# What does Solar Energy mean for your community?

## DID YOU KNOW...

New York is proposing laws that will require solar panel manufacturers to collect their solar panels once they are taken out of use and impose restrictions on how panels can be disposed.

## Safe, non-toxic energy source

**TRUTH:** Solar panels being proposed for Ridge View Solar are safe and non-toxic, do not contribute emissions to the air or ground and do not use water to make electricity.

**IWD AND DAD A RECIPE FOR EQUALITY**  
March 8, International Women's Day (IWD). A day of recognition conceived in 1909 which has gained momentum throughout the World. Officially recognized by the United Nations in 1975. Some Countries do little to nothing to acknowledge IWD and other Countries rally around the day. A day meant to celebrate the rise of equality for women. Fun fact, in Italy Men offer Women yellow mimosas to celebrate IWD. That being said, the person I would like to speak about for teaching me that being born Female did not diminish my worth, is a Man, not a Woman. OMG What!???. Of course I recognize My Mom, Grandmas, Aunts, Sisters, Girl Friends, Eleanor Roosevelt, Rosa Parks, Marilyn Monroe, Dolly Parton, Pink and so many other women who inspire me to rise up and hold my head high everyday. But the Man who incited me to do anything a boy could do, was My Dad. Some of you may know him. His name is John Burgoon. As a young girl I never felt less than or less capable than a boy. It never occurred to me I would be viewed as unequal. I was expected to mow the lawn, climbed ladders, hit nails, sand my own car, think smart, never use Female as a crutch and much more. As long as I treated people fairly, worked hard and had respect for myself, I would reach that "ceiling". He said "Go ahead and pat yourself on the back, because no one will do it for you". So I try to be kind to myself, pat myself on the back, forge ahead and achieve. The recipe taught me equality is not about being like a man, but being strong enough to stand up for myself and never allow anyone to make me feel less than. Strength is not being hard-hitting, but fair. I realize that life's circumstances does not make this easy for everyone. So Dad taught me to count My blessings and be thankful that My life's lessons have gifted me the tools I need to be anyone's equal. I believe that it is not only important to have strong women in your life, of which I have many, but strong male role models teach us how to be respected and require respect. Dads teach us not to complain, but believe- in ourselves..do our best and persevere. For those women who where not feed the "Recipe of DAD - "Dedication And Devotion" or came from difficult circumstances, yet still rose to the level of self-respect and accomplishment, I bow to them. They prove that a past of distress does not have to define you but can give you the roots you need to grow strong and mighty. Today I celebrate International Women's Day and all who forge(d) the way for equality. History tells us equality has been a journey for women. So in that spirit, I will raise a glass of yellow mimosas to My Dad who helped pave the road to equality for me with his Book of Recipes. xoxo

**Albion village increases water, sewer rates**

By Tom Rivers, Editor Posted 2 March 2020 on [www.OrleansHub.com](http://www.OrleansHub.com)

**Village facing increased operating costs, capital improvements**

ALBION – The Albion Village Board voted last week to raise the water and sewer rates for users inside and outside the village.

Village officials say this is the first increase in six years. For most users, the increase will be 35 cents per 1,000 gallons of water and 30 cents per 1,000 gallons for sewer.

The village needed to raise the rates in response to increased costs for labor, materials and electricity, said Gary Katsanis, the village’s deputy mayor.

The village also is facing capital improvement projects for water and sewer. “In the sewer plant, the DEC mandated an additional processing step, which will use ultraviolet light as a disinfectant,” Katsanis said. “Installation is expensive and operation involves increased utility costs.”

The water distribution system also is aging and the village will be upgrading some waterlines, including an upcoming project on Clinton and West Academy streets. “We need to fund that, and we also need to evaluate other portions of the water distribution system to ensure that it is providing the pressure and flow that is needed by the community,” Katsanis said.

The village also will be replacing the main watermain from Lake Ontario to the village, and the major components of the pumping system for the main, which is about 60 years old, Katsanis said.

