Sunday Morning Positive Perks

from your Sassy Small Town Missus

MY COAL NECKLACE

If you know me, then you know I love a good piece of jewelry. Anything that wraps around a finger is perfect! So imagine my excitement a few years back when a little box appeared under the Christmas Tree for me. Very exciting!! I ripped it open, cracked open the box and what was inside? Yep, you guessed it. A necklace of COAL. What In The World, how could this happen? I tried to be so good that year. Legend tell us that coal has been given for centuries to children as a sign that they were not good that year. I read an Italian tradition that gave Garlic or Onion if you were bad. I love Onion and Garlic, so why Coal? I tried to rationalize this gift of Coal. Some people believe Coal used to be given to help provide heat for those who needed it, maybe that was why. Or maybe as Marilyn Monroe said so correctly.. "Diamond are a Girls Best Friend". I love Marilyn and I heard that coal will turn into a diamond, so that had to be it, right? I dug deeper and discovered rarely does coal become a diamond. It is a myth, dang. This was not looking good for me. But then I found the meaning behind this Coal necklace. It was handcrafted by someone close to my heart. He knows me better than anyone. Knows that some days I deserve a piece of coal, and not for the good reasons either :). Now I am sure we have all been there, so don't judge this Positive Missus. He found the perfect silver chain, a beautiful piece of coal and created a masterpiece I treasure. When I put it on I feel the warmth from the love that created it and as special as Marilyn Monroe when she wore her diamonds. If you have not guessed already this special little box was given to me from My Best Bud and Husband, Brian. He knows me well and knew I would love this little bauble, not only because it made me laugh but because he made it special for me. It is not the

monetary that makes a perfect gift, it is the thought behind it and the spirit in which it is given. While we are all around the tree this week eagerly opening gifts, remember it is not so important what is in the boxes, but the love inside each package, the people around the tree and the laughter created for years to come.

Happy Holidays to Everyone. Enjoy the gifts of Joy this Season that are felt in Your Hearts! I wish everyone the Magic of the Season that can be created by a beautiful piece of Coal. Happy Perks to Everyone! Albion FFA food drive tops 40,000 pounds

Photos by Tom Rivers, Posted 16 December 2019 on www.OrleansHub.com

ALBION – Albion FFA member Kyle Pappalardo is on a flatbed trailer and handing down a box of eggs to Adam Krenning, the former FFA advisor who helped load and then unload the trailer on Dec. 14 during the FFA's annual food drive.

Local farmers donated 40,000 pounds to the food drive. The food was packed by the FFA students and alumni and then delivered to Community Action of Orleans & Genesee on East State Street. The 40,000 pounds is a new record for the FFA food drive, up from the 35,000 pounds each of the past two years.

The farms that donated include: Triple G, Panek Farms, Root Brothers, Kludt Brothers, Orleans County Farm Bureau, Nesbitt Fruit Farms, Orchard Dale Fruit, Kreher's, Martin Farms Inc., Kirby Farms, Call Farms, Partyka Farms, Costanzo's Bakery, Navarra's Greenhouse, Starowitz, Torrey Farms, L Brooke Farms, Colby Farms, G. Mortellaro & Sons, My-T Acres, Lynn-ette & Sons Inc., and CY Farms.

Paige (Levandowski) Hungerford, the Albion FFA advisor, managed the food drive for the first time as the FFA advisor. She was a student in 2010 during the first drive, which yielded 3,000 pounds of produce and was delivered on two pickup trucks. She said she is amazed how the food drive has grown since then. The goal was always to connect the local farming community to filling a need locally.

The donated food is shared by six local food pantries including the Lord's House in Waterport, Calvary Tabernacle in Medina, Alabama Full Gospel in Shelby, Eastern Orleans Community Center in Holley, Community Action in Albion and Community Action in Batavia.

"This is a great boost especially this time of the year," said Angela English of the Lord's House. "This time of the year is a struggle for many families." The Lord's House had a food pantry open on Tuesday and Thursday evenings and every other Saturday.

The food drive has grown from 3,000 pounds in 2010 to 9,000 pounds in 2011, 17,000 the following year and 19,000 in December 2013. The FFA reached 27,000 pounds in 2014 and reached 30,000 for the first time in 2015. It was at 33,000 pounds in 2016 and hit 35,000 pounds in both 2017 and 2018. This year was the first time it reached 40,000 pounds.

Ed Fancher, executive director of Community Action, appreciates the donations from the farmers and the FFA's efforts in organizing the food drive and delivering the produce. "I just feel general amazement at the generosity of the farming community and the students who pack the truck," Fancher said Saturday morning, watching the FFA students unload a flat-bed trailer and other vehicles. "On behalf of the families we serve, thank you."

Albion village approved for \$2 million grant for water plant upgrades

By Tom Rivers, Editor Posted 17 December 2019 on www.OrleansHub.com

The Village of Albion has been awarded a nearly \$2 million state grant today, according to announcement from Gov. Andrew Cuomo.

