Here's How It Works: Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 5 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each 2 9 row, column and box. Each number can appear only once in each row, 3 9 column and box. You can figure out the order in which the numbers 1 1 will appear by using the numeric clues already provided in the boxes. 2 1 8 3 4 5 The more numbers you name, the easier it gets to solve the puzzle! 769 9 | 2 | 6
