RADON is a cancer-causing radioactive gas that you cannot see, smell or taste. Radon is produced in the soil and moves upward to enter your home through the foundation or with groundwater from a well. The only way to know if you are at risk is to have your home tested for the presence of radon. The Livingston County Department of Health recommends that all households be tested for radon levels, and can provide free radon test kits to Livingston County residents who own a home. If you would like more information on radon or to request a radon test kit, please call 243-7280.

You'll meet giants, dwarfs, ornamentals, some fruitful, some nutty, some straight, some crooked, not all are green, some will be seasoned, and some have needled their way into this amazing canopy overstory. Livingston County Monitoring Coronavirus

The Centers for Disease Control and Prevention (CDC) is closely monitoring an outbreak of a respiratory illness caused by a new coronavirus (named "2019-nCoV"). This virus was first seen in China and continues to spread to other areas of the world. The World Health Organization has declared the new coronavirus outbreak a worldwide public health emergency.

Currently there are six confirmed cases in the United States. To date, no one has been diagnosed with this new coronavirus in New York State or Livingston County. Per the CDC, for the general American public, who are unlikely to be exposed to this virus, the immediate health risk from 2019-nCoV is considered low.

Since this virus is very new, health experts continue to watch how this virus spreads. It is probably spread from animals to humans and may be spread from person to person. It's not clear yet how easily Novel (New) Coronavirus spreads from person-to-person. It's important to know this in order to better understand the risk associated with this virus.

Common signs of infection include:

- **Fever**
- **Cough**
- **Shortness of breath and/or breathing difficulties**

In more severe cases, this infection can cause pneumonia, severe acute respiratory syndrome (SARS), or kidney failure.

The Livingston County Department of Health is working closely with the New York State Department of Health and other health officials to ensure the health and safety of our residents. There are currently no vaccines available to protect against human coronavirus infection. "While the immediate risk of this new virus to the Livingston County residents is believed to be low at this time, everyone can do their part to help us respond to this emerging public health threat", stated Jennifer Rodriguez, Public Health Director.

- Wash your hands often with soap and warm water for at least 20 seconds.
- Avoid touching your eyes, nose or mouth with unwashed hands.
- Avoid close contact with people who are sick.

It is important to be aware of the facts and use caution to protect both yourself and your family. If you have recently traveled to China or have been in contact with someone who has recently traveled to China, and are experiencing any symptoms please call your physician right away. For any questions or if you would like further information on coronavirus, please contact the Livingston County Department of Health at 243-7299.

Census 2020 Part-Time Workers Needed: Pay Rate is \$20/Hour in Livingston County

Geneseo, NY, February 5, 2020 — The U.S. Census Bureau is ramping up its national recruiting efforts to hire up to 500,000 temporary, part-time census takers for the 2020 Census in communities across the country to reach its goal of more than 2 million applicants.

The positions offer competitive pay, flexible hours, paid training, and weekly paychecks. For example, the pay rate for a census taker position in Livingston County is \$20/hour. To learn more about these positions or apply for one of the temporary jobs, visit 2020census.gov/jobs.

“Whether you’re looking to earn some extra cash, pay down your student debt, or offset holiday season spending, our part-time positions are a great way to do that,” said Census Bureau Director Steven Dillingham in a recent press release. “What better way to earn some extra money and help shape the future of your community for the next 10 years than with the 2020 Census?”

Anyone age 18 and older, such as recent high school graduates, college students, veterans, retirees, military spouses, seasonal workers and people who are bilingual are highly encouraged to apply. People who already have jobs and want to earn extra income evenings and weekends are also encouraged to apply. The selection process begins this month, with paid training occurring in March and April. After paid training, most positions work between May and early July.

The U.S. Constitution mandates that a census of the population be conducted every 10 years. Census statistics are used to determine the number of seats each state holds in the U.S. House of Representatives and inform how state, local and federal lawmakers will allocate billions of dollars in federal funds to local communities every year for the next 10 years.

For more information about the 2020 Census, visit the Census Bureau website or contact the Livingston County Planning Department at 585.243.7550.

Are You Sick?

For those of you who are sick, for those in pain, and for those who have a terminal illness, have you wondered what is the will of God in all that you are going through? Many people believe that their physical issues are the cards they've been dealt in life, and they're stuck playing those cards.

THIS JUST IS NOT TRUE!

Jesus said in John 10:10 that He came to bring life, and bring it abundantly. Pain, sickness and terminal illness are not living an abundant life, and God wants you healed and set free. Before Jesus left the earth, He told His followers to take the good news out to all people, to lay hands on the sick, pray for them, and they would recover. This is what we do at Healing Rooms On The Genesee.

Give us a call and we will come & pray for you.