The state Environmental Facilities Corporation has awarded more than \$416 million through the Water Infrastructure Improvement Act and the Intermunicipal Water Infrastructure Grant Program to municipalities for infrastructure projects that protect public health or improve water quality.

Albion will receive \$1,949,400 or about 60 percent of \$3,249,000 project that includes upgrades to the water treatment plant, a pump station and water transmission mains.

The nearby Village of Middleport in Niagara County also was approved for a \$137,500 grant towards a \$550,000 disinfection project at its sewer plant.

"By investing in improving our state's water infrastructure, we are laying the foundation for regional growth and prosperity while also protecting our natural resources," Governor Cuomo said. "These investments in our communities will help ensure residents in every corner of the state have access to safe, clean drinking water, helping to build a stronger New York for all."

To assist with the cost of installing systems to address emerging contaminants, grants for these projects will no longer be capped at \$3 million but will cover 60 percent of total capital project costs. Projects eligible for these grants include those which combat emerging contaminants, such as PFOA, PFOS and 1,4-dioxane, with system upgrades and innovative technologies, Cuomo said.

ATTORNEY AT LAW

WORK CONTRACTS

During times of organizational change, businesses may use a "retention bonus" to provide an employee with a financial incentive to remain with the company. Bonuses such as these are often given to high-value employees during mergers and acquisitions. Other times, they may be used when an employee is considering leaving the company. In some ways, a retention bonus is the opposite of a severance agreement, which includes a payout if the employee agrees that he or she was terminated fairly. In either case, it is important for employers to consult with an attorney about any and all contracts that they intend for their employees to sign. Doing so can spell the difference between a productive employee and an unhappy one.

While nearly any type of company may offer a retention bonus, they are more commonplace in very large businesses as opposed to smaller ones, where they are found infrequently. To schedule a free consultation, please call the Law Office of MACK & PACE at (585) 798-1000. We emphasize living wills and trusts, mortgages and foreclosures, small business, powers of attorney, probate and estate law, and vehicle and traffic law.

The U.S. Department of Agriculture's Weight Control Information Network says that a calorie is a calorie no matter when it is consumed. That means it doesn't matter if calories are consumed in the morning, afternoon or evening. It is how many are consumed and the amount of physical activity individuals perform that will affect their weights. Conversely, the Academy of Nutrition and Dietetics says they're not sure if a calorie is a calorie no matter when it is consumed. Their research and data from the University of Pennsylvania School of Medicine's Center for Weight and Eating Disorders indicates that when food is consumed late at night the body is more likely to store those calories as fat and gain weight rather than burn it off as energy.

But what is a person to do when hunger pangs hit at night and one fears that their rumbling stomach may interrupt their sleep? According to the nutrition and fitness experts at MyFitnessPal, tick to a snack that is between 100 and 200 calories. Choose a food that is high in protein, fiber or healthy fats. Apples and peanut butter, string cheese and fruit, or whole grain crackers and Greek yogurt can be healthy, satisfying nighttime snacks. Avoid sugary, calorie-dense foods, which may be hard to digest and can compromise sleep quality.

More studies may be necessary to determine the relationship between body weight and snacking at night. In the meantime, nighttime snackers should choose healthy foods when reaching for a late night bite to eat. ■

Do you have HEEL pain or ARCH pain?

HEEL SPUR SYNDROME/PLANTAR FASCITIS is a common problem among people who are active. It starts as a dull intermittent pain in the heel which may progress to a sharp persistent pain. Classically, it is worse in the morning with the first few steps, after sitting, after standing, or after walking.

- Plantar fasciitis often begins with irritation and tearing of the fibrous band of tissue on the bottom of the foot, which may eventually result in the formation of a heel spur.
- Contributing factors: flat pronated feet, high arched feet, poor shoe support, increased age, sudden weight increase, increased activity level, family tendency.
- Approximately 2-3 times your body weight of force is exerted on each foot with walking. Flexible, non-custom molded arch support found at those advertised shoe stores cannot support these forces and usually do not provide long-lasting relief, do not come with a lifetime warranty, and are typically more expensive than custom-molded ones made by our office.
- 95 percent of our patients symptoms are resolved with conservative treatment, avoiding surgical intervention.
- We also offer surgical procedures with the best post-op success rates using Endoscopic Plantar Fasciotomy techniques and EPF resulting in minimal incisions and scarring, immediate ambulation and often back in a shoe in one week.

If you can't remember when your feet didn't hurt, now is the time to give us a call!

SIGNS OF A STROKE

Sometimes symptoms of a stroke are difficult to identify. The stroke victim may suffer severe brain damage when people nearby fail to recognize the symptoms of a stroke. Now doctors say a bystander can recognize a stroke by asking a few simple questions:

- 1 Ask the person to **SMILE**.
- 2 Ask the person to **TALK AND SPEAK A SIMPLE SENTENCE**. i.e. It is sunny out today.
- 3 Ask the person to **RAISE BOTH ARMS**.
- 4 Ask the person to **STICK OUT HIS TONGUE**. If the tongue goes to one side or the other, that is a sign of a stroke.

