## THE MAGIC OF MUSIC

I really like to listen to music and attend concerts. It calms me or fuels me. Especially when it is Country and George or Vince are involved. For those of you who don't know me well enough yet or Country Music, I am a product of the '70/'80s and am referring to George Straight and Vince Gill. I have and will at times dissect a song as a single Post because I do believe that music can take your mind to the most heartfelt places. When I hear a song the first thing that usually strikes me is the melody. then come the words. A great song tells a story, evokes an emotion. George sings about the Troubadour. If you have ever had the privilege to see George in concert you realize he does not need any flash because he IS a Troubadour himself, "He was a young Troubadour who rode in on a song and will be an old Troubadour when he is gone". He just sings, tells his stories melodically and the crowd loves it. We each have those artists in our lives who tell stories with their songs that speak to us. A Troubadour is a Poet who when they sing, touch us. That brings me back to the image above. I found this a while back on Pinterest. The message is spot on.. Whether you play a song intentionally or you stumble upon it on the radio, music takes you on a trip across your past, into your present and onto your dreams for the future. The right song can take your mind off whatever is weighing you down like "It's a Great Day to be Alive" by Travis Tritt, bring your spirits ups like "Eastbound Down" by Midland, or make you feel introspective like "God and Country Music" by George Straight. Mostly I like those songs that

bring you back to a time in life when everything was simple and the world seemed full of possibilities, like "Swayin' To The Music" by Johnny Rivers. The Little Hottie in the above photo embodies all this, the joy that Music brings to our souls. She is cute as a button, with the funnest jeans ever! The way she holds her guitar, stands in her flip flops and rocks that bandanna, you can feel by the smile in her eyes that music is taking her to a happy place. I wonder what song her sweet little voice is going to sing. I think it is "Rainbow Connection" by Kermit the Frog. Yep, I am sure of it! No Doubt I aspire to be a music groupie, good thing I am only 51.5 so I have plenty of time :) At a Keith Urban concert he stated that most songs we don't know all the words to, and neither does he. That is OK because the fact that a song inspires us to want to engage, sing and feel... that is the true magic of music.

To share what songs are your go-tos or have kicked you into the time machine and brought you back to an earlier time in your life view My Blog live online at https://www.positiveperksposts.com were you can also Join in, Like and Share Your Comments. Happy Perks to Everyone!

## Letter to the Editor,

The staff of Community Action, the Board of Directors, and the hundreds of families, who received a holiday basket, wishes to express our sincere appreciation and thanks to all the wonderful and caring individuals who assisted our agency this holiday season.

The joy of helping less fortunate families receive a holiday basket filled with food and toys for their children, giving a single individual food and personal items and the smiles, the tears, the hugs, and the thanks, were all made possible through the generosity of businesses, civic groups, churches, service organizations, schools, private individuals, people who donated through the angel trees, FFA Albion who donated close to 42,000 pounds of food, people who sent money donations, and adopted families, businesses who participated in adopting children. The children in our school system who helped pack baskets, Albion Baptist Church for use of their Church for toys, the many volunteers who sorted toys and food to give less fortunate families the joy of the holiday season.

Thank you to all the people who donated money to our Salvation Army Red Kettle Campaign, the businesses where we had kettles, the bell ringers, our wonderful coordinators who made it possible to raise \$23,576.10 this year.

Through all of you we were able to assist 312 families in Central and Eastern Orleans County.

Community Action could not have done what we did without the wonderful caring people who stepped up and assisted us in making the holidays brighter.

We wish you all a wonderful and safe 2020,

**Annette Grillo Finch**

### MAINTAINING FAITH

When a contract is agreed upon by two parties, it is generally presumed that each will deal with the other honestly, fairly, and in good faith. However, some parties enter into agreements with no intention of ever living up to their terms, or they knowingly misrepresent the quality of something that is being bought or sold. These intentions to mislead or deceive in order to gain an advantage are characteristics of "bad faith." With this in mind, if an insurance company were to act unreasonably in processing, investigating, or paying a claim, the aggrieved policyholder may have the right to file a bad faith lawsuit based on common law established by courts on the violation of a state statute.

At the Law Office of **MACK & PACE**, we counsel and advise numerous business clients in their day to day operations, and have helped many a business entrepreneur set up and form the business entity best suited to him or her, be it a sole proprietorship, partnership, corporation, or limited liability company. To schedule an appointment, please call (585)798-1000. We also emphasize vehicle and traffic law, estate planning, probate, and mortgage and foreclosures.

