Then it may be time to schedule your colonoscopy.

March is Colorectal Cancer awareness month!

The American Cancer Society has updated its recommendation for colon cancer screenings to start at age 45 for those at average risk.* Because colon cancer develops with few symptoms, a colonoscopy is one of the most widely used screenings to help find precancerous polyps that can be removed before they could turn into cancer.

Talk with your provider about scheduling a colonoscopy.

BIBLE TRIVIA

by Wilson Casey

Salome's Stars

1. Is the book of Leviticus in the Old or New Testament or neither?
2. About whom did Jesus say, "For they love to pray standing in the synagogues and on the street corners to be seen by men"? Physicians, Hypocrites, Sadducees, Adamites
3. From Genesis 29, what childless woman was jealous of her sister's fertility? Candace, Abigail, Rachel, Herodias
4. In what book do we find the story of Samson and Delilah? Judges, Numbers, Exodus, 1 John
5. From Genesis 39, whose wife tried to seduce a handsome slave? Daniel, Shimei, Potiphar, Achan
6. In Ruth 3, which farmer wonned his barley at night? Abner, Eleazar, Boaz, Joab

ARIES (March 21 to April 19) Disappointed about something that didn't go your way? Cheer up. Look at the reasons it happened, and you could find a valuable lesson about what to do (or not do!) the next time.

TAURUS (April 20 to May 20) It's a good time to do some reassessing of plans and goals -- even how you considered redoing your bathroom. The point is to be open to change if change can improve things.

GEMINI (May 21 to June 20) Take some time to learn who is the right person (or persons) to approach and discuss your ideas with for your new project. Also, reserve time to prepare for an upcoming family event.

CANCER (June 21 to July 22) Dealing with a demanding situation, as you recently did, could drain much of your own emotional reserves. Take time to relax and indulge yourself in some well-earned pampering.

LEO (July 23 to August 22) The regal Lion might feel that she or he is above emotional displays. But showing your feelings can be both liberating for you and reassuring for someone who has been waiting for you to do so.

VIRGO (August 23 to September 22) An emotionally needy person might make more demands than you can cope with. Best to ask for some breathing space NOW, before resentment sets in and makes communication difficult.

LIBRA (September 23 to October 22) An unexpected spate of mixed signals could cause serious schedule setbacks. Best to focus on straightening everything out as soon as possible and get everyone back on track.

SCORPIO (October 23 to November 21) Be aware that someone in the workplace could try to use a disagreement with a colleague against you. If so, be prepared to offer your side of the story with the facts to back you up.

SAGITTARIUS (November 22 to December 21) An unexpected challenge to a previous decision can be unsettling. But your reservoir of self-confidence -- plus your loyal supporters -- should help carry the day for you. Good luck.

CAPRICORN (December 22 to January 19) While the idea of making some sort of major move in the near future continues to interest you, don't overlook a new possibility that could be emerging closer to home.

AQUARIUS (January 20 to February 18) Be careful not to base an upcoming decision on gossip or anything you might hear if it can't meet provable standards. That's true regardless of whom the source might be.

PISCES (February 19 to March 20) You might still need to do some solid reassessing early in the week before you can close that sensitive situation. A new job-related opportunity could present itself later in the week.

BORN THIS WEEK: You are extraordinarily sensitive to people's feelings, and you're always ready to offer comfort if necessary.

HOLLYWOOD

by Tony Rizzo

HOLLYWOOD — After the disaster that was "Dark Phoenix," **Jennifer Lawrence** is back with a vengeance. She's already completed "Red, White, Water," with **Brian Tyree Henry**, and has just signed to star in director **Adam McKay's** Netflix comedy "Don't Look Up," about two low-level astronomers embarking on a media tour to warn mankind of an approaching asteroid that will destroy the Earth ... a comedy? Then she'll produce and star in "Mob Girl" for Universal, about novelist and Jazz Age socialite **Zelda Fitzgerald**. **Ron Howard** will direct. That's followed by yet another collaboration with Adam McKay, "Bad Blood," with **Elizabeth Holmes**.

Fresh from "The Irishman," **Martin Scorsese** will go in a different direction with his next project, which stars **Willem Dafoe**, **Tye Sheridan**, **Oscar Isaac** and **Tiffany Haddish**. "The Card Counter" follows Sheridan and Isaac through the world of casinos and gambling as they attempt to win a World Series of Poker tournament.