“The village has state support for a \$3.2 million repair and upgrade to that system, but there will be a significant cost to the village for that work,” he said. Currently the residential and commercial rates are \$3.26 per 1,000 gallons for water for inside-village customers and \$3.52 for sewer. Outside-village users are billed \$4.19 for water and \$4.45 for sewer.

There are also quarterly fees for water – \$5 administrative fee and \$5 water meter use – and \$10 administrative fee for sewer. The higher rates – add 35 cents to water and 30 cents to sewer per 1,000 gallons – will start on April 1 and be reflected in the water and sewer bills that come out in July.

Katsanis said the board recognizes that paying a water bill can be difficult for some community members. “With this in mind, the Board reduced the basis under which the minimum amount billed is calculated,” he said. “The current minimum bill is \$58.02 and is based on usage of 5,610 gallons per billing cycle. We reduced this minimum to 5,100 gallons, so that the new minimum bill is actually a few cents lower than the existing amount. The new calculation is based more on the principle of water customers paying for the gallons they actually use.”

The board will also phase in the increase for larger water and sewer customers. They will be billed the full new rate for up to 100,000 gallons. After that, the increase will be 17 cents this year and the other 18 cents in 2021.

## Orleans, Niagara teaming to apply for federal funds for high-speed internet

By Tom Rivers, Editor Posted 27 February 2020 on [www.OrleansHub.com](http://www.OrleansHub.com)

ALBION – Orleans and Niagara officials are teaming up for a joint application for federal funds to bring high-speed internet to underserved and unserved areas of the two counties. That's about 3,600 addresses just in Orleans County.

The two counties are seeking federal funds to cover 100 percent of the costs of extending broadband internet through the U.S. Department of Agriculture's ReConnect Program.

The Orleans County Legislature voted to pursue the grant on Feb. 26 and the Niagara County Legislature is expected pass a resolution in favor of the application next month. The application is due by March 16.

Orleans is taking the lead on the application. The two counties have been pursuing high-speed internet for several years through a two-county partnership, the Niagara-Orleans Regional Alliance.

David Godfrey, a Niagara County legislator from Wilson, believes this latest effort will pay off for the two counties. They first started working on high-speed internet in 2012.

The counties have pursued state and federal before but haven't yet been successful. Godfrey said he is very optimistic the counties will land ReConnect funding for a project that could top \$15 million.

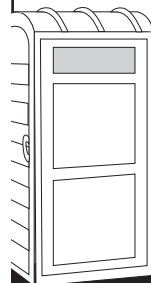

The counties are looking at putting in broadband through a fixed wireless system, working with vendor ROS Wireless in Framingham, Mass.

"It's extremely imperative we continue this fight," said Orleans County Legislator Ken DeRoller of Kendall. The lack of high-speed internet on many rural roads in the counties hurts businesses and residents, who download needed reports, homework and other information.

Godfrey said he is hopeful the grant will be awarded and the high-speed internet could be available next year for residents currently unable to access the service.

# Tips on how to write CLASSIFIED ADS that sell!

- 1 USE A KEY WORD.** This immediately tells the reader exactly what you have to sell.
- 2 Make your description CLEAR AND FACTUAL.** State the year, make, model, color & size and tell what condition the item is in. Also, state the special features.
- 3 STATE THE PRICE.** Successful classified advertisers have learned that the price in an ad helps increase the chances for results.
- 4 IF THERE IS A GENUINE SENSE OF URGENCY,** say so. The words "We're moving," or "Must sell fast," suggest that readers respond immediately.
- 5 INCLUDE YOUR PHONE NUMBER.** Classifieds get results fast and often generate immediate sales. If you cannot be available to answer the phone at all times, be sure to specify special calling times such as "after 9pm" or "before 11am."