(585) 798-1000  
534 Main St., Suite 6  
Medina, NY 14103

*HINT: Bad faith may also be claimed against a person who files suit solely to harass another.*

**R-H Music Department Notes**

A lot has happened this year so far with the Royalton-Hartland Music Department. We had 13 students selected for the New York State School Music Association (NYSSMA) Zone 1 Junior High Area All-State Festival, 15 students selected for NYSSMA Zone 1 Senior High Area All-State Festival, and 2 students selected for NYSSMA All-State Conference Festival. These students competed against music students in the 4 counties of Western New York (Cattaraugus, Chautauqua, Erie and Niagara) for the Area All-State Festivals and the students who were selected for NYSSMA All-State Conference competed against music students throughout the State of New York.

Our Winter Showcase Concerts were performed to very appreciative audiences. The Orchestra Winter Showcase Concert was on Nov. 25, the Chorus Winter Showcase Concert was on Dec. 5, and the Band Winter Showcase Concert was on Dec. 16. The house was packed for the Elementary Winter Concert which was on Dec. 3.

The High School Chorus had their Broadway Cabaret Concert on Oct. 16. A highlight of the night is the announcement of the School Musical for this school year. The musical, "Curtains" will be performed in the High School Auditorium on March 20, at 7:30 PM, and March 21, at 2:00 PM and 7:30 PM. For more information about the show, please visit the Roy-Hart Website. The High School Orchestra performed their annual "Music in the Atrium" Concert at Roswell Park Cancer Institute on Dec. 19. The students enjoy playing this concert and understand the value in giving back to the community.

Many students from the department auditioned at the Niagara County Music Educators' Association (NCMEA) All-County Auditions on Dec. 14 at North Park Junior High in Lockport. A lot of students were selected to participate in the All-County Festivals. Festival I is on Jan. 31 & Feb. 1, at Niagara Wheatfield High School, and will involve the All-County Elementary Band, All-County Junior High Chorus and All-County Senior High Vocal Jazz Ensemble. Festival II is on Feb. 7 & 8, at NCCC, and will involve the All-County Intermediate Orchestra, All-County Junior High Band, All-County Senior High Jazz Ensemble and All-County Senior High Chorus. Festival III is on Feb. 28 & 29, at Lewiston Porter High School, and will involve the All-County Elementary Chorus, All-County Junior High Jazz Ensemble, All County Junior/Senior Orchestra and All-County Senior High Band. For more information on the NCMEA Festivals, please visit [www.ncmea.com](http://www.ncmea.com).

There are still many events the Music Department will be involved in throughout the rest of the school year. The High School Festival Concert is on March 31, at 7:00 PM, in the High School Auditorium. The 5th - 12th grade Orchestra Students will be going to Houghton College overnight on May 15 & 16, for the Spring String Festival. The Middle School Bands will be competing at the "Music in the Park" Festival at Darien Lake on May 29.

There will be 4 performances for Spring Concert Season. The Elementary Spring Concert will be on May 18, the Middle School grades 5&6 Spring Concert will be on June 2. The Middle School grades 7&8 Spring Concert will be on June 3, and the High School Spring Concert is on June 8. The High School Spring Concert is also the night we recognize the seniors of the Music Department. All Spring Concerts are in the High School Auditorium and will start at 7:00 PM. We hope to see you there!

# What does Solar Energy mean for your community?

## DID YOU KNOW...

In the first 20 years of the project, more than \$25 million in new revenues will be paid to the Towns, County and School Districts by the project.

Source: The Solar Foundation: [https://votesolar.org/files/9715/5810/5850/NY\\_MSS\\_JEDI\\_Report.pdf](https://votesolar.org/files/9715/5810/5850/NY_MSS_JEDI_Report.pdf)

## More than \$110 million paid to the local economy

Solar projects provide a significant boost to the landowners, Towns, County, and School Districts in the first 25 years of operation. These are dollars that can be reinvested into the community, and are in addition to paid salaries as well as locally sourced materials, service or equipment supplies purchased to support the project development and construction.

Solar energy means more local resources – and a whole lot more.

**County Clerk to retire on Jan. 30 from 'dream job'**

By Tom Rivers, Editor Posted 13 January 2020 at 5:14 pm

ALBION – Orleans County Clerk Karen Lake-Maynard has announced she is retiring on Jan. 30 after 14 years as the county clerk and 30 years in the clerk's office. She started as an index clerk and was promoted to deputy county clerk under Carol Lonnen. When Lonnen retired, Lake-Maynard was elected to succeed her.

