Elora Solar Energy Center Project

The Tennessee Valley Authority (TVA) is asking the public to provide input on a draft environmental assessment (EA) for the Elora Solar Energy Center Project in Lincoln County, Tennessee. Details of the review are available in a draft environmental assessment at www.tva.com/nepa.

The Tennessee Valley Authority (TVA) has entered into a power purchase agreement (PPA) with Elora Solar LLC to purchase the power generated by the proposed Elora Solar Project in Lincoln County, Tennessee. The project is anticipated to include up to 150 megawatts (MW) alternating current (AC) in generating capacity. The proposed solar facility would be constructed and operated by Elora Solar LLC.

The draft EA includes two alternatives: a no-action alternative and an action alternative. Under the No-Action Alternative, TVA would not purchase the power generated by the project under the 20-year PPA with Elora Solar, and TVA would not be involved with the project. Under the Proposed Action, Elora Solar would acquire approximately 1,702 acres of land in Lincoln County, Tennessee, and construct, operate and maintain a single-axis tracking photovoltaic (PV) solar power facility of up to 150 MW AC generating capacity.

The complete draft environmental assessment is available at www.tva.com/nepa.