Justin Timberlake is playing Eddie Palmer in "Palmer," about a former college football player just out of prison who faces conflicts from his past while raising a young boy orphaned by his mother. Justin is taking on this serious role as he approaches age 40.

Sylvester Stallone is up next in "Little America," set in the future where America is bankrupt and turned into a war zone. Sly plays a former Army Ranger hired by an Asian billionaire to find his daughter.

In 1967, 20th Century Fox made a musical film fantasy with a star they thought was a sure-fire winner after his success and an Oscar for "My Fair Lady": **Rex Harrison**. But despite a top leading lady in **Samantha Eggar** and Broadway legend **Anthony Newley**, and one of the biggest Hollywood premieres of all time, "Doctor Dolittle" grossed only \$9 million of its \$17 million cost.

Depositphotos

Justin Timberlake

In 1998 they tried again, this time with Eddie Murphy, and bingo ... it cost \$70 million and grossed \$294 million. In 2001 they created a sequel with Murphy that cost \$70 million and grossed \$176 million. But Eddie balked at doing another "Dr. Dolittle," so a sequel was made with **Kyla Pratt**, who had played his daughter in the first two films. But theaters balked, and it was more profitable to send it straight to video in 2006. Lo and behold it was a hit, so a "Dr. Dolittle" 4 & 5 starred her and went straight to video in 2008 and 2009.

Flash-forward to 2020 and the latest "Dolittle" starring **Robert Downey Jr.**, which cost \$175 million and earned \$185 million. Downey played "Iron Man" in 10 films over 12 years, and will be brought back to life, through the magic of movies, in "Black Widow," out May 1. Guess all you have to do to become immortal is wear an iron suit or learn to talk to animals!

PIEDMONT PETS
March 12, 2020
By Paulette Dean

The constant tethering of dogs has been a hot topic for animal welfare advocates for many years. On one hand, some people have dogs cannot afford to fence in their backyard and do not (or cannot) have them inside. In areas where it is not legal to allow dogs to roam freely, a tethering chain provides confinement.

On the other hand, the constant tethering of dogs is viewed as unsafe, inhumane, and cruel. The Danville Area Humane Society shares that view and has worked for decades to help those dogs whose entire lives are lived at the end of a chain.

In 2010, the first tethering ordinance in Danville was adopted and in 2018 it was strengthened.

For a few years, advocates have tried to have a statewide ban on tethering passed in the General Assembly. This year, although it is not as strong as what advocates would have hoped, a law was passed that will help provide relief for dogs during weather extremes.

Senator Bell and Delegate Levine introduced bills that were similar, but not identical. Through compromises and hard work by advocates, both bills passed and were sent to a committee to see if they could be combined.

On February 27th, the shelter manager and I went to Richmond (for the fourth time this year) to meet with the committee and to speak about the successes of our ordinance, specifically dealing with temperature requirements.

We are thrilled that such a law passed and is now waiting for the Governor's signature. The law will prohibit the chaining of companion animals (I have seized chained cats before!) if the temperatures are 32 degrees and below or 85 degrees and above, as well as during extreme weather alerts. In addition, the minimum chain length must be 15 feet, not 10 feet.

We are grateful to PETA for the hard work on this bill. Is it perfect? No, but at least there will be some relief. Owners of chained dogs now will have a few months to plan for the new law.

We join animal advocates throughout various organizations in celebrating this first step to end the constant chaining of companion animals.

DCC Nursing Alumna Earns Doctorate

Danville, Va., March 4, 2020 — Danville Community College (DCC) alumna Whitney Harrell, née Minter, recently earned a doctoral degree, following her graduation from DCC's first registered nursing class in 2011.

Harrell, 29, of South Boston, holds a 2012 Bachelor of Science Degree in Nursing from Virginia Commonwealth University, a 2017 Master of Science Degree in Nursing, Family Nurse Practitioner, from Jefferson College of Health Sciences, and a 2019 Doctorate of Nursing Practice from Frontier Nursing University.

She earned these degrees all while employed full time, working and advancing through a number of esteemed local health-care organizations, including Roman Eagle Memorial Home in Danville where she worked as a charge nurse, was promoted to a nursing supervisor, and promoted again to assistant minimal data set coordinator. Upon receiving her certification as a family nurse practitioner from the American Association of Nurse Practitioners, Harrell began working at Carilion Clinic Internal and Family Medicine in Martinsville. Whitney married Winston Harrell of South Boston on June 29, 2019. She now works at Piedmont Access to Health Services (PATHS) in South Boston.