"It's been a dream job," Lake-Maynard said on Jan. 13 from her office at the County Clerk's Building next to the County Courthouse. "It's been a pleasure to serve Orleans County."

Lake-Maynard will be leaving with two years on her term. Diane Shampine, the deputy county clerk, will serve as acting county clerk until the position is up for election in November (unless the governor calls for a special election before then).

Lake-Maynard of Medina said she was inspired by her father, the late Howard Lake, to pursue a career in public service. Her father was an Orleans County undersheriff and later a Medina village and Ridgeway town justice. Her brother Howard also was Medina's mayor.

The county clerk oversees 10 employees, including six at the Department of Motor Vehicles at the County Administration Building on Route 31 and four employees at the County Clerk's Building on Main Street.

Shampine is the deputy county clerk at the Clerk's Building while Pamela Boyer is deputy county clerk for DMV. Lake-Maynard said Shampine has the experience to "hit the ground running" without any disruption in the office. "The county is in good hands with her," Lake-Maynard said.

The next clerk will have to go through the political process. The Orleans County Republican Party Committee soon will meet to hear from candidates for the position. Nadine Hanlon, clerk of the County Legislature, also is interested in succeeding Lake-Maynard.

Photo by Tom Rivers: Karen Lake-Maynard, the Orleans County clerk the past 14 years, is retiring on Jan. 30. She has worked 30 years at the County Clerk's Building, 3 South Main St. She started as an index clerk.

The current county clerk said she has strived to lead a user-friendly DMV and clerk's office. The DMV staff will try to make an extra phone call or offer assistance to fill out forms so people don't have to make multiple trips to the office, Lake-Maynard said.

The Clerk's Building has records going back nearly two centuries, including property deeds since 1830. The office is the keeper of filing deeds, mortgages, leases, assignments, discharges, maps, census records, ag districts, business certificates, judgments, federal tax liens, military

discharges, naturalization records, inquests, separation agreements and divorce decrees for the entire county. Those records have all been digitized, and the office has made records increasingly available online.

Lake-Maynard often is at the front counter at the clerk's office, responding to people's requests. In recent years, she said many people exploring their genealogy visit the office or send emails looking for information on their families.

Since July 2017, the County Clerk's Office also has handled pistol permit applications and recertifications. That process was handled by the county judge's chambers before the change 2 1/2 years ago.

Lake-Maynard said she is proud of the "Thank A Vet" program that she and the office started in 2011. Many local businesses agreed to be in the program offering discounts to local veterans. Lake-Maynard said 400 to 500 veterans have signed up for the program. "It's bittersweet," Lake-Maynard said about her impending retirement. "It's been a great ride and I've had a staff that is second to none."

## How to approach returning to work after maternity leave

Working mothers are no longer an anomaly. According to the U.S. Bureau of Labor Statistics, seven in 10 women with children under the age of 18 years were in the American labor force in 2015, the most recent year for which statistics were available.

Though it might be considered the new normal for mothers with young children to work, that does not make it any easier for mothers to manage a career and being a mom. That's especially true for first-time mothers returning to work at the end of maternity leave.

Returning to work after maternity leave can produce mixed emotions. Mothers who have thriving careers may be excited to get back to work while simultaneously feeling sadness or even guilt at the prospect of leaving their infants at home with a spouse or nanny or at a daycare facility. Such mixed emotions are normal, and women should discuss their feelings with their spouses and loved ones if they are experiencing difficulty processing them.

How smoothly women transition to work after maternity leave may depend on how well they plan ahead. The following are some ways women can make returning to work after giving birth go smoothly.

- **Negotiate your return to work.** The length of maternity leave depends on a host of factors, including company policy. Paid maternity leave is not a requirement in the United States, while the Canadian government sponsors an insurance plan that allows both parents to earn some income while on leave. In advance of giving birth, women can attempt to negotiate their post-maternity leave return to work. If you had initially intended to take three months' leave, speak with your boss about returning part-time after two months or request to work remotely one or two days per week upon your return. This gives you a chance to ease back into work and your child a chance to adjust to spending time with others. Many companies may be flexible with their maternity leave policies, but women will only know if they ask.

- **Devise a daily schedule before returning to work.** Mothers who plan to continue breastfeeding even after they return to work will have to carve out time each day to pump. Pumping can be time-consuming, and working mothers should speak with their bosses to explain their desire to pump during the workday. Employers cannot tell women they can't pump during the workday, but many women unfairly feel pressured to spend as little time as possible pumping. Laying out a daily schedule that includes when you plan to pump during work hours and sharing it with your boss before you return to work may help reduce that pressure and, therefore, making the transition back to work easier.

