SPEAK OUT

Dear "Speak Out,"
Food for thought...

Often we hear of or see on the news of school bus drivers using poor judgment while driving a school bus with students on board resulting an unfortunate incident.

How many times do you hear of or see anything about a school bus driver making a right decision that kept students safe? Not many.

Here is one of many incidents where a bus driver made a decision in order to avoid what would be a serious incident.

Friday, January 10th started being a usual day with rain and freezing temps in the area. While on her regular route, Amie Snyder started to encounter ice covered roads as she entered the hills of Nunda and Dalton. It got to a point where the bus would not respond as well as she wanted and got to a part of the route where the rain and ice covered roads made it impossible to continue. She stopped the bus, secured it and contacted the dispatcher Michele Seifried and advised her of the situation. The dispatcher asked her to stand by and she would get help. She contacted Kevin Slack, highway supervisor. He indicated he would be able to help. He met up with the bus and indicated to her that she was to follow him while he salted the road and led her to safety. While this was happening, Amie was able to keep the students calm. Being late by this time, other drivers were able to pick up the students still waiting.

If you happen to see Amie, Kevin and other school bus drivers, give thanks, smile or even a handshake. Amie drives for Keshequa and represents hundreds of other drivers that show good judgment in avoiding terrible incidents.

Thank you all.

RADON is a cancer-causing radioactive gas that you cannot see, smell or taste. Radon is produced in the soil and moves upward to enter your home through the foundation or with groundwater from a well. The only way to know if you are at risk is to have your home tested for the presence of radon. The Livingston County Department of Health recommends that all households be tested for radon levels, and can provide free radon test kits to Livingston County residents who own a home. If you would like more information on radon or to request a radon test kit, please call 243-7280.

GENESEE VALLEY

COUNCIL ON THE ARTS

One of the Most Exclusive Art Collections in the Country Found Here!

100 Years Past

The piece was just restored and returned to us last week!

Did you know that Mount Morris is home to one of the most exclusive art collections in the country? The Genesee Valley Council on the Arts (GVCA), located on the Livingston County Campus, is the caretaker of over 200 pieces of WPA (Works Progress Administration) artwork, one of the largest collections in the nation.

The WPA was a New Deal agency created during FDR's administration, and employed millions of job-seekers to carry out public works projects, including the construction of public buildings and roads. In one project, Federal Project Number One, the WPA employed musicians, artists, writers, actors and directors in large arts, drama, media, and literacy projects. As a result of this initiative, artists were paid to create art which would hang in public buildings throughout the country. Several of these paintings were displayed in Livingston County office buildings and the Tuberculosis Sanatorium on Murray Hill, which was in operation from 1936–1971.

When the Sanatorium closed, most of the paintings in the building were stored away in the basement, where they remained for several years. The paintings were discovered and inventoried in 2001, and now reside in controlled storage at GVCA. The New Deal collection is exhibited on a rotating basis throughout the year. Since these works are over 80 years old, many are in disrepair; GVCA is working with conservators to restore these historic pieces of art.

Aside from the New Deal collection, GVCA administers the Decentralization Grant program for artists in Livingston and Monroe counties through the New York State Council on the Arts. GVCA also exhibits the work of local artists and holds several annual events, including a Member Show, the Genesee Valley Fare and Ware Festival and Artful Holidays.

GVCA is located at 4 Murray Hill Drive in Mount Morris and is open Tuesday, Wednesday and Friday from 11-4, Thursday from 11-7 and Saturday from 11-3. Stop up to see the gallery and check out a bit of history!

Flu Cases are Increasing Protect Yourself and Your Family

Mount Morris, NY, January 16, 2020 – The flu season has started earlier than it has in the past three years. It has not yet peaked, but there has been an increase in cases over the last few weeks. It is expected to continue increasing in the upcoming weeks.

The seasonal flu is a respiratory illness that spreads easily from one person to another. Flu symptoms range from mild to severe and include fever, chills, headache, stuffy runny nose, sore throat, dry cough, body shakes and body aches.

The best way to prevent the flu is by getting a seasonal flu vaccination, which is recommended for all individuals 6 months of age or older. Some other ways to help prevent the flu include:

- Stay home from work, school and public gatherings when you are sick.
- Avoid close contact with people who are sick and avoid going near people when you are sick.
- Cough or sneeze into your elbow.
- Wash your hands often with soap and warm water.
- Avoid touching your eyes, nose or mouth because this is how germs are spread.

By following these tips, you can protect yourself and your family from the flu. For more information on the flu, please contact the Livingston County Department of Health at 243-7299 or visit: <http://bit.ly/LivCountyDOH>.

- February 22** **HARRIET NEWELL AUSTIN : An Unconventional Life?** *JANE OAKES Historian*
Austin fought her entire life for women to have the freedom to choose their own career, have educational freedom, take charge of their own health, and dress for practicality, not fashion. She was one of the first women to earn an M.D. in Hydropathy, and was a major component in the success of the Our Home on the Hillside water cure in Dansville. Harriet Austin and Clara Barton became close friends and lifelong correspondents. Local interest, nationally influential in helping women gain freedoms we enjoy today.

- March 21** **LORDS OF THE RING** *ALEX PIERCE Historian*
We'll journey to middle New York to explore the majestic green canopy of the Genesee Valley through time. Discover the Hemlocks of Hemlock Lake, the Dansville Dog woods, the Big Trees of Geneseo, and the Canaseraga waters "among the Elms". You'll meet giants, dwarfs, ornamentals, some fruitful, some nutty, some straight, some crooked, not all are green, some will be seasoned, and some have needled their way into this amazing canopy overstory. Yes, discover these Genesee Valley TREES: witnesses to natural disaster, conflict, invasion, generations, with special meaning and diverse purpose found in the Genesee Valley.
- March 28** **FREEDOM + IMAGINATION = INNOVATION** *DIANE K. POTTER Author and Illustrator*

Is your sickness chronic and the doctors can only treat symptoms? Do you have to live with pain and illness for the rest of your life?

Reach out right now to the One Who can save and heal. Gen 18:14 asks you a question: "Is anything too hard for the Lord?" And of course, the answer is NO! Matt 19:26 says ". . .but with God, all things are possible." It does not matter how bad a situation may seem, or what the doctor's diagnosis is. All things mean all things, including the healing of your body.

At Healing Rooms on the Genesee, our desire is to bring this healing power of God into the lives of those who are sick. We obey the commandment of Jesus for His followers, in Mar 16:18, ". . .they will lay their hands on the sick and the sick will recover."

Give us a call. We will come & pray for you.
