**RADON** is a cancer-causing radioactive gas that you cannot see, smell or taste. Radon is produced in the soil and moves upward to enter your home through the foundation or with groundwater from a well. The only way to know if you are at risk is to have your home tested for the presence of radon. The Livingston County Department of Health recommends that all households be tested for radon levels, and can provide free radon test kits to Livingston County residents who own a home. If you would like more information on radon or to request a radon test kit, please call 243-7280.

## Important Natural Gas Safety Information

Every February we send you a natural gas safety guide. This brochure is designed to help you learn what odorized natural gas smells like, and to know where to find additional information about natural gas safety. When you receive it, please take a few minutes to familiarize yourself and your family with its contents, including:

What's that awful smell? We add a distinctive odor to natural gas (similar to rotten eggs) to help alert you to a leak.

If you smell natural gas, get up, get out and get away! Then call us immediately at 1.800.743.1702 or 911 from a safe location.

Don't assume that someone else has already reported the possible leak, and don't attempt to locate and remedy the situation yourself. Thank you for taking the time to review this information. You can also visit our website for additional natural gas safety information.

# Positively Mount Morris

## Off To A Great Start for 2020

The Mount Morris Senior Nutrition Site is off to a great start for 2020 with help from a grant from the Genesee Valley Council on the Arts. A Site Council consisting mostly of individuals who participate in the congregate meal program, with help from the Office for the Aging, applied for the grant to expand activities at the site in response to participant input. When searching for presenters to offer an exciting addition to the current program, the group heard about Don Hooker of Don's Brush Art and Vinyl Effects in Nunda. Don is working with John Gordinier doing the transportation themed murals as part of the Inspiration Trail. Don cannot use his hands and does all his artwork with his mouth as he was born with arthrogyrosis, a disorder that causes multiple joint contractures at birth.

Everyone was reluctant at first to paint on a blank canvas, but many joined in after Don drew a barn and sunflower scene (pictured) and even helped Edie draw hearts that she could fill in with red paint. A few tried to paint like Don.

Everyone did an amazing job and had fun. A few remarked that they hadn't painted since they were kids, that it was fun, and they were glad they tried it again.

You can find the Mount Morris Congregate Meal Site at the VFW Building, 3 Elm Street, Mount Morris. Make and Take Arts & Crafts are held on Tuesdays at 10 am, FREE of charge.

Lunch is served at 12 Noon, Monday through Thursday. All Livingston County residents, ages 60 years & older are eligible to participate. Lunch Reservations are requested two days in advance by contacting Marchia at (585) 658-4513. Eligibility criteria apply - call for information.

*This special presentation was made possible with funds from the Decentralization Program, a regrant program of the New York State Council on the Arts with the support of Governor Andrew M. Cuomo and the New York State Legislature and administered by Genesee Valley Council on the Arts.*

## VA and PGA Offer Golf Program to Veterans

Veterans are invited to participate in a golf program beginning on Sunday, February 9, 2020 from 7pm to 9pm and continuing weekly until March 15, 2020 at the Paddock Chevrolet Golf Dome, 175 Brompton Road in Tonawanda. The program is organized by VA Western New York Healthcare System Recreation Therapy in partnership with the Professional Golf Association (PGA) Hope program.

Golf lessons will be given by local PGA professionals to Veterans as part of the program. Participants will also be provided with equipment if needed, training aids, balls and access to the golf dome at no cost. Veterans are encouraged to contact Patrick McGowan at 716-862-7376 or by email at Patrick.McGowan2@va.gov to participate.

According to the program organizers, golf is one of many therapeutic programs offered to Veterans enrolled in VA Western New York Healthcare System. Recreation and creative arts therapies focus on health promotion, disease prevention and improving quality of life by enhancing and maintaining motor, physical, social, and cognitive functioning. These therapies provide opportunities to build confidence, develop coping skills, and integrate the skills learned in treatment settings into community settings. Most of all, recreation and creative arts therapies provide a spectrum of services, opportunities, and choice for Veterans across the continuum of care to maximize their rehabilitation potential, increase independence, and sustain a healthy and meaningful leisure lifestyle.

## New Bag Waste Reduction Law

Starting March 1, 2020, a new bag waste reduction law will take effect in New York State. Plastic bag usage affects both our communities and environment. Plastic bags can be seen stuck in trees, as litter in our neighborhoods, and floating in our waterways. From the major recycling and disposal issues they pose to the harm they can do to wildlife, the negative impacts of plastic bags are easily seen.

You can help and #BYOBAGNY - Bring Your Own Bag. Keep reusable bags in your car, or clip folding reusable bags onto your commuting bag or purse so you always have them handy. Remember that every time you use a reusable bag, you are doing your part to prevent litter and waste. Using reusable bags makes sense and is the right thing to do.

The Bag Waste Reduction Law applies to more than just grocery stores. Whether you're going to the grocery store, clothes shopping, or to a home improvement store, make sure to bring your reusable bags.

While shoppers can bring any type of bag -- including film plastic -- note that there are many alternatives to choose from which are more environmentally friendly. Ideally, a bag should be washable and designed for multiple uses, such as one made from cloth. If you forget to bring a bag with you, many retailers will have reusable bags for sale. An option, such as paper, may also be available. Please note that stores are not required to have bags available for customers. Some stores may choose not to switch to paper and may only have reusable bags for purchase.

Starting March 1, 2020, all plastic carryout bags (other than an exempt bag) are banned from distribution by anyone required to collect New York State sales tax. For sales that are tax exempt, plastic carry out bags are still not allowed to be distributed by anyone required to collect New York State sales tax (unless it is an exempt bag). The law will affect anyone required to collect New York State sales tax, bag manufacturers and consumers. Cities and counties will also be involved. Under the law:

- Cities and counties are authorized to adopt a five-cent paper carry-out bag reduction fee. This means that in these areas, a consumer will be charged 5 cents for each paper carryout bag provided at checkout. In areas that have adopted the five-cent paper carryout bag reduction fee, the fee does not apply to SNAP (Supplemental Nutrition Assistance Program) and WIC (Women, Infants, and Children -- a nutrition program) recipients, and they are exempt from paying a paper carryout bag reduction fee for paper carryout bags. One way to avoid paper bag fees no matter where you are across New York State is to always bring your own bag.
- Stores covered under the NYS Plastic Bag Reduction, Reuse and Recycling Act will still be required to collect plastic bags and other film plastics from consumers for recycling. (Film plastics include items such as bread bags and plastic wraps that come over cases of water, paper towels and other similar items). As a consumer you can help by continuing to recycle these items at participating retailers.

Some bags are exempt under the law, so plastic bags may still be distributed to consumers in a few specific circumstances, such as a bag used by a pharmacy to carry prescription drugs, and produce bags for bulk items such as fruits and vegetables. But as a consumer, you can aid in protecting our environment by using reusable bags as much as possible.