- **Lighten your load.** Balancing work and family is a tall order for anyone, but especially for mothers who just gave birth. Delegate more at the office upon returning to work, and take that spirit of sharing home, too. Make sure cooking and cleaning duties are shared, and don't hesitate to order takeout more frequently until you adjust to being a working parent.

Planning ahead can help women successfully navigate their return to work after maternity leave. ■

# Heritage Wind Project Orleans County, New York NOTICE OF SUBMISSION OF APPLICATION

Heritage Wind, LLC ("Heritage" or "Applicant") is proposing to construct a major wind electric generating facility up to 184.8 megawatts (MW) in size in the Town of Barre, Orleans County, New York ("Heritage Wind Project" or "Facility"). Under Article 10 of the Public Service Law, the Applicant must obtain a Certificate of Environmental Compatibility and Public Need from the New York State Board on Electric Generating Siting and the Environment ("Siting Board") pursuant to Article 10 of the Public Service Law and the Siting Board's rules (16 NYCRR Part 1000). This notice announces that on or about January 31, 2020, the Applicant will file an Application pursuant to 16 NYCRR 1000.6 seeking a Certificate from the Siting Board authorizing the construction and operation of the Facility under Article 10.

The Facility is a proposed wind-powered electric generation project consisting of up to 33 wind turbines generating up to 184.8 megawatts (MW) of electricity to be located in the Town of Barre, Orleans County. The Facility will include wind turbines, access roads, electrical collection lines, substations, permanent meteorological towers, an operations and maintenance (O&M) building, and staging/laydown areas to be used during construction, which may include a potential temporary concrete batch plant. A point of interconnection substation will be placed in the Town of Barre, along the existing National Grid Lockport-Mortimer 115 kV power line, to deliver electricity generated by the Facility to the New York State electric grid.

The Facility is a zero-emission wind energy facility that will assist the State in meeting the goals of the State Energy Plan, which include obtaining 70% of energy generation from renewable sources by 2030 and significantly reducing greenhouse gas emissions. Other positive impacts of the Facility include diversification of energy supplies, new employment opportunities (both temporary construction employment and full-time jobs), and increased revenues to County and local tax bases, and purchase of local supplies, goods and services. In addition, the Applicant has attempted to minimize impacts to land associated with the Facility by limiting the disturbance to forested lands and wetlands to the maximum extent practicable. However, the construction and operation of the Facility may result in minor environmental impacts as more fully described in the Application, including, but not limited to: impacts on terrestrial ecology, including avian and bat species; minor impacts to forested land, wetlands and agricultural lands; and impacts to people, including noise, traffic and visual impacts.