# Obituaries

**Gilbert J. (Ozzie) Francis** passed away peacefully after a short stay at the Hildebrandt Hospice Care Center in Rochester, on Feb. 25, 2020. Born on Dec. 11, 1934, he lived and worked in this area his whole life. Besides his family, he loved the freedom of his sailboat, writing poetry and short stories. From an early age he enjoyed the challenge of tearing apart and rebuilding almost anything that had a motor. This love of machinery led him to create his own excavating-trenching business. He enjoyed the world of vintage cars, British racing cars in particular. Ozzie was passionate about music, books and reading, a deep love that he passed down to his children. He was a huge supporter of Albion Purple Eagle football and a fan of the NY Giants. He loved spending his time outdoors, and his favorite place to be was Lake Ontario. Ozzie was a good man who cared about social injustice, animals and the environment. It was natural for him to lend a helping hand to those in need. He delighted in the social aspect of coffee with friends, telling tall tales, and engaging in deep discussions. Ozzie was a member of the Albion Fire Department, the Albion Fireflies Drill Team, The Elks B.P.O.E. #1006, The U.S. Naval Reserves, The American Legion and was a member of their Clown Band. ## Wedding Dress Fitting Guide

The average person may be unfamiliar with custom-made or tailored items. In fact, a couples' wedding may be the only instance in their lives when they require the services of a seamstress or tailor. Fittings are a part of wedding planning, and here's how brides-to-be can navigate the process of finding and being fitted for a dress.

- **Try on sample gowns.** The first step is to make your rounds to various gown shops and try on the samples they have available. Most sample sizes will not be the size you wear every day, so expect them to be ill-fitting. Do not be discouraged. Once a gown is chosen, the dress shop will take your measurements and order the gown according to the manufacturer's sizing guide.

- **Schedule the first fitting.** The first fitting should be anywhere from eight to 12 weeks before the wedding date, according to experts at WeddingWire, an online wedding information provider. This is the time it takes to complete most standard alterations. Complex customizations can take even longer. Brides should also budget a minimum of \$500 for alterations, which may or may not be included in the price of the dress.

- **Bring shoes and undergarments.** Remember to bring along the exact shoes and undergarments you will wear with your gown. A change in shoes or bra/corset can result in the alterations fitting poorly the next time.

- **Speak up.** Speak up at fittings if anything is uncomfortable or needs tweaking. Seamstresses are masters at their crafts, but only if they understand the desires of the bride.

- **Check the details.** The second fitting is designed to check that all issues from the first fitting have been addressed, the gown is comfortable and you can move freely. At the last fitting, ask the maid of honor to come along so that she understands how to bustle or help you handle complicated straps or closures.

Open communication with a seamstress and bridal shop can ensure brides-to-be get a dress that fits like a glove. ■

### TAURUS – Apr 21/May 21

Taurus, there is no need to take everything on this week, Taurus. Focus on small details to keep yourself occupied and engaged for some time to come.

### GEMINI – May 22/Jun 21

Gemini, you have unique goals and ambitions. Do not let others' preconceived notions get in your way. Stay the course and reap the rewards of your hard work.

### CANCER – Jun 22/Jul 22

Think long and hard about what you have to say before you start sharing your opinions, Cancer. It is hard to retract statements, so choose your comments wisely.

### LEO – Jul 23/Aug 23

Move outside of your comfort zone this week, Leo. Doing so can be especially valuable as you embark on a new path that you believe will help you in the future.

### VIRGO – Aug 24/Sept 22

Virgo, skip any shortcuts this week, however tempting they may be, because they'll only cost you more time in the long run. Invest the time up front and you'll be rewarded.

### LIBRA – Sept 23/Oct 23

Libra, some time off in the days ahead provides a great opportunity for some relaxation and reflection. Make the most of this free time and form a plan for the future.

### SCORPIO – Oct 24/Nov 22

Scorpio, your social schedule has been busy of late, and the roller coaster ride does not figure to end anytime soon. Take some time for yourself to get away for a few days.

Aquarius, it is alright to share your latest successes with close friends or family and perhaps shout it to an even wider audience. You are modest about much of what you do.

### PISCES – Feb 19/Mar 20

Your brain is currently wired to make top-notch business deals, Pisces. Put all other plans on hold for the time being.