OTHER STROKE WARNING SIGNS

- Sudden **numbness or weakness** of the face, arm or leg, especially on one side of the body
- Sudden **confusion**, trouble speaking or understanding
- Sudden **trouble seeing** in one or both eyes
- Sudden **trouble walking, dizziness**, loss of balance or coordination
- Sudden, **severe headache** with no known cause

If you or someone with you has one or more of these signs, don't delay!

Governor will propose eliminating Styrofoam as single-use food containers

Posted 17 December 2019 on www.OrleansHub.com | Press Release, Gov. Andrew Cuomo

Plastic bag ban goes into effect starting in March

Governor Andrew M. Cuomo today announced the 5th proposal of his 2020 State of the State Agenda – prohibiting the distribution and use of expanded polystyrene, commonly known as Styrofoam, single-use food containers.

The proposal also bans the sale of expanded polystyrene packaging materials known as packing peanuts. Additionally, the bill would authorize the State Department of Environmental Conservation to review and take action to limit or ban other packaging material upon a finding of environmental impact. This would be the strongest statewide ban in the United States and would go into effect by January 1, 2022. This ban will build on the Governor's historic effort to reduce environmental pollution statewide, including the recent ban on single-use plastic bags first announced by the Governor in his 2019 State of the State address.

"Styrofoam is one of the most common pollutants and a public health hazard that impacts humans and the environment alike," Governor Cuomo said. "From take-out containers to packing peanuts, this material is everywhere and it will continue to pollute our waters and harm our wildlife for generations to come if we do not act. With this proposal, we can build on our nation-leading initiatives to protect the environment and move New York another step closer to a greener, more sustainable future."

The new legislation will:

- Ban the distribution and use of expanded polystyrene foam containers used for prepared foods or beverages served by food service establishments, including restaurants, caterers, food trucks, retail food stores, delis and grocery stores.
- Ban the sale of polystyrene loose fill packaging, commonly known as packing peanuts.
- Authorize the State Department of Environmental Conservation to take additional action to limit or ban other packaging material upon a finding of environmental impact.

The ban exempts prepackaged food sealed prior to receipt at a restaurant or food service establishment, as well as packaging for uncooked or raw meat, fish or eggs. Violators will be penalized with a fine starting at \$250. Second, third and fourth violations will be fined \$500, \$1,000 and \$2,000 respectively.

Expanded polystyrene foam is one of the top 10 contributors to environmental litter. The EPA estimates that the U.S. produces more than 3 million tons of polystyrene, which are non-biodegradable. These containers often break down over time and enter waterways and wildlife areas as microplastics, where they pollute water sources and harm wildlife that ingest them. Human exposure to styrene, the primary chemical in polystyrene foam, is primarily through inhalation in the manufacturing sector. The National Toxicology Program has determined styrene is "reasonably anticipated to be a human carcinogen." Small amounts of styrene can also be transferred to food from styrene-based packaging materials.

In 2019, Governor Cuomo accomplished a key goal of his Justice Agenda when he signed landmark legislation banning single-use plastic bags in New York State. This milestone accomplishment, which goes into effect in March 2020, will prevent plastic bag litter in our environment, reduce the greenhouse gas emissions associated with plastic bag production and disposal, from petroleum used to produce the bags to emissions from the transportation of bags to landfills. New York is one of only eight states to have a single-use plastic bag ban in place.

Thank You!

The Oak Orchard Neighborhood Association (OONA) thanks its members, sponsors, and those who participated in its events during 2019. We are most proud of the Association's success this year, but know it is totally because of your overwhelming support. It is our mission to be supportive of our community, to give back, and to this end, we are contributing a total of \$5,000 to the following services and agencies:

- Carlton Volunteer Fire Department
- Hospice of Orleans
- Mercy Flight
- Community Kitchen
- Ministry of Concern
- Community Action
- Central Orleans Volunteer Ambulance (COVA)

These are just a few of many justifiably deserving organizations in our neighborhood worthy of our support. Once again, thank you for making 2019 a very productive year for the Oak Orchard Neighborhood Association.

GENUINE PEOPLE, REAL PRICES

Briana G, ★★★★★

I recently bought a 2019 Ford Explorer that I love. Timothy was the salesman, he is awesome, very nice & "down to earth". He made sure to get back to me with every detail about the vehicle that I was interested in before coming into the dealership because I live far away. Everyone from the managers to the salesman were very nice. Everything was put together & ready for me to drive away the same day. I highly recommend them. Plus the prices for the vehicles are great.

Tona W, ★★★★★

Very friendly and helpful staff. Treated you as if they have known you forever, even though you just met. More than willing to find you the best deal with many lenders at their finger tips. We traveled 3 hours to look at a vehicle because they were the only dealer who seemed interested in talking about what we were looking for with extras. Very large inventory to choose from. We left that day with what we were looking for. HIGHLY RECOMMEND THEM.

Kerry L, ★★★★★

Orleans Ford has been very helpful with a Mustang we purchased that has developed issues that are covered under warranty. Randy Klatt has been very helpful and involved in seeing that everything possible is being done. Thank you for being there for us.
