis. This gives control to the individual not the cigarettes.

There is no doubt that hypnosis itself, in general, doesn't work for everyone. Nothing works for everyone. Some people have reported that after just one session, they were 'turned off' to the idea of ever smoking again and simply did not want to smoke any longer. Many of those reported that this had worked for them indefinitely. While still others reported similar immediate results, but having had relapsed during high stress moments and fell back

into the smoking habit once again. For this reason, most hypnotherapists will suggest to their clients that they continue with self-hypnosis, even once they consider themselves smoke free. It is important to be ultra-aware when you are dealing with stressful moments and make sure you turn back to smoking cessation therapies before you turn back to a smoke.

Do you believe in UFO's?

by Kimberlee Dawn

Do you believe in UFO's? Are angels ET's? Have there been UFO sightings around her? What is a Smart Meter? How can Smart Meters negative energy be diffused? Organite, tensor rings, what is a death experience? How can someone be a soul healer? Can someone help another over a disease without surgery or even medication? Can animals talk? How is food considered medicine? Where can I buy quality CBD oil? These questions can be answered at Angel Day Spiritual Holistic Faire. Plan to attend our free lectures on Sunday, November 17 starting at 10:15 to 5:00 pm. Keynote Speaker, Jim Krug will be speaking on UFOs at 1:00 pm. Held at the Leesport Farmers Market in the Banquet Hall, 312 Gernants Church Road., Leesport, PA. For more information contact Kimberlee Dawn 484-516-808 Vendor booths are still available.

Angel Day is a national holiday celebrated on August 22. It was originated by Rev. Jayne Howard Feldman. Her motto is "Do a small act of service. Be a blessing to someone." Learn, grow and enjoy your day. Soothe your soul. Fresh, delicious mediterranean food available for your enjoyment.