Originally from Axton, Harrell said she had always wanted to work in healthcare.

"Growing up, my mother was frequently in and out of doctors' offices and required a lot of medical care. I think that is what really interested me in the healthcare field," Harrell explained. "I chose nursing in general over another career in healthcare because it was a program I could complete in a reasonable time frame that would provide me with a decent annual income and living. I was attracted to the nursing program at DCC because, at that time, the only other program was the hospital's diploma program, and diploma programs were not as popular as they used to be. Also, DCC's program was a lot cheaper than the hospital's program."

She said that she attributes her success to the foundation of education she received in Pittsylvania County as a 2008 graduate of Tunstall High School and in Danville at DCC.

"I chose DCC for two reasons: I did not want to go far from home and from my family; finances also influenced my decision," Harrell said. "I grew up in a lower-middle-income household. I qualified for federal grants and scholarships to pay for my education at DCC and it seemed like a wise financial decision. I originally intended to complete my first-year studies at DCC and then transfer to Danville hospital's school of nursing; however, my plan changed after meeting with my academic advisor, Cathy Barrett. She informed me of DCC's new, upcoming RN program—at the time I began my first-year studies at DCC, they only had the LPN program. Mrs. Barrett helped me to register for two compressed anatomy and physiology courses with Dr. David Balfour so I would be eligible to apply for the first-year RN program when it started that fall."

From there, Harrell said, her academic path led her to create some of the fondest memories she has of college.

"I had a great experience at DCC. I feel like I obtained an excellent education that set the foundation for the remainder of my academic journey. I utilized a lot of resources that DCC offered and had a positive experience with my counselors, advisors, financial aid department, and teachers. DCC's greatest strength is its faculty. I encountered helpful faculty and well-trained professors during my time there," Harrell explained. "While reminiscing about my time at DCC and trying to figure out my fondest memory, I recalled a few good ones. I remember Dr. David Balfour yelling 'Give me candy' in his advanced anatomy and physiology course; I remember Mr. Jeff Smith, one of my favorite nursing instructors, frequently replying 'Ask Ms. McKinney,' as we were ironing out the first-year RN program kinks, but my best memory is probably my nursing pinning ceremony and, at the conclusion, we played 'Teacher, leave those kids alone' from the song 'Another Brick in the Wall' by Pink Floyd."

Now, known by her professional colleagues and patients as Dr. Whitney M. Harrell, FNP-C, she said she encourages current DCC students to take advantage of the many support services offered by the College, such as its tutoring center.

"My advice for current students is to utilize the services and opportunities that have been created to help you achieve success. I do not believe that any employee at DCC wants to see a current student fail and there are so many resources tailored for different student needs, all to help students achieve success and graduate," Harrell said. "My advice for prospective students is to weigh your academic options and discuss these options with your family, friends, and advisors. I absolutely love my community college and I am a huge advocate for taking full advantage of all the possible resources that are at your own back door, especially when these resources offer convenience and financial savings, with comparable outcomes. I am extremely satisfied with my decision to enroll and I have never regretted attending DCC. I would definitely do it again."

Since its first cohort graduated in 2011, DCC's registered nursing program has grown under the leadership of Director of Nursing Programs and Associate Professor Cathy Barrett. In March 2019, DCC's RN program was ranked as the number one program in Virginia by registeredenursing.org. Two months later, the program received the same ranking by RNCareers.org.

"We have an excellent nursing program at DCC. Our students are prepared to meet the ever-increasing complexity of the healthcare needs of our society. Our three-year aggregate NCLEX pass rate is 95.66 percent. We are very proud of our graduates," Barrett said. "Students who choose nursing as a career commit to lifelong learning. Whitney certainly exemplifies that commitment as evidenced by the completion of her doctorate."

Registration for the upcoming summer and fall terms at DCC opens on April 1. Information about the registration process is available online at danville.edu/getstarted.

Danville Community College is a two-year institution of higher education under the state-wide Virginia Community College System. DCC's service area includes the City of Danville, Pittsylvania County, and Halifax County. For more information about the college's nearly 100 programs of study, visit www.danville.edu.