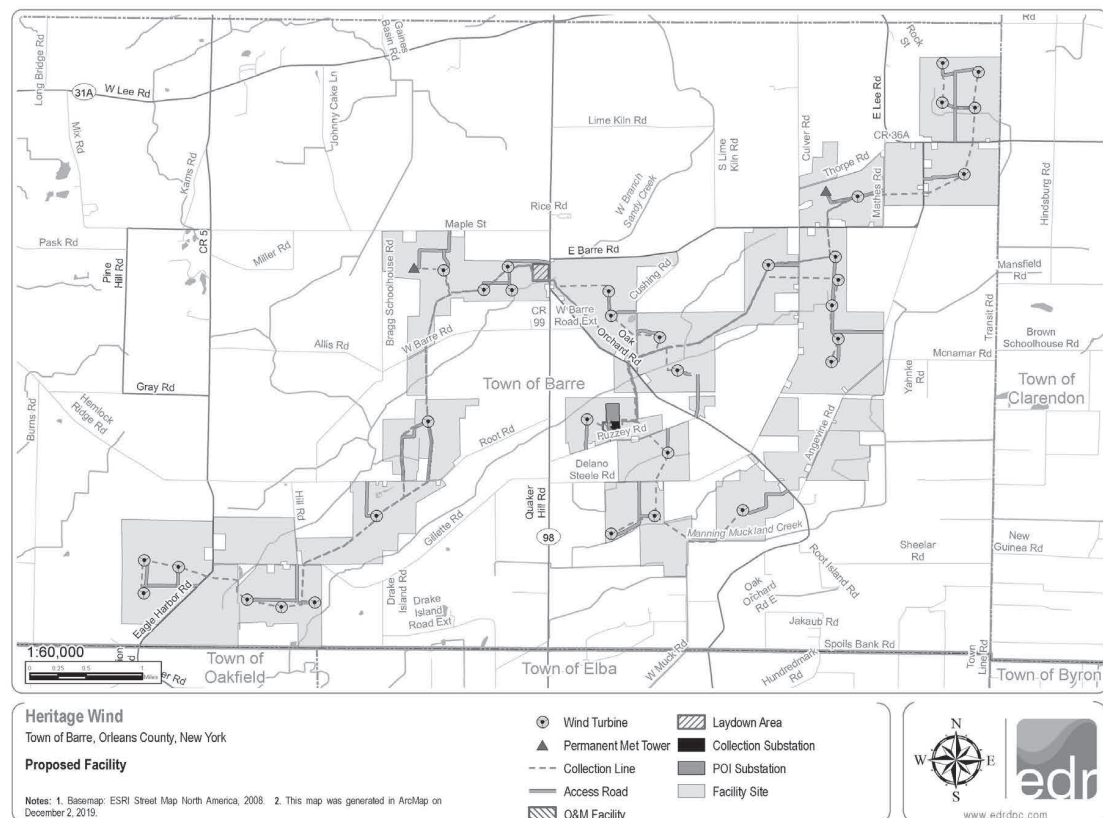

Pursuant to the Article 10 process, the Applicant filed a Preliminary Scoping Statement (PSS) on March 16, 2018 with the Siting Board. After the public comment period on the PSS, the Applicant prepared a reply to material comments that was submitted on June 8, 2018. On May 10, 2018, a pre-application conference to consider intervenor funding requests was held and the stipulation process was ordered to commence. Stipulations were then released for public comment on August 20, 2019. The Applicant is now ready to file an Application.

The Article 10 regulations outlining the required contents of the Application can be found at 16 NYCRR 1001.1 et seq. The Application includes, among other things: an analysis of the environmental setting of the Facility, a description of the Facility, including preliminary design drawings and related information; copies of reports, studies and plans submitted in support of the Application; and an assessment of impacts of construction and/or operation of the Facility relating to land use; consistency with State energy planning objectives, including climate change and renewable energy goals; public health and safety; terrestrial ecology, water resources and aquatic ecology, including avian and bat species and wetlands; communications, transportation and utilities; cultural, historical and recreational resources; visual, including shadow flicker; sound; electric magnetic fields; and impacts on the statewide electrical system.

Once an Application is filed and determined by the Siting Board to be complete, the Siting Board will schedule a public statement hearing on the Application, to be held in the Facility Area. The Siting Board will also issue a notice of availability of application intervenor funds that are available to be used by local parties to participate in formal review of the Application. The Hearing Examiners will identify parties to the proceeding, award intervenor funds, identify issues for the hearing, and assist parties in establishing a case schedule. Hearings regarding the Application and project impact assessments will be scheduled by the Hearing Examiner as needed. After hearings, the stakeholders may brief their positions, and the Hearing Examiner will issue a recommended decision upon which the Siting Board will base its decision. Article 10 requires that all proceedings on the Application, including a final decision by the Siting Board, must be completed within 12 months of when the Application is determined to be complete.

Upon filing the Application, the Applicant will provide funding in the amount of \$184,800 to be disbursed by the Siting Board to municipalities and other local parties to help pay expenses, including attorneys and consultants, associated with participating in the Article 10 process during the application review phase. By law, at least fifty percent (50%) of these intervenor funds are reserved for municipalities. Following the filing of an Application, the Hearing Examiner or the Secretary will issue a notice of availability of Application-phase intervenor funds that provides a schedule and related information describing how interested local parties may apply for this funding. Requests for intervenor funds must be submitted to the Hearing Examiner within thirty (30) days after the issuance of the notice of the availability of application intervenor funds. Following the submittal of any intervenor funding requests, the Hearing Examiner may schedule a pre-hearing conference to consider funding requests.

The record of this proceeding, including the Application, may be examined during normal business hours at the Offices of the New York State Department of Public Service (DPS) at 3 Empire State Plaza, Albany, NY 12223, and may also be viewed at the local project office, 49 North Main Street, Albion, New York 14411, or at the following public repositories: Barre Town Hall, 14317 West Barre Road, Albion, NY 14411; Hoag Library, 134 South Main Street, Albion, NY 14411; Haxton Memorial Library, 3 N.
