EX TAPE.

Remember making a mix tape? Then it may be time to schedule your colonoscopy.

awaren The American Cancer Society has updated its recommendation for month! colon cancer screenings to start at age 45 for those at average risk* Because colon cancer develops with few symptoms, a colonoscopy is one of the most widely used screenings to help find precancerous polyps that can be removed before they could turn into cancer.

Talk with your provider about scheduling a colonoscopy. **800.424.DOCS(3627)**

The last job you'll ever love!

We are looking to fill a full-time position on our sales team. You'll receive the training you need to be successful in this role. And you'll have the ability to earn more income every month!

66

I was apprehensive before applying for the position. I only had experience working in gift sales. I knew nothing about advertising. EMG put me through paid training and let me watch other sales reps. That was 10 years ago! When a business tells me "working with you is a blessing," I can't help but smile every time.

- Lance Carter

66

Before working at Exchange Media Group, I thought they only worked in print. Come to find out, they help hundreds of digital clients, too! I love showing businesses how well our advertising works. I've seen countless businesses grow from working with us.

- Sissy Smith

When I first started working with Exchange Media Group, the extensive training was the most impressive part. It allows everyone on the team, no matter where we came from, to be the best we can be. As an employee, I love that our customers become our family. We're local, so we can really make a connection with them.