Sovah Health Introduces Robotic-Assisted Total Joint Replacement Surgery to Martinsville

Innovative Technology Allows Surgeons to Personalize Procedures to Each Patient

Martinsville, VA - (March 9, 2020) - Sovah Health today announced that its Martinsville campus has added robotic-assisted technology for joint replacement surgery. Orthopedic surgeons who are specially trained to use the new system will use it for total knee and hip replacement procedures transforming the way joint replacement surgery is performed. Since welcoming the new technology in January, the surgical team has performed 18 procedures. The robotic technology was made possible by a nearly \$1 million investment from LifePoint Health, of which Sovah Health is a part.

"Patients often delay joint replacement surgery until the pain is unbearable, which affects their daily activities and quality of life," said Susanne Washburn, RN, Total Joint Coordinator at Sovah Health - Martinsville (SHM). "Having access to innovative robotic technology close to home is a great reason to consider a hip or knee replacement now, rather than waiting."

Benefits of robotic-assisted joint replacement may include:

- Smaller incisions
- Faster recovery
- Optimal implant placement
- Potentially reduced impact to surrounding soft tissue
- Dynamic joint balancing

It is important to note that in robotic-assisted joint replacement surgery, the entire procedure from planning to implantation is performed by an orthopedic surgeon. The robotic technology is an advanced tool that provides additional precision and accuracy for the surgery but does not replace the skill of the surgeon.

"Robotic-arm assisted surgery is changing the way joint replacement surgeries are performed by providing each patient with a personalized surgical experience based on their specific diagnosis and anatomy," said Dr. Uosife Alfahd, orthopedic and total joint surgeon at Sovah Health. "Using a virtual 3D model, the Mako System allows surgeons to create each patient's surgical plan pre-operatively before entering the operating room. During surgery, the surgeon can validate that plan and make any necessary adjustments while guiding the robotic-arm to execute that plan. It's exciting to be able to offer this transformative technology for our patients."

"The new robotic surgical system helps our orthopedic surgeons ensure the precise positioning and placement of the prosthetic joint during surgery," said Dale Alward, Chief Executive Officer at SHM. "We are proud to now offer this advanced robotic technology in our area as we expand our orthopedics program to meet the needs of our patients."

To learn more about robotic-assisted joint replacement and non-surgical ways to manage joint pain, patients can take a FREE health assessment at SovahOrtho.com.

OBITUARIES

"For whether we live, we live unto the Lord; and whether we die, we die unto the Lord: whether we live therefore, or die, we are the Lord's." - Romans 14:8

THEY'LL DO IT EVERY TIME

BY AL SCADUTO

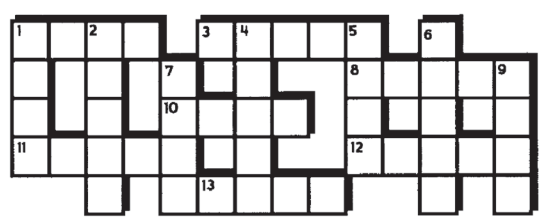

A SHOCKING PROBLEM! Find the hidden proverb above by reading every other letter as you go around the frame counterclockwise. Starting with the "C," along the top rail, read: "Curiosity killed the cat."

THE MYSTERY WORD!
"Pronounced as one letter, and written with three, Two letters there are, and two only in me; I'm double, I'm single, I'm black, blue, and gray, I'm read from both ends, and the same either way."
Answer: The word is "Eye."

LINK-UPS! Here's a list of 12, one-syllable words, divided into two columns. Turn them into six longer words by linking them together. To do this, draw a line from one word in the left column to one word in the right.

Answer: Rumbled, Pageant, Seethe, Marbled, Topsoil, Notice.

RECIPES

Southern Blueberry Cobbler

INGREDIENTS

- 4 cups Blueberries
- ½ stick Butter
- 1 cup Self-Rising Flour
- 1 ½ cup Granulated Sugar
- 1 cup Evaporated Milk

Instructions

- Preheat oven to 350F degrees.
- Place butter in a 9x9 casserole dish.
- Place dish in heated oven just long enough to melt the butter. Remove and set aside.
- Sort through blueberries to remove any stems, leaves or other debris.
- Place blueberries in a colander and rinse gently under cold running water. Let drain.
- Place flour in a medium size mixing bowl.
- Add the sugar.
- Add the milk.
- Mix together until fully combined.
- Add the melted butter.
- Mix again until fully combined.
- Pour mixture into the casserole dish.
- Spread blueberries over the top of the batter mixture. Do not stir.
- Bake at 350F degrees for one hour, or until lightly browned.
- Remove from oven and cool on a wire rack.
- Enjoy!
- Notes
- Can be made with fresh or frozen blueberries.
